We have it from good authority that John W. Atwater was, here last week trying to create dissention in the Democratic party by taking a prominent candidate to one side, telling him that the east and centre had combined against him and would defeat him; then he would take a central man, tell him that the east and west had combined and would defeat him for the nomination. and that he kept reversing this statement to suit the section or candidate he met. This is the political trickster who went to Congress by Domocratic votes and who was in the last Democratic convention claiming to be a straight Democrat. And this is the gratitude that the Democratic party is getting for sending the man to Congress who has betrayed every party he-was ever in! 'Beware of the Greeks bearing gifts." Washington Letter.

From Our Regular Correspondent

May 12, 1902.

The appointment by the President of Mr. J. S. Clarkson, of Iowa, to an important Federal office in New York is a sad commentary on Mr. Roosevelt's civil service reform professions. This is the same Mr. Clarkson to whom, it will be remembered, Civil Semice Commissioner Roosevelt paid his respects in unequivocal terms. Mr. Roosevelt, if I remember rightly, characterized Clarkson as the "headsman of the administration" and as'n "conspicuous od mate of the spoils system." What can have induced President Boose-Republicans, licking the feet of velt to so far depart from his principles and appoint the man he flayed at St. Louis the people will have to judge. "The bill reported by the Phil-

ippine. Committee is one of the most iniquitous measures ever presented to a Congress of the United States," said Senator Duboise, of Idaho, yesterday when I asked him his opinion of the bill-itself. "By the provision of the bill a commission, composed of three men, is given the most absolute power over the Filipinos and their lands. The edicts of the commission will become laws unless they are negatively tete i up in by Congress and, evin if Congress had the time it would be impossible for it to judge of these edicts at this distance, 8,000 miles away. These three men can grant fraschises polls in November and teach taxes collected from the people to whomever they may see fit and Republicans and their allies, for public reads, built bridges require in return for the same they choose. They can lease land in immense tracts to corporations for whatever rental they d that great trusts and corpor terest and Lide their books to may desire. They can grant the privileges of cutting timber as private individuals. All honor ing their poll tax with the hope to such corporations as they may remonse to befriend and on such terms as they may be disposed to make. It is rediculous to say that the Democrats are opposing a step toward the self governmenment to which they believe the Filipinos are entitled. The Democrats are doing all in their power to save the Filipinos from being delivered to an oligarshy which can sell them bod; and soul, from whose action they have no redress, from a despotic government in which they have

All last week in the Senate was spent in delating the Philippine Pritchard back to the Senate and bill and the prospects are that all this week will be spent in the same way. Senator Dubois tells me that he expects to address the Senate on the subject and intend to repeal the amendment Senator Bailey told me, that he would probably do so. Senator Foraker will speak for the Republicans and probably Senator Spooner. The Democrats feel that they will be derelict in their duty if they do not completely expose to the public their situation in the islands and the probable of the Republican policy which is un-American in every

The sudden death of three Democratic members of the House of Representatives early last week, Messers! Cummings. Otey and Salmon, seemed about to be followed by another on Fri day when delegate Smith of Arizona, exausted with his efforts in behalf of the Territorial Omnibus bill, concluded a speech in favor of the bill and fell senseless to the floor with a slight etrakant apoplexy. Fortunately, however, Mr. Saith sood showed signs & recovery and is now regarded by his physicians as out of danger, The bill passed the House with the provisions, that the constitutional convention of New Mexico might change the name of that territory on its becoming a State, and that the convention of Oklahoma should adopt an irrevocable states to the effect that the Federal government should have the privilege of attaching to the new state any or all of Indian Perritory at any time.
