OF THE SCIENTIFIC AMERICAN.

VOLUME XIV. BEGINS SEPTEMBER 11, 1858. Mechanics, Inventors, Manufacturers and Farmers ! The Scientific American has now reached its Fourthruth Year, and will enter upon a New Volume on the Illa of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it so deals with the great events going on in the scientific, mechanical and industrial, worlds, as to please and instruct every one. If the Mechanic or Artizan wishes to know the best machine in use, or how to make any substance e npleyed in his business, if the Housewife wishes to get a recipt for making a good color, &c .- if the Inventor wishes to know what is going on in the way of improvements-if the Manufacturer wishes to keep pasted with the times, and to employ the best facililies in his business-if the M in of Leisure and Study wishes to keep himself familiar with the progress unde in the chemical laboratory, or in the construction of telegraphs, steamsnips, railroads, reapers, mowers, and a thousand other machines and appliences, both of peace and war-all these desiderata can be found in the Scientific American, and not elsewhere. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science

SEVENTEENTH VOLUME. The Publishers of Harper's New Monthly Magazine refer to the Sixteen Volumes already issued as the best assurance that no labor or expense will be spared to render it worthy of the liberal support which it has received. They believe that the Magagine now embraces in its general plan every thing essential to an attractive literary puscellany, adapted to the wants of the American Public. Its regular circulation has not been diminished even during the thexampled financial revulsion, which has proved disastrous to so many literary and commercial enterprises; and they are assured from every quarter that the Magazine is recognized as a necessity rather than a luxury. They therefore announce no "New Features, for the future. They will continue to fill the Magazine with articles inculcating sound views in Life and Morals; leaving, as heretofore, the discussion of secturian opinions in Religion, and sectional questions in Politics to their own appropriate organs. Wise men and true patriots agree upon points far more numerous than those upon which they differ. The object of the Magazine will be to unite rather than to separate the views and feelings of the people of our common country.

The Publishers do not flud it necessary or expedient to appeal to public attention by issuing "Specimen Numbers" containing an unusual amount of matter or illustrations. They intend that every Number shall prove the Magazine to be the best and cheapest periodical published. It will contain a larger amount of matter, more numerous and better Illustrations, printed in a better manner, than any other Monthly Magazine; and the Publishers are confident that it will deserve and receive the same cordial appreciation and liberal patronage which

present issue,) namely Democratic.

The best energies of the proprietors will be directed to any and all measures fending to resuscitate the dormant powers of "Old Athens," and particularly to keep the people posted on what we are really doing; with this determination, they will furnish a faithful record of all statistics which may be in their power to obtain, in addition to any commercial information which can conduce to the welfare of our mer-

cantile interests. The Farmer will find in the New Era a column | One page, from which he may glean some information in addi- Half page, tion to his previous store of agricultural knowledge. The Literary man, will we trust, discover that, in

SKILLFEL SURGICAL OPERATION .- Some eight months ago, Mr. Addison Holden, of Leasburg, N. C., while shooting a fowling piece, had the misfortune of getting a percussion cap buried in one of his eyes near the pupil; the eye soon in-flamed and he suffered the most excruciating pain from it. The young man was taken to the most eminent Surgeons in our State and the eye operated on, but to little effect, farther than to modify the excitement and allay the pain-the buried cap remained, until a few days ago, Doctor Wootten, of Danville, Va., who happened to be passing through Leasburg, met Mr. Holden in the road, and learning the condition of his eye, got out of his sulky and cut the cap out with his pen knife! The operation was one that required the nicest skill in optical surgery, and it was performed by a master hand.

To speak of the Fair in general terms, we may say that it has been 'eminently successful. The exhibition, intrinsically, was equal to any of former years-numerically considered, it was much superior The attendance, particularly on Wednesday and Thursday, was never before so large. The weather was almost as good as could have been desired-rather dry, perhaps. The receipts, we understand, compare very favorably, whilst the membership shows a decided increase.

A LARGE ADDITION .- We rejoice to learn from the pastor of Centre Church, Robeson Co., Rev. F. K Nash, that at the communion last Sabbath, 37 members were received by examination. This large and encouraging addition is a result of the revival in the church last Spring.

N. C. Presbyterian. PRIZES FOR WILMINGTON. - We learn that tico Cups for trotting matches have been won by Wilmington Horses at the State Fair, one of them by Mr. C. Corneblson's "Joe Smith," and the other by a horse belonging to Mr. D. J. Sutherland .- Journat.

STAMPEDE FOR THE WEST .- A large emigration from North Carolina to the West is going on. A caravan of 59 persons left Lincoln county N. C., last week. A large number are leaving Davidson and other counties of the State.

John W. Lewis, of Halifax, Va., sold at Milton, N. C., on Thursday last, a lot of vellow leaf tobacco, this year's crop, for \$150 per hundred.
