Wrestlers, divers place in weekend competitions

WRESTLING

After winning its first two team atches at Saturday's Lone Star After winning its first two team matches at Saturday's Lone Star Duals, the North Carolina wrestling team couldn't complete the perfect day, managing just six team points against No. 19 Oklahoma. UNC defeated ky League oppo-nemts Brown and Harvard by a com-bined 57 points before falling to the Big Ten's Sooners 27-6. The Tar Heels are now 3-2 in dual meets this season. Descrite

Water supply should last until April

BY CAROLINE DYE STAFF WRITE

DURHAM - The Durham residents who attended a town-hall meeting Tuesday night were trying to figure out how long their water will last as drought conditions persist throughout the state.

In the midst of a discussion about shortages, officials also mentioned options for increasing the

city's long-term supplies. Ted Voorhees, deputy city manag-er of Durham, said the city could tap into the water supply of neighboring areas such as Cary. Participants discussed the water

deficit and the measures being implemented to conserve water, including stage IV water restrictions

Voorhees said recent rain has prevented the city from moving to stage V restrictions. He assured the crowd that Durham has the water capacity to meet demand through April of this year.

"Customers can help reduce demand, but the city's got to get more water," Voorhees said.

He also praised the residents of them wisely. Durham for their willingness to

The town-hall meeting, spon-

"This is an unusual phenomenon, but it's not unique by any means," he said. "Droughts are dif-ferent. It's hard to tell when they start and stop."

In 2007 stream flows in the Flat River, one of Durham's principal water sources, fell to their lowest levels in 80 years, Bales added. Robert Jackson, a Duke profes-

sor of global environmental change, said the drought is about more than a temporary water shortage.

Jackson said he hopes people will begin to see the link between the drought and global warming. He said August 2007 was the hottest month on record at Raleigh-

Durham International Airport. "Climate change is relevant, is coming and even perhaps is here," he said.

The town-hall attendees, many dressed in business attire, were joined in the Duke Gardens Visitor Center by several local officials, including Durham Mayor Bill Bell.

Cups of local tap water were provided alongside a humorous sign cautioning the audience to use

"Customers can help reduce demand, but the city's got to get more water."

TED VOORHEES, DURHAM DEPUTY **CITY MANAGER**

The Nicholas Institute al passed out a memo written h visiting senior fellow Bill Holma urging the city to adopt year-rour conservation and efficiency programs, as well as an increase in th price of water.

Residents of Durham aske the panel questions ranging from the technicalities of rainfall ca culations to criticisms that th city's water restrictions were to

When Laura Niugo asked ho Duke and the city plan to collabo rate in the conservation effort, Bell answered with confidence that the fact that city and Duke officials were there indicated that they were certainly cooperating.
