"Hyde County Trade---Newbern vs. Washington."-Strange Sentiments from a New bern Journal.

We make the following extract from an editorial in the last issue of the "Newbern Gazette," in order that we may offer a few remarks thereon :

"Some time since we inserted an article written by a "Newbernian," in relation to the trade of Hyde County with Newbern. We have now concluded to give our own views of the matter. It will be recollected that the Steamer "Post Boy" plied between Washington and Hyde County for a long time, and that dissatisfaction on the part of a majority of the stockholders changed her schedule to the present route. Newbern had the advantages of a Railroad and some other facilities which Washington did not possess, and the stockholders thought that Newbern would Rut we assert, and on the authority of busiterms. ness men of Newb rn and Hyde County, that this is a mistake. As "Newbernian" stated: "There is not a house in all Newbern that is willing to accommodate these people as in Washington." It will not do for our merchants to plead that they have no means of transportation-that they pay heavy railroad frieghts, &c. No, it will not do It is no excuse whatever-Washington labors under a greater disadvantage; but her merchants content themselves by a reasonable percentage, and thereby secure trade. The Newbern merchants, instead of doing this, have added such a er cent. that they have driven the trade away. The Washington merchants estimated the Hyde and we can with some certainty state that Newbern is now getting about one sixth ! There is a regular packet running between Hyde County back merchandise. Newbern merchants, do you see that ! and are you going to allow it to continue so? No, no; spur up, advertise, visit the Hyde County people, mingle with them and, if possible, secure their trade"

Really the statements contained in the above article would be startling to our business men had they any foundation in fact, but we are persuaded they have not. The credulity of the wellwritten the article.

mer "Post Boy" plied between Washington and Hyde county for a long time, and that dissatisfaction on the part of a majority of the stockholders changed her schedule to the present route." Here the editor makes a serious blunder. It was not on account of dissatisfaction on the part of the operations may lead him. stockholders that brought the steamer to Newbern, but it was the stock taken by Newbern men which could not be obtained from the business community of Washington that brought her here. Had the Washington merchants have taken the forty-odd hundred dollars stock in the boat which they were required to take to retain her, she would doubtless have continued to run to that place, but they refused to do so-the Newbern merchants did make up the amount, and thus

Washington. We think, in sober earnestness, that the Editor of the "Gazette" should inform himself better and be more careful about his sources of information, or confine himself entirely to poetry and fiction. Love stories may be harmless, but mis-statements relative to the business of a community are not harmless.

WHAT HAS BECOME OF IT ?- We have not received a number of the Daily (Newbern) Progres for about two weeks. What has become of acquaintance ! We should regret to hear that it had stopped, and we are not conscious of having done anything to incur its displeasure, and we hope soon to see it on our table again

We are neither defunct nor have we cut your acquaintance, intentionally. No probability, Mr. Patriot, that the Progress will become defunct. We expect it to live long enough to chronicle the demise of several State papers of much larger dimensions and much higher pretensions than any claimed for it. We trust, however, the Patriot surely buy and sell on the same accommodating will not be among the unfortunates over whose grave it will have to drop a tear.

When our daily was first started we sent it to nearly all the weeklies in the State, and continued to send it until our weekly was established, when we ordered all our weekly exchanges to be run of work. struck off of our daily and transferred to our weekly mail books. We regret that in making this change the Patriot and Times, Greensboro', were overlooked. All is right now, however, and vou will receive our weekly for yours. We would most willingly continue to send our daily to all the State papers, but at the present rates of paper County trade at two hundred thousand dollars, we cannot afford it, as thirty or forty copies of a daily would aggregate a considerable sum in the course of the year for paper alone. When our and Washington, bringing freight and carrying income gets to be large enough to afford it we will send our daily in exchange for every weekly in the State.

WILL CHANGE PROPRIETORS .- There is a rumor on the street to the effect that Mr. Murray has sold out the "Newbern Gazette" establishment to Mr. W. B. Smith, of Virginia. Mr. Smith has had considerable experience, we believe, in meaning editor of the "Gazette" certainly must newspaper business, is a gentleman of cultivated have been imposed upon, or he would never have mind and fine talents, and will no doubt, make the " Gazette" a most excellent, Literary and

Cheap Printing.

