Load your wagon and drive to the CENTRE WAREHOUSE, and we will send you home happy.

Your friends,
Rogers & Hunter.
Warrenton, N. C.

Keep Your Eye on NORLINA

Now is the Time to Locate
in the Growing Town
of Norlina.

**Business and Residence Lots at
Low Prices and Easy Terms.**

**TOWN LOTS, FARMS AND TIMBER
LANDS BOUGHT AND SOLD.**

Life and Fire Insurance Placed in the best Companies

I will appreciate your business,

R. S. REGISTER,

Real Estate and Insurance,

Norlina, - - - - - N. C.

Bank of Warren Building.

Phone or wire to-day at my expense.

CORTRIGHT METAL SHINGLES

Never Warp, Crack, Rot, Curl or Burn—
Like Wood Shingles

They can be laid right over an old wood-shingle roof without dirt or bother, and they make it stormproof and fireproof. They're inexpensive. For particulars address

H. C. FLEMING, Norlina, N. C.

RIGGAN BROS. & WHITE,

CONTRACTORS AND BUILDERS,

Norlina, North Carolina.

Plans drawn and estimates furnished on frame or brick buildings. Write or phone us.

Not the Cheapest but the best.

LIGHT ON DEEP SUBJECT

Observations of Dutch Biologist Are Accounted of Much Importance by Scientists.

A great controversy that has raged for years in the philosophical world has almost been brought to an end by a discovery of Vries, the great Dutch biologist. Darwin's theory of evolution supposed that it took ages and ages for the slightest variation in species. In fact, according to his theory, so many years would have had to elapse since the beginning of organic life that most thinking men could not accept it. The age of the earth has been calculated by geologists from the aspects of different strata and from fossils very accurately for such a difficult problem. If a person accepted the word of the geologists he could not accept the theory of Darwin.

Vries found out that what is called "spontaneous variation" could be much greater than was at first supposed. He called this rapid spontaneous variation "mutation." Now, spontaneous variation is that variation that takes place in plants or animals in one or two generations. In other words, it is the observed difference between certain offspring and their parents or grandparents. It was found that a change of climate or environment would cause a very great variation in one generation. He found this especially so in plants. So now one can accept Darwin's modified theory and the theory of the geologists in respect to the age of the earth at one and the same time.

NOT UP TO DATE

Inquisitive Person—What are the wedding anniversaries?
Society Actress (somewhat annoyed)—How absurdly out of date you are! You should let such trivial matters rest and join me in making up a set of divorce anniversaries.

STILL HAPPY.

Young Bride (to waiter)—Waiter, my husband has been here a lot lately. I hope he's all right, eh?
Waiter—Oh, yes! He never has more than three glasses of beer. If he were not happy he'd surely drink six.—Fliegende Blaetter.

SLIGHT SUSTENANCE.

"Get anything at the house you tried?"
"Only the cold shoulder," sighed the educated tramp. "What came your way?"
"Humble pie, that's all."

EASY ENOUGH.

"Your friend seems to make a great many philosophical observations."
"Any man can do that when there is nothing in particular hurting him."

FREQUENTLY STORM TOSSED.

"You should launch out on the ocean of matrimony, my boy."
"I might if I were sure of its being a Pacific ocean."—Boston Evening Transcript.

HIS LOSS.

"I'm not eating very much of late."
"What's the matter, old man? Lose your appetite?"
"No, my credit."

SAME CLASS.

"Pop, tell me one thing, please."
"What is it, Tommy?"
"Did they have to use needle guns before they got machine guns?"

AND ON HE WENT.

Tramp—One moment, boss; can you spare de prize of a meal?
Accosted Party—Certainly! I'm on my way to get it now.

Ask Yourself: "Why Paint This Fall?"

1. Because the weather boards are drier now than they will be next Spring.
2. Because weather conditions are good.
3. Because there are no flies and bugs to stick on the surface.
4. Because the painter can give more time on the job.
5. Because the house needs protection against the winter's dampness.

