### LATER FROM EUROPE.

ARRIVAL OF THE STEAMER BALTIC.  
Further decline in Breadstuffs.—Cotton depressed, and prices declining.  
BALTIMORE, March 7th.  
The steamer Baltic, from Liverpool, has arrived, bringing dates to the 22nd ultimo—three days later.  
Below we send latest commercial and political intelligence.  
LIVERPOOL MARKETS, Feb. 28.  
BREADSTUFFS.—We note a decline of 1/2d per bushel in Wheat, of 6d per bushel in Flour, and of 6d per quarter in Corn, to arrive. Market dull.  
COTTON.—Market dull and prices depressed. Sales for the three days \$5,000 bales. Good staple unchanged in price but inferior qualities have declined 1-1/2d since the departure of the last steamer.  
MONEY MARKET.—Consols unchanged and Market steady.  
POLITICAL INTELLIGENCE.  
ENGLAND.—The proceedings of Parliament possess little to interest the American reader. M. Kossuth denies the authorship of the address to the Hungarians in Italy lately promulgated in Milan.  
The weather in England has been unusually stormy. A deep snow had fallen, and the prevalence of strong easterly winds rendered it probable that the storm would last several days. A rumour was prevalent in London to the effect that France and England contemplated entering into a treaty whereby the power of the northern States of Europe might be counterpoised.  
ITALY.—Marshal Radetzky has issued a proclamation declaring the property of rebels confiscated. The frontiers of Lombardy were closely guarded, and every precaution used to ferret out the disaffected. Mazzini had been seen on the frontier, but had escaped arrest. Staff also succeeded in eluding the Austrians. The former has, it is reported, been distributing money to the disaffected.  
The gates of Milan were still closed at last accounts, and troops were constantly arriving. The people had been ordered to refrain from whistling or singing in the streets; two additional political offenders had been hanged, and it is thought several Hungarians have been privately tried and shot at the castle.  
Some few arrests have also been made at Genoa.  
HUNGARY.—The London Advertiser learns that an extensive conspiracy has been discovered in Hungary. The country is in a very unsettled condition.  
AUSTRIA.—An attempt has been made upon the life of the Emperor. The assassin (a tailor, named Lasso Brennegg) was cut down and secured by the Emperor's aid de camps. He succeeded in wounding the Emperor slightly.  
The authorities have ordered no less than five thousand suspected persons to leave Lombardy in twenty-four hours.

### Items of News.

Footn has published a card stating that he will make no appointment. So that unless Col. Wheeler or some one else is appointed by Gov. Reid, the question of the Governor's right to fill such vacancies will not come up.

ALEX. MILLER.  
WILLIAM P. MOORE.  
BENJAMIN JACOBS.  
Newbern, March 4th, 1853. 7 ft

When, in 1775, the chief command of the Armies of the United States was tendered to Gen. Washington, in so urgent a manner that he could not decline, he pledged himself to exert every power he possessed in the service of the country, and in replying to Congress he entered this emphatic disclaimer:  
"But, lest some unlucky event should happen unfavorable to my reputation, I beg it to be remembered by every gentleman in the room, that I this day declare, with the utmost sincerity, I do not think myself equal to the command I am honored with."  
NEW USE FOR BEDBUGS.—The New York Sunday Atlas announces that a discovery of the utmost importance to wine drinkers has been made by Mr. Struggles, a maker of port and champagne wine in New Jersey. The Lancaster Express from which we derive our facts, states that the rapid consumption of cockroaches used to give a nutty and peculiarly piquant flavor to wine, had made it difficult to find a sufficient supply. In this dilemma the wine maker conceived the happy idea that bed bugs might be used as a substitute. He tried the experiment, and the result was far more satisfactory than he had anticipated. It was found that a quart of bedbugs contained as much of the flavoring principle as three pints or more of the roaches—and that the former have but little of that narcotic or sleep producing effect which is attributed to the latter. Contracts have been made with some of the fashionable boarding-house keepers in Philadelphia and New York for an ample supply of this new article of traffic. It is thought the boarders will be somewhat pleased with this intelligence.  
A bust of Ex-President Fillmore, by Dr. Horatio Stone, the eminent sculptor of New York, of pure Italian marble, is now in the rotunda of the capitol, previous to its being deposited in the presidential mansion. It is a tribute of respect by gentlemen of both parties to the late Chief Magistrate.  
GEORGIA ENTERPRISE.—Since 1836, the city of Savannah has invested \$7,000,000 in railroads and other works of internal improvements. The population of Savannah in 1836 was 7,000, white and black. In 1850, it was more than 16,000.—An increase of about 130 per cent. in 14 years.

### MUSTANG LINIMENT.

THE REASON WHY IT SUCCEEDS.—The Mustang Liniment has attained its enormous popularity, and almost universal use, simply because it gives better satisfaction, accomplishes more good, relieves more pain, and heals more wounds and sores than any other preparation ever before offered to the afflicted. Every bottle that is used, speaks for itself—tells its own tale in the relief it gives, and the cure it effects. And the one who has suffered perhaps, long years with pain, without hope of relief and finds in this Liniment an almost instantaneous remedy, cannot help but speak in its praise, and recommend it in the highest terms to all that he sees suffering. It needs no other recommendation than a trial. See advertisement in another column.

HOLLOWAY'S PILLS.  
CURE OF A DISORDERED LIVER AND BAD DIGESTION.  
COPY of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescott Street, Liverpool, dated 4th June, 1851.  
To Professor Holloway:  
Sir—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines, for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the violence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills and she informs me that after the first, and each succeeding dose she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favor of your astonishing Pills. (Signed) R. W. KIRKUS.  
AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND.  
Copy of a Letter inserted in the Hobart Town Courier, of the 1st of March, 1851, by Major J. Welch.

A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredible short space of time, they effected a perfect cure.

To Professor Holloway:  
Sir: I desire to be testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise with ease. (Signed) HENRY COE, North Street, Lynn, Norfolk.  
These celebrated Pills are wonderfully efficacious in the following complaints.  
Acne, Female Irregularities, Retention of Urine, Asthma, Fevers of all kinds, Scrofula or King's Evil, Bilious Complaints, Fits, Sore Throats, Blisters on the Skin, Gout, Stone and Gravel, Bowel Complaints, Head-ache, Secondary Symptoms, Colic, Indigestion, The Douleur, Constipation of Bowels, Inflammation, Tumors, Consumption, Jaundice, Ulcers, Debility, Liver Complaints, Venereal Affections, Dropsy, Lumbago, Worms of all kinds, Dysentery, Fits, Erysipelas, Rheumatism, Weakness from whatever cause, &c. &c.