The low prices and the superior manner in which we have been doing Job Printing has produced quite a rush to the "Progress" office. This is as it should be, and proves conclusively that promptness and a liberal policy, in the management of any business is the best. We now keep two first class hands in the job Department, and though we have been doing, and continue to do, a large amount of work, not a single job has

Of course we shall have some vexations and annoyances to contend with at first, but, we trust, in a few days to have every thing, working to the satisfaction of our friends and the public.

LEFT NEWBERN.-Judge Heath left our town this morning, for Trenton, where he will enter upon his duties in opening the Fall Term of the Superior Court for Jones county to-day. His Honor had a hard time of it here last week We learned from a member of the Special Court of be likely to occupy more than four days. The reason he assigned for not having more business on their County and State dockets, was that the people of Jones are too intelligent to pay their money to lawyers.

DISGRACEFUL ROW IN A NIGGER CHURCH .--LAND At the regular monthly meeting of the South Baptist African Church, in New Bedford, on GRAI Monday last, a shameful fight took place among the darkies. The Standard gives the following account of the disturbance :

But we assert, and on the authority of business men of Newbern and Hyde county, that this is a mistake." Now pray tell us who the " business men of Newbern," that so under-rate their own ability to buy and sell cheap, are ? That other portion of the community who think that we can buy and sell to an equal advantage with our neighbors, would like to know them. Tell us further, pray Mr. "Gazette," what kind of produce brings a better

price in Washington than in Newbern, and also can be bought, by the people of Hyde, or any oth, er people, cheaper in Washington than in New do, give us facts.

But listen how he goes on Speaking of Washington he says: "But her merchants content themselves by a reasonable per centage, and thereby secure trade. The Newbern merchants. instead of doing this, have added such a per cent. that they have driven the trade away." Now really did we not know that the editor of the more attention than any one in the State to its "Gazette" was a singular kind of genius, some- History,-of the character of the forthcoming what given to dreaming, love, poetry, vision-seeing, &c., we should certainly come to the conclu- that it " exhibits a range and extent of informasion that he was publishing a paper in Newbern, by contract with the Washington merchants, to advocate their interests, and that he was very zealous in the discharge of his duty.

The exhibition of mathe increased and increasing business of our wander about the desolate grounds, with faces town ought to make similar impressions on a which indicate anything but approbation. In mind even as ethereal as that of the Editor of the consideration of the sum of fifty cents, the curious "Gazette." One other thing. The man that nothing of having avoided a bore of the first wrote that letter, though he signed himself " New- magnitude. The amiable visage of Barnum is bernian," can have but little to identify himself with Newbern, or if he has, is certainly sadly wanting in judgment and consistency. The merchants of Newbern give as much and more for produce than do the people of Washington, and goods of all kinds are sold as cheap or ment, and we respectfully submit that the omischeaper in Newbern than the same can be had in sion should at once be supplied."

Mr. Smith arrived in town yesterday evening, and we learn that the next issue of the paper will contain his salutatory and Mr Murray's valedictory, Should any one else want to buy we have only to say-ours is not for sale.

DEAD .- Died, in this town, at the residence of his parents, on Thursday night, the 14th inst., Frank P., son of William and Eliza Robinson, aged six years and three days.

Poor Frank's death was quite unexpected., He had been confined to his bed some ten days, but his disease until sbout 10 minutes before his death had evinced no dangerous symptoms. He never complained nor spoke of pain, unless when asked to tell where the seat of his pain was. His reply was always uniform and in two words. The fatal Frank's sufferings were over-his attle spirit had passed into eternity .- Goldsboro' Tribune, 29th ult. The subject of the above notice was an interesting, sprightly and very intelligent little boy, one who bid fair, had he lived, to have become the pride of the family circle and an honor to his parents. If ever there has been so thorough an exposure of that hypocitical cant with which the abolitionists of Old and New England are prove to favor the world, we have failed to see it. We wish every one of them was obliged to read it.

By the way, we may state in this connection the opinion of Gov. Swain,--who has devoted volume. Gov. Now IS THE TIME .-- - Mcssrs. Geo. Allen. Emmet Cuthbert and J. M. F. Harrison, have all returned from New York and are now opening and exhibiting the largest stocks, perhaps, ever brought by them to this market. The very low prices at which our merchants sell superior Dry Goods has made the Newbern stores very popular with the people of the adjoining counties.
