The Stockholders met in the Court House at 11 o'clock this forenoon, and organized by calling plied, and attended by a careful ostler; and to all departments the proprietor gives his personal atten. and appointing John N. Washington and Patrick tion. A comfortable Omnibus runs regularly to the depot on the arrival of the cars. With these efforts with W. A. Wright, Esq., were appointed a Comto please, a liberal skare of the public patronage is confidently solicited. WM. ROWZEE. mittee to verify proxies and assertain the amount of stock represented individually.

The committee on stock reported as follows: Shares represented in person; 2,218; by proxy, ,963-total 10,181, which being a majority of the whole amount of stock, the Convention was declared ready for the transaction of business.

The report of the President and Directors was read by Hon. Wm. S. Ashe, President.

From the report of the President and Directors and accompanying report of the Engineer and Superintendent, we learn that the total receipts of the company for the year ending Sept. 30th, 1858, have been \$446,583 30, being \$47,925 26 less than during the last preceeding year, while the reduction in expenses has amounted to \$46,813 53, exhibiting a falling off in nett income of only one be misled by false out cries of " harelings and ser- thousand dollars, which is believed to be a remarkably favourable result, in view of the fact that the past year has been one of the most trying upon the business of the country generally and of the Rail Road interest in particular. Indeed, taking into account the reduction of floating debt the nett profits of the road have been \$2,177 23 in advance of the preceding year.

The main falling off in the receipts has occur-Southerner to attend to their wants and comforts, The house is admirably located, especially for and, perhaps more than either, the difficulty if not business men, being on Courtland Street, only a few impossibility of keeping up a through ticket arand, perhaps more than either, the difficulty if not rangement between this point and New York. A mode is suggested by which these constantly occurring difficulties may be removed, to the certain benefit of the Company and of the travelling public. To this matter we have, from time to time, called attention through the columns of the Jonrhal. The first English debt of the Company falling due this year, has been arranged by the payment of one-third in cash and an extension of time upon the balance. The debt of the Company on the 1st October, 1858, was \$944,726 25. Of this debt \$200,000 consists of the bonds of the Comdirect supervision and management of Messrs. JOHN pany endorsed by the State, which are payable in JARRATT & BRO., who will use every exertion to equal installments, on the 1st January, 1859, 1860, 1861, 1862 and 1863. The report goes on to say that "these payments can be readily made, as they fall due, by withholding a semi-annual dividend, thereby distributing among the Stockholders \$46,000, instead of \$92,000, for'the ensuing five years; or, if the State would renew its endorsement for a short period of time, say four, five, six or seven years, the debt could be easily paid without any interference with our seven per cent. dividend. The matter is respectfully submitted to the Stockholders for their determination. Our six per cent. bonds, issued in 1848, amounting to \$443,555 56, will fall due in 1868. The legitimate accrues from our sinking fund will put the Company in full possession of means to meet this debt at maturity, as well as to liquidate the bonds endorsed by the State. We will then have four additional years to meet the debt of \$146.441, which has just been extended. Thus at the expiration of fourteen years the Road will find itself relieved of debt, and that, too, after a regular annual distribution of seven per cent. dividends." Upon the whole, we cannot but regard the showing as highly satisfactory ; indeed, we know that several gentlemen highly interested in the road, were most agreeably surprised on finding the exhibit was so good, since it is known that there has been hardly a Railroad Company in the country that has kept clear of difficulties during the past year of panic and embarrassment. Of course, the favorable balance between receipts and hurches, Public Buildings; also for constructions expenditures has only been obtained through the belonging to Railroads, as Bridges of Stone, Wood exercise of rigid economy. For some years past or Iron, and all buildings required at Stations. Plans large expenditures have necessarily been made and Estimates given for the Improvement of Water for the erection of new depot buildings, warehouses, bridges, etc., as well as the filling up of trestle-work. As these wants become supplied, of course the expenditures on their account will cease, or be greatly reduced, as, indeed, they have been this year, and will be still more so in the future. The management of the road have been anxiously looking forward to the time when this state of things should arrive, so that the actual operating expenses of the road could be arrived at and distinguished. Their wishes approach realization. Maj. O. R. Kenan holds the proxy for the State, and Wm. S. Mullins, Esq., represents the amount of stock held by the Wilmington and Manchester Railroad Company .- Journal of Thursday.