These are the five reasons why I should paint this fall.

Here are five equally good reasons why you should use Stag "High Standard" Paint this Fall: It is economical because it spreads farther than ordinary paint and lasts years longer; It covers the surface better; It works easier; It gives perfect protection against decay; the colors are fadeless and give Permanent beauty.

Prepare for Winter

For it is near at hand, come to Katzensteins for any thing you need in clothing, over coats, rain coats, shoes, and hats, also dry goods, dress goods, notions and hosiery. Also a full line of heavy and fancy groceries. Best cigars ever offered in Norlina, 5c each. Your patronage is solicited.

We have arranged with A. K. Hawkes for his Eye Specialist on Oct. 27th and 28th. Don't miss this great opportunity of having your eyes examined free of charge and your glasses properly fitted at my store.

Remember the date.

Alex Katzenstein,

NORLINA, - N. C.

Our specialty, "Home Plate" Flour.

STATEMENT

Of the ownership, management etc., as required by the act of Aug. 24, 1912.
The Norlina Headlight, published weekly at Norlina, N. C., Oct. 1, 1914.
Editor, J. C. Hardy.
Managing editor, J. C. Hardy.
Business manager, J. C. Hardy.
Publisher, J. C. Hardy.
Known bondholders, mortgagees, and other security holders, holding 1 per cent or more of the total amount of bonds, mortgages, or other securities, American Type Founders Company, of Richmond, Va.
(Signed)
J. C. HARDY, Editor.

Sworn to and subscribed before me this 15th day of October, 1914.
(Seal) M. E. WALKER,
Notary Public.
My commission expires May 15, 1915.

Important Precaution.

"Are you mixed up in this disturbance?" asked the policeman.
"No," replied the law-abiding citizen. "I'm neutral."
"Then why do you want to talk to me?"
"I want my neutrality definitely understood. I don't desire to take a chance on what sometimes happens to innocent bystanders."
—Washington Star.

Best Time For Planting Oats.

A reader has land in lespedeza which he is now (September 7) preparing to cut, and wants to know if he can "sow his land to oats and red clover about October 25, provided the land is well prepared two or three weeks before planting time."

We believe it is generally a good plan to break land some time before sowing fall crops, if it can be done, because there is less danger of the crop suffering for lack of moisture when sowed; but we would not delay the sowing of a crop until too late in order to give time between plowing and seeding. We believe October 25 too late to sow oats in central Mississippi for the best results, and feel certain that this is too late for red clover for the best results an average year. If the land can be put in good condition by October 1 we would advise sowing the oats at once rather than wait until October 25 for the land to settle.—H. P. Fulton, in the Progressive Farmer.

Mediation.

Cohen—Hands up, or I'll shoot Quick-witted Burglar—Fifty dollars for de gun!
Cohen—Sold!—Gargyle.

Trustee's Sale of Land.

By virtue of the power conferred upon me by a certain Deed of Trust executed to me by John Branch and Lucy B. Branch, his wife, on the 8th day of January, 1901, which Deed of Trust is registered in the office of the Register of Deeds for said Warren County in book 65, at Page, 51, default having been made in the payment of the debt therein described and thereby secured, I will, on Tuesday, the 10th day of November, 1914, sell at the Court house door in said Warren County, at Public Auction to the highest bidder for cash, the land conveyed to me in said Deed of Trust, and which is described and bounded as follows: Beginning at a Stone, John Branch's North-east corner, and running thence along the Public Road leading Northwardly from Warrenton to Warren Plains 13 poles and 8 links to a stone, thence West to the Creek and down the Creek to John Branch's line, and thence along his line East to the beginning, containing Ten (10) acres, more or less, and being the same tract of land which was conveyed to said John Branch by LaFayette Harris and wife by Deed dated January 15th, 1880. See Warren County Registry, Book 44, Page 265. This, the 8th day of October, 1914.
TASKER POLK, Trustee.
