Dear Progress:—A lull in my business permits me to assure you of my "distinguished consideration." I have not forgotten you, nor will I, perhaps, "while the brain remains the chamber of memory," as my friend Gen. Edney hath it. Be content, then, my Dear Progress, with this assurance, and I will proceed.

"During a temporary absence" the Legislature has been able to get ahead of me. I do not intend to submit to that, and therefore, by your leave, I will devote this letter to catching up. In looking over their proceedings I observe many things to commend and several to condemn. In the first place there appears a great desire to work, which is commendable; in the next, while there has been little business requiring it, I observe a great desire to talk manifested—this is almost contemptible. Still, on the whole I think the present, so far, will compare favorably with previous Legislatures.

As a friend of the State, I regret the defeat of the Coal Fields' bill. I regard that measure as most vital to the future of the State. The Senate appears to think differently—or if not, the opposition arises merely from a purpose of retrenchment, they have acted, in my humble judgment, the part of short-sighted legislators, and their action will tend to keep the State in a crippled condition instead of having the effect of freeing her or strengthening her. The bill has been laid aside for re-consideration, however, and I hope the Senate will not merely re-consider the provisions of the bill, when it is taken up again, but also, pending that time, the policy which led to its defeat on the second reading.

The Milton and Yanceyville Junction bill shared the fate of the Coal Fields' bill. As no appropriation, on any indirect State aid, was asked for in this case, it is fair to presume the question was decided on its merits. Now the friends of the bill regard this or a similar connection with Virginia, as vital to the existence of the North Carolina Road, apart from the necessity for the work on the people of North-western Carolina and the question of right involved. On the other hand it is contended that the proposed connection or any other similar one would act as a huge snatcher on the trunk of our railroad system, which would so exhaust the expenditures as to cause their speedy decay. If the former view be true no one could wish more heartily to see the correction made than I; but if the latter be well founded, the rejection of the bill was eminently proper; and pending the settlement of even a single doubt on the subject, the Senate ought to have rejected the bill.

In the House branch of the Assembly the great question has been, is Dr. Ed. G. Hayward, Esq., commoner from Wake, entitled to his seat, he being at the time of his election, and how, clerk and master in equity? A simple minded man, who understands what he reads in a spirit of candor and honesty—who never suspects that words are meant to mean other than what they say in nine hundred and ninety-nine out of every thousand—would have no difficulty in setting the question. But it has been the misfortune of this question to be thrown into a body, nine-tenths of whom are lawyers (7)—a body which ought to be able to clear up the difficulty, if it exist, at once; but who instead of doing so, have made what was clear confused; and, being confused, own their inability to settle it, and therefore propose to push it on the Supreme Court, the Judiciary Committee, or any other body so they get rid of it. So the matter now stands. When the question returns to the House, if it ever should, another fight will follow, and the question probably will be discovered to contain another quirk, and will be again submitted to some other learned body. In the mean time it may not be amiss to remind the members of the House that the eyes of their constituents may be upon them; that it must be known that some three or four days have already been spent on this question at a cost of \$2,000 to \$3,000 to the public purse. Whilst you seem disposed to retrench, gentlemen, put that in your pipe and smoke it.

The announcement of the death of Chief Justice Nash was made in both Houses on Wednesday last, and all due honors paid to the memory of the deceased. This was highly proper and richly deserved. But how did it look in the eyes of those at a distance to see a scramble for that distinguished dead man's seat within less than forty hours after the announcement of his death! Hamlet grieved at his mother's marriage with his uncle, "ere those shoes were old with which she followed my poor father's body, like Niobe, all tears;"—and yet there was nothing thought of this act, amounting almost to indecency. Of his mother's conduct, Hamlet said, "It is not, nor can it come to good"—and of this act, I say it was most unfortunate and of exceedingly bad taste. But we deal with things as they are, not as they should be. The office is filled—more properly speaking, forced upon a man who, several years ago, confessed his inability longer to bear up under its labors, and resigned. It is now in the discharge of duties he felt unequal to in 1852. Why is this? Judge Rufin, I am informed, never sought this election, directly or indirectly. Or is it true, as reported however great the limitation, that the dominant party were forced to this course because they had not another man in the ranks fit for the office, and that they did not elevate one of the opposition? Whether this be so or not I have no means of determining. But I submit that it would have been to their credit, if they could do no other, to place one of the distinguished lawyers or judges of the opposition upon the Supreme Court bench, instead of forcing the duties of that station upon a gentleman who does not desire it and who confesses his inability to discharge them.

