Two armies covered hill and plain, Where Rappahannock's waters Ran, deeply crimsoned with the stain Of battle's recent slaughters.

The summer clouds lay pitched like tents In meads of heavenly azure; And each dread gun of the elements Slept in its hidden embrazure.

The breeze so softly blew it made
No forest leaf to quiver,
And the smoke of the random cannonad Rolled slowly from the river.

And now, when circling hills looked down With cannon grimly planted, O'er listless camp and silent town The golden sunset slanted.

When on the fervid air there came A strain, now rich, now tender; The music seemed itself aflame With day's departing splendor.

A Federal band, which eve and morn Played measures brave and nimble, Had struck up with flute and horn A lively clash of cymbal. Down flocked the soldiers to the banks,

Till, margined by its pebbles, One wooded shore was blue with "Yanks," And one was gray with "Rebels." Then all was still, and then the band, With movements light and tricksy,

Made stream and forest, hill and strand, Reverberate with "Dixie." The conscious stream, with burnished glow

Went proudly o'er its pebbles,
But thrilled throughout its deepest flow
With yelling of the Rebels.

Again a pause, and then again, The trumpets pealed sonorous, And Yankee Doodle was the strain To which the shore gave chorus. The laughing ripple shoreward flew
To kiss the shining pebbles;
Loud shrieked the swarming Boys in Blue

Defiance to the Rebels. And yet once more the bugles sang

Above the stormy riot; No shout upon the evening rang— There reigned a holy quiet. The sad, low stream its noiseless tread Poured o'er the glistening pebbles;

And silent now the Yankee stood, And silent stood the Rebels. No unresponsive soul had heard

That plaintive note's appealing, So deeply, Home, Sweet Home, had stirred The hidden founts of feeling. Or Blue or Gray, the soldier sees, As by the wand of fairy, The cottage 'neath the live-oak trees,

The cabin by the prairie. Or cold or warm, his native skies Bend in their beauty o'er him; Seen through the tear-mist in his eyes, His loved ones stand before him.

As fades the iris after rain In April's tearful weather, The vision vanished as the strain And daylight died together,

But memory, waked by music's art, Expressed in simplest numbers, Subdued the sternest Yankee's heart, Made light the Rebel's slumbers.

And fair the form of Music shines, That bright, celestial creature, Who still, 'mid war's embattled lines, Gave this one touch of Nature. JOHN R. THOMPSON.

W. J. MURTAGH, Address Washington, D. C. June 8, 1871. THE NEW ENGLAND NEWSPAPER The Springfield Republican, by Samuel Bowles & Company, Springfield, Mass This is a well-known independent journal of news, politics, society and literature. It has achieved a first-place in American

journalism, and is peculiarly the representative New England newspaper. Its circulation is greater than that of any other provincial paper in America; only two papers in Boston exceed it; and in the town of its publication it has more subscribers, in proportion to the population, than any other journal in the world in the city

of its issue-for it averages one to every family in Springfield. The Republican is printed on a large quarto sheet of eight pages and 48 columns, ly editions. The price of the Daily-three cents for single copies and \$8 a year—is less than that of either Boston or New York journals of the same class; while its news is no less prompt and full, and its general mail, to one address, for \$30, and 21 of the

latter for \$35. In public affairs, The Republican is sharply independent and critical; pleading for the highest standards of public service; exout qualification and the careless with impatience; and demanding conspicuous reforms in all our administrative service and in the laws for the collection of revenue. It encourages men to demand for women. and women for themselves; a larger share of duties and of rights, of responsibilities and of privilege, because it believes that in the largest individual freedom and the fairest devision of labor lie the most sure and

satisfactory advancement of society and the widest personal happiness. To all questions embraced in the phrase Social Science, it gives a welcome hearing and an earnest word, for these are the real topics of the present and the future; it is with these that government and society have now most to concern themselves.

All subscriptions must be paid in advance. Specimen copies of The Republicar will be sent on application. All business letters should be addressed SAMUEL BOWLES & CO., Spingfield, Mass.
