House to aid patient families

BY KAYLA CARRICK STAFF WRITER

Since the birth of an idea in 2001, leaders have been working to fill the housing needs of hospital patients and their families.

The dream of building a 40-room house for critically ill adult patients, family members and care givers — particularly those staying at UNC Hospitals for an extended time period – could soon become a reality. The plan for Family House now

has made its way onto the town's political agenda in the form of a petition for a one-time \$25,000 grant. The Chapel Hill Town Council

referred the petition to the town staff at its Monday meeting. The grant could be payable dur-

"This is very small," said Greg Kirkpatrick, director of develop-

ment and capital campaign man-ager for Family House. "It's less than .5 percent of the total funding that we're asking for."

Similar proposals asking for help with the capital costs of the project also have been issued to Carrboro

A Virginia woman was served multiple warrants Monday in relation to a car chase she engaged in Thursday with Chapel Hill police on Weaver Dairy Road, according to Chapel Hill police reports. Kathleen Anne Banks, 44,

was arrested on felony charges of assault with a deadly weapon on an officer, possession of cocaine, pos-session with the intent to sell and distribute cocaine and speeding to

elude arrest, reports state. Banks also was served warrants ertaining to charges of drug paraphernalia, failure to stop for lights, damage to property and reckless driving, according to reports.

A N.C. State University student was arrested early Tuesday on charges of driving while impaired, Chapel Hill police reports state.

and to Orange County.

"It's a wonderful cause and a good way to get involved with the community," said Matt Hapgood, president of the Family House board of directors.

For the many families that already must pay medical bills, hotel costs are tough to handle.

"Family House is to act as afford-able lodging because there's nothing in Chapel Hill that's affordable

for a long stay," Kirkpatrick said. Family House needs to raise \$6.3 million to begin construction. So far about \$4.2 million has been raised through donations from organiza-

tions, corporations and individuals. The State Employees' Credit Union Foundation got the fund-raising ball rolling with a \$2 million gift in June.

This is really manageable. We're just going to keep putting out pro-posals," Kirkpatrick said.

With hopes of opening its doors in 2007, Family House has issued proposals totaling \$2.3 million and plans to raise funds throughout the Triangle after construction begins.

45 million Americans have genital herpes and...

Up to 90% of those infected with the virus don't know they have it.

Here are some other things you may not know:

- 1 in 5 Americans (teenage and over) have genital herpes.
- Most people infected with the genital herpes virus either don't recognize their symptoms or don't have symptoms

- at all.
- Genital herpes is often mistaken for other conditions. In addition to blisters and sores, other symptoms of herpes include bumps, cuts, itching, redness, or tingling around the genital area; vaginal discharge; or pain while urinating.
- One study found that up to 70% of people who had genital herpes got it from their partner when they had no signs or symptoms of an outbreak.
- · Having genital herpes may double the risk of acquiring HIV.

There's a simple blood test that can tell you whether you have genital herpes.

Get tested and take charge of your sexual health. The more you know about herpes, the more you can do to reduce its impact on your life.

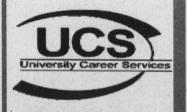

Call your health care provider to schedule a confidential appointment for a genital herpes test.
