

# THE HOME.

THURSDAY, JANUARY 12, 1888.

## LOCAL NEWS.

We call attention to the "Ad." of Liberty Academy.

Sheriff Brewer will soon move into his nice new house.

Mr. J. P. Tamm is still confined to the house by rheumatism.

Capt. C. M. Hildren has about completed his new shop and is ready for business.

Sylvia Jackson, wife of Bragg Jackson, was buried at the colored cemetery on Sunday.

A negro man was jailed on Tuesday for breaking into the store of Fox & Wren at Siler City.

Bad colds are very prevalent in our community. They are really bad too, confining some to the bed.

The Mayor has bound B. A. Ellis and George Womack to Court in a bond of \$100 on charge of selling liquor.

Remember Bynum & Headen sell the genuine J. P. Nissen Wagons manufactured by Geo. E. Nissen & Co.

M. S. M. Holt has rented "Great Brook," the residence of the late Gov. Rencher. He will remove his family to it next week.

W. M. Brooks, who has charge of the Academy in Clinton, gave us a call on last week. We are glad to hear of his success in Sampson.

Schools opened on last Monday. It was a bad day, but there were twenty-five enrolled at the Academy by Mr. Hill, and about half that number by Mr. Jackson.

We are greatly pained to learn of the continued illness of Miss Ella Henry. If the sincere wishes of the whole community could avail, she would soon be restored to health.

Married—On the 25th of Dec., at the residence of the bride's mother, W. D. Carter, in Bear Creek township, by the Rev. J. W. Calder, Miss Geneva Carter to Mr. William Brewer, all of Chatham.

The weather was remarkably warm and balmy for some days last week, including Sunday. The spring frogs were joyous, but they will yet look out through ice windows before the "winter" is over and gone."

Dogwood, persimmon and hickory timber wanted at the Shuttle-block factory.

If the roads are too bad to haul now, eat it now, and haul when they get better.

Bynum & Headen, most earnestly request all persons indebted to them to come forward and settle, and all persons due us for fertilizers must positively settle for them, as longer indulgence cannot be given.

Science and experience show that mortar for cement and plastering does not freeze so readily when made up with salt water. Let those engaged in building during the winter season take due note of this and save trouble and expense.

Mr. A. S. Henderson, of Illinois, is visiting his old friends and neighbors in Chatham. He left Chatham many years ago and while he has succeeded well in the north, he still loves the friends of his younger days and the place of his birth.

The Bulletin of the Board of Health suggests that the County Boards should prepare plans for a year's campaign against filth and dirt. Cleanliness is next to godliness and promotes health and long life, why should not every one exercise all sanitary precautions?

The Durham Tobacco Plant is sixteen years old. It has grown up with Durham, and has been an important factor in the development and prosperity of that wonderful town. The paper, like the town, is thoroughly progressive. Bro. Burkhead is an excellent editor and the mechanical work of the plant is superb.

The Seed House of T. W. Wood & Sons, Richmond, Va., is advertised in another column—it is the largest and perhaps the best and most reliable seed house in the South. It has the advantage of having seeds that have been acclimated to our section. Send for their large and handsomely illustrated catalogues.

## The Library Magazine.

The January 7th issue, the first of the year 1888, contains the following interesting articles:

The First Chapter of Genesis by Prof. W. Gray Elmslie, Captain Brides in Far Cathay; from Blackwood's Magazine, Kinglake's Invasion of the Crimea, from the Fall Mall Gazette, Mr. Donnelly and Shakespeare, from The Atlantic, and others. Single copies three cents; \$1.00 a year. Order direct—not sold by dealers. John B. Alden, Publisher, 393 Pearl St., New York, & Clark St., Chicago.

## NO MORE HONEST PAPER.

(Durham Recorder.)

With the last issue of the Home comes its fourth volume. There is a no more honest paper in the state, it never criticizes without a cause, and resists no pauper clamor or unfair strategy to carry a point. It is a lover of equity and purity, and clings to and supports the democratic party.

## DIGNIFIED AND TRUTHFUL.

(Central Express.)

The Pittsboro Home is four years old, and it is one of the very best county papers that we get. It is dignified, truthful and shows that it is edited by a gentleman of character and ability. It is a very popular paper in Chatham county.

In all cases of neuralgia there are certain localities where pain is more intense—these are called the "painful points." Rub the "painful points" thoroughly, when afflicted with this disease, with Salivation Oil, the great pain annihilator. Price 10 cents a bottle.

Sylvia Jackson, wife of Bragg Jackson, was buried at the colored cemetery on Sunday.

Some time ago I needed \$10, and with all our ingenuity we could, perhaps not even. Dr. Franklin—some other old fogey says: "He that goes a borrowing, goes a sojourning," but I decided that he didn't know everything, and picking up courage and putting on bold front, I said to him that if I had a cart load of money above my necessities, I'd buy up some poor man and give him the whole of it. Well, there always a narrow-gauge set of fellows whom you may shun, if you will, when you are in need. These are the icebergs of society, and one who is any judge of human nature will not approach them; in fact he cannot, because the atmosphere around them is frozen so stiffly he cannot penetrate it to within a respectable speaking distance. Like the mean and lazy hirelings upon whose demerits the price of labor is established below its proper level, these icebergs will mislead us, and cause us to underestimate the world we live in. Let us not be misled by them. Old Nick has been slashing around among them and he can blow hot or cold. I think it would be better for him to use the refracting influences of his tail at him from all angles rather than trying to impress our better qualities. I'm afraid I have, in a former letter, given Old Nick credit for ability he does not possess, and for work he does not and cannot perform. No one will doubt his pluck and energy or his faithfulness to his purpose, but he does not, and cannot accomplish everything he undertakes. If he did, or could, the world would be dark indeed. There would be no charity, sympathy, friendship or love; no truth could be uttered, heard or believed! But, fortunately, there is a bright side to the picture—a silver lining to all the dark clouds. And the reason of it is there is light somewhere and its divergent rays, with their flex and reflex tendencies, are darting and flashing all around. But I've digressed.

The favor I desired I happened to find in the heart and hands of the first man I met (you must know that I could have met others first, if I would, but I wouldn't) and although a clever man, I found him firmly braced against falling from the social graces by being a close and constant reader of the HOME. It has been said by somebody that the world is what we make it, and I will take the privilege of saying that we are what the world makes us; our associations are very apt to mould us after their own image, and it will stick to the law after awhile, and until that happy day shall come, let the Nero's of the field feast their eyes upon the murdered birds and goat over their dying agonies.

JOSH.

Having in our official capacity as members of the Plymouth, Pa., Hospital Committee, been asked to test and prove the effectiveness of many different articles to be used as disinfectants in sick-rooms and as preventive of infectious fevers, report that Darby's Prophylactic Fluid has been thoroughly tested during the recent Typhoid epidemic in this place. It proved most efficacious in staying the spread of the fever.

F. H. Armstrong, S. M. Davenport, J. A. Opp, O. M. Lance, Thos. Kerr, James Lee, Jr.

Commissioners' expenses.

In accordance with Sec. 713 of the code, L. R. Exline, clerk of the board of County commissioners of Chatham county do hereby certify that the following is true and correct statement for the year ending Nov. 30th, 1887, of the amounts, items and nature of all compensation allowed by the board to the members thereof, normally, the number of days the board was in session and the distances travelled by the members thereof respectively.
