The States will continue to represent the sound Institutional principles of State rights, which have tive to the character of this New Book, nor need they say that it will be the most amusing work that has been issued in half a century, for, it need only be known that "MOSE" wrote it, to satisfy all en to party as to betray principle at the confamand of these points. While it will be an amusing work, illustrated with proper designs and cuts to show up persons and things in their true light, it will be free from Vulgarity, and, will have for its chief object the correction of the many absurdities so prevalent in the present day.

The Journal will continue, as heretofore, Independent on all subjects. It will take sides with no political party, but will advocate such measures as are thought best calculated to promote the interests of the country and of our State.

As to the different localities in this vicinity, it is not our object to show partiality, but to advocate the claims of Beaufort Harbor, and leave Beaufort, Morehead, and Carolina Cities to stand on their own merits-believing that more good can be accomplished in this way than in discussing the claims or advantages of localities;-and we appeal to the citizens, those interested, and to the friends of these places, to give us their support.

The completion of the Atlantic & North-Carolina Railroad is near at hand, and it is very important that the only paper published on this Harbor should be widely circulated, in order that its Commercial advantages may become better known. In its political complexion the Southern Statesman will be the unwavering advocate of the principles of Democracy, as expounded by Jefferson, Jackson, wishes to keep himself familiar with the progress Polk and others, believing that under these principles, the union of the States and the perpetuity of our glorious form of Government will be more likely to be maintained than by any other party in existence

We shall expect our paper to be the medium of News from the Churches; and shall publish a sufficient amount of moral and religious matter to make t a safe and desirable Family Newspaper

In short, to do good is our object, and will, thereore, be our greatest aim. This we hope to accomplish, by making our paper as free from errors as our capacities will enable us.

OF THE SCIENTIFIC AMERICAN. VOLUME XIV. BEGINS SEPTEMBER 11, 1858.

Mechanics, Inventors, Manufacturers and Farmers !

"The Scientific American has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, alistruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical and industrial, worlds, as to please and instruct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to make any substance em- accommodation of counsel, making in all avolume ployed in his business, if the Housewife wishes to get a recipt for making a good color, &c .- if the Inventer wishes to know what is going on in the way of improvements-if the Manufacturer wishes to keep posted with the times, and to employ the best facili-ties in his business-if the Man of Leisure and Study made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other machines and appliances, both of peace and war-all these desiderata can be found in the Scientific American, and not else. where. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

Its regular circulation has not been diminished even during the unexampled financial revulsion, which has proved disastrons to so many literary and commercial enterprises; and they are assured from every quarter that the Magazine is recognized as a necessity rather than a luxury. They therefore announce no "New Features " for the future. #### Miscellaneous.

SENSE .- A rough common sense pervades the following, in which there is certainly more truth than poetry:

"Great men never swell. It is only three cent inviduals who are salaried at two hundred dollars a year and dine on potatoes and dried herring, who put on airs and flashy waistcoats, swell, puff, blow, and endeavor to give themselves a consequential appearance. No discriminating person can ever mistake the spurious for the genuine article. The difference between the two is as great as that between a bottle of vinegar and a bottle of the pure juice of the grape."

A MUSICAL BED .- The last novelty from Germany is a musical bed, which receives the weary body, and immediately "laps it in Elysium." It is an invention of a mechanic in Bohemia, and is so constructed that by means of hidden mechanism, a pressure upon the bed causes a soft and gentle air of Auber to be played which continues long enough to lull the most wakeful to sleep. At the head is a clock, the hand of which being placed at the hour the sleeper wishes to rise, when the time arrives the bed plays a march of Spontoni, with drum and cymbals, and in short, with noise enough to rouse the seven sleepers.

AN ENGLISH CAPTAIN LOVES A FISHERMAN'S BEAUTIFUL DAUGHTER .- In England, lately, a suit for breach of promise of marriage was brought by a fisherman's beautiful daughter against a captain in the English army, fixing damages at \$50,000. The love letters of the gallant captain were so numerous that they were printed for the of 198 pages. The matter was finally compromised by the payment to the injured lady of the sum of \$10,000, with the promise that the volume of letters should be burnt.

ANOTHER JENNINGS' CASE -The estate of John Lawrence, Watertown, England, amounting to millions of dollars, is claimed by John R. Highton, Thomas Brane Highton, Mehitable Edwards and Mary Cone, of Georgia. Their agent, Levi S. Russel, Esq., has gone to England to substantiate their claims. The Savannah News learns that the proof of heirship is positive.

During the search instituted by the editor of the Newark Times for female compositors, it is reported that the following dialogue took place : BRISTER-"Good morning, Mr. Henpeck. have yoù got any daughters that would make good type-setters?"

HENPECK-" No- but I've got a wife that would make a good 'devil.'"

SHOOTING HER SEDUCER .- At Boston, on Wednesday evening last, a young woman named Mary . A. Douley, shot one Patrick Canney, a grocer, whom she alleged had seduced her under a promloaded with two balls, each of which produced a wound, neither of them however are likely to prove fatal.