But now the question is, will Judge Rufin accept? Nobody knows here as yet. If he should there is trouble ahead; for according to usage and to all precedent Judge Pearson, being the senior Supreme Court Judge is now de facto Chief Justice. But it is rumored that if Judge Rufin accept, it is intended to devote him to the Chief Justiceship over Judge Pearson, by act of the Assembly. What will Judge Pearson and Battle think of that? The only answer I can imagine will be that which ordinary self-respect would dictate, and that is, that they will enter an indignant protest against the proceeding accompanied by the resignation of their offices. And so then we may expect a battle royal for the office. Already several champions are in the field marshaling and drilling their forces—the results of whose exploits, if an engagement should ensue, will be noted and duly chronicled by SQUIGGINS.

DRUGS AND MEDICINES.

To the Citizens of North Carolina. CHARLES' LONDON CORNICAL GIN The Original and Only London Gin Imported.

THIS GIN, distilled & bottled from sound Barley, under the surveillance of the British Excise laws, is delicately flavoured with a true taste of the Italian Juniper berry, and some of the best & most valuable storatives of the vegetable kingdom, rendering it, in the opinion of the most eminent medical men, the purest and safest stimulant or diuretic drink in use.

It is a delicious tonic of a soft and delicate flavor, differing entirely from any other Gin, and devoid of that harsh, acrid taste, which renders the article known as "HOLLAND GIN" or "SCHNAPPS" so objectionable.

Though not intended as a medicine, it is recommended by physicians generally in cases of Dyspepsia, Gout, Rheumatism, Dropsy, Gravel, Colic, Cholera, Fever and Ague, Stricture, Diseases of the Urinary Organs, the Kidneys, and the Bowels, Nervous Debility, &c., whilst the weaker sex will find in its adoption a sure relief from those distressing annoyances which frequently attend their delicate organization.

DR. VALENTINE MOTT, of New York, the highest medical authority, pronounces Charles' London Cornical Gin, "not only superior to any other, but the best article of the kind he has ever seen."

It is peculiarly adapted to residents in the Southern and Western States, as well as for travelers exposed to changes of water and air.

For sale in quarts and pints by all Druggists, Grocers, Fruiters and Country Merchants. Beware of imitations. Buy only Charles'. None other is imported.

May be had in New Orleans, Mobile, Montgomery, Columbus, Augusta, Savannah, Wilmington, Charleston, Portsmouth, Norfolk, Petersburg, Richmond, Washington, and all the principal towns throughout the South, at the importers wholesale prices, or of EDMUND C. CHARLES, General Agent, Sept 1-dly 40 Broadway, New York.

SANFORD'S LIVER INVIGORATOR. The Liver Invigorator, Prepared by Dr. Sanford, is composed entirely from Gums.

It is now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operation of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The Liver is one of the principal regulators of the human body; and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy whereby to counteract the many derangements to which it is subject.

To prove that this remedy is at last found, any person troubled with Liver Complaint, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better, prevented, by the occasional use of the Liver Invigorator. One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents Nightmare. Only one dose taken at night, loosens the bowels gently, and cures Costiveness. One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache. One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure. Only one dose immediately relieves Cholera, while One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness. One bottle taken for Jaundice removes all sallowness or unnatural color from the skin. One dose taken a short time before eating gives vigor to the appetite, and makes food digest well. One dose often repeated cures Chronic Diarrhea in its worst forms, while summer and Bowel complaints yield almost to the first dose.

One or two doses cures attacks caused by worms in Children: there is no safer, surer, or speedier remedy in the world, as it never fails. A few bottles cures Dropsy, by exciting the absorbents. We take pleasure in recommending this medicine as a preventative for Fever and Ague, Chill Fever, and all Fevers of a bilious Type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor. Mix Water in the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR Is a Scientific Medical Discovery, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a Diseased Liver.

Price One Dollar per Bottle. DR. SANFORD, Proprietor, 345 Broadway, New York. Retailed by all Druggists; sold also by JAS. W. CARMER and J. V. JORDAN, Newbern. dly

PROSPECTUS OF THE N. C. JOURNAL OF EDUCATION. FOR 1859. The second Volume of the Journal will commence with the next year, and the first number will be issued about the middle of January. It will be published monthly, and each number will contain not less than thirty-two pages of reading matter.

The Journal will be neatly printed on fine white paper, and in a style equal to the present Volume. The aim of those who have charge of it, will be to make it a valuable auxiliary in the cause of education.

The Journal is the Property and Organ of the State Educational Association, and is under its control. Through its pages the General Superintendent of Common Schools will communicate with the School Officers and Teachers of the State. Articles are solicited from Teachers and other friends of Education.

TERMS: Invariably in Advance. Five Copies, or more, ordered at one time, to one address, one dollar each, per annum. Additional copies at the same rate. A single copy, 25 cts. All Teachers and School Officers are requested to act as agents.

The Teacher who sends us the largest number of subscribers (not less than thirty) before the 1st of January, will be entitled to half a page of advertising for the year. The one sending the next largest number
