WE ARE AUTHORIZED TO ANNOUNCE CAL-VIN KOONCE, of Jones county, as a candidate a sent in the Senate of our next Legislature, from the intrict composed of Carteret and Jones, sept 28-tf

They were seen passing up the Neuse effort of some Yankee to play off on Sambo: d with said animals, but have not yet been prehended.

DARING AND OUTRAGEOUS ROBBERY .- We ed vesterday from Mr. W. AMES, a very sceable and worthy citizen, who is running celebrated farm of Council Wooten, near sely Hall in Lenoir county, that a party of if dozen or more white men on Saturday last nt to his farm to take his mules, and on being sisted by a boy in his employ, they killed him n the spot, firing some four or five pistol balls him. No arrests have en made up to this writing that we know of, nd we have not learned whether any pursuit was nade or not.

PERRY DAVIS' PAIN KULLER. -It is a real pleasre to us to speak favorably of this article, known most universally to be a good and safe remedy r burns and other pains of the body. It is quable not only for colds in the winter, but for arious summer complaints, and should be in every family. The casualty which demands it may come unaware. - Christian Advocate.

It is consoling to the weary, while trudging along the rough and toilsome ways of this sublunary life, to meet occasionally, with a green spot by the way. This was our fortune on yesterday, and it happened on this wise : Mr. R. J. Brown, who runs a provision store in the market building near the waters edge, made us a present of a regular New York Cabbage head, weighing about TWELVE POUNDS, and measuring about FOURTEEN INCHES in diameter. He has plenty more like it at his store, and that is where the fun comes in, so far as the reader is concerned.

THE NEWBERN TIMES has been enlarged and otherwise improved within a week past, and we regret that our visit to that city had to be postpened for a week, as otherwise Major VESTAL would have had to celebrate the event at least a bird supper. It gives us sincere pleasure to see this evidence of the energy of the proprietor and prosperity of the paper. VESTAL is a worker, a man of noble impulses, and devoted to Newbern, and he should be sustained There is no good reason why the TIMES should not take rank among the first journals in the South for anility and interest; at all events, we waft our best the yeast plant. wishes fur such a result .- Progress.

BETTER THAN THE IMPORTED.-The Brown Windsor and Honey Soap of Colgare & Co., New York, are superior to the imported artices. This is not mere assertion, but has been tested hatred, contention and variance, and some keep by long and careful analysis. This being the case, the domestic articles should certainly be it cannot be supposed that husbands will be purchased in preference to any imported goods tender and good if managed in this way; but, purchased in preference to any imported goods American industry should always be encouraged when, as in this case, it presents commendable goods for public approval.

CAPT. H. B. BLACKMAN. -- We regret to learn that this efficient officer has been mustered on of the U. S. service. This change is the result [Reported for the Newbern Weekly Times.] of the reduction in the force of the Quarter Master's Department in North Carolina.

Hereafter the Chief Quarter Master of the Department, Lt. Col. J. D. STUBBS, will also perform the duties of Post Quarter Master. While we are glad to announce the return of Col. STUBBS, we regret to loose Capt. BLACKMAN, who during his stay among us has made many warm

NOTHING HUBTFUL ABOUT THEM .- While so many articles of daily use have become so adulterated that one hardly dares believe anything pure, it is satisfactory to know that the Soaps with which we purify ourselves or our clothing may be relied upon as being perfectly free from hurtful substances. Coloare & Co. employ none but the most healthful ingredients in their many kinds of soap, and rigidly exclude whatever might harm skin or cloth.

Cholera Phenomena.—Physicians of Nash-ville, Tenn., say that during the height of the cholera ravages in that city a misty blue vapor, hardly visible, without any perceptible smell, hung over the town, being densest in the filthy places. This phenomenon was not generally observed except by scientific gentlemen. It is related that some time ago, at Memphis, Tenn., a steamer's crew, being in perfect health, stopped eight hours near the lower part of the city, lying in the middle of a thin and almost invisible vapour. The same day three deck hands on board sickened and died with cholera, and four others were prostrated, but recovered .- Ex-

THE following recipe we clip from an exchange, and publish it for the benefit of those concerned without comment:

To Cook a HUSBAND .- Many good husbands are spoiled in cooking; some women keep them in hot water constantly, while others freeze the m by conjugal coolness; some smother them in them in a pickle all their lives. These women always serve them up with tongue sauce. Now, on the con rary, very delicious when managed as follows: Get a large jar, called the jar of faithfulness, (all good wives keep one on hand,) put your husband in it, and set him near the fire of conjugal love; let the fire be pretty hot, but especially let it be clear, and above all the rest, be constant; cover him with affection, kind-Tiddy, Esq., and Mr. John S.
