SUNGARD CONSULTING SERVICES

At SunGard Consulting Services both individual and company growth are core values. We want visionaries who bring their technical expertise to the table and contribute to our unique, employee-centric environment. From challenging projects to learning the latest technologies, SCS clearly stands out in the marketplace.

Whether building a system to meet our client's unique business needs, assessing and customizing a package software solution, or integrating existing systems, SunGard Consulting Services focuses on delivering a complete solution that meets the client's current business requirements and allows for future expansion of the business. At SunGard Consulting Services, we have perfected the following core capabilities to help our clients meet these goals:

Application Implementation	Data Integration	Technology Consulting	Business Consulting
Application Development	Business Intelligence	IT Architecture	Streamlining Processes
Package Installation	Data Warehouse Implementation	Program Management	Operations Management
System Integration	Advanced Analytics	IT Advisory Services	Performance Optimization

As a Consultant, you will work on a project team to deliver technology related solutions to our customers. Most of your projects will primarily involve designing, coding and testing technology solutions, you may work on IT strategy or process projects as well. You will interact with clients regularly and may write and deliver presentations. You will be expected to manage your own time and communicate status and issues to your project manager. You will also be involved in building our company by contributing to intellectual capital development, training or other activities that interest you. Consultants will gain experience with full life-cycle development and project methodology.

Opportunities in: Charlotte, Baltimore, Dallas, Houston, and New York
