PUKED.-When a Ku Klux turns State evidence, the Klan says "he puked." The probabilities are, a number of them will become sick enough to "puke" ere long.

Sabbath last was a pleasant day in Raleigh. Churches were all open for worship, and well attended. We never saw so much beauty on the streets as there was about one o'elock.

If our cotemporaries expect to correct the evil of newspaper borrowing, by complaining, they had just as well dry up. There are a set of suckers in the world now, has ever been, and will continue to the end of time. Let'em steal and enjoy your labor, for they are bound for a hotter climate than any they have ever lived in.

COMMITTED ON THE CHARGE OF MUR-DER.-W. J. Bryan, brought to this city on the 11th August, as a Ku Klux charged with the murder of Murchison, in Moore county and discharged on bail, has since been re-arrested, upon evidence, brought out by a coroner's inquest, and committed to answer the charge of murder. The commitment took place yesterday.

A DOG-ED PLACE. The Newbern Republican boasts that its town can beat our town in the number of dogs. Just hear him bark; "Why man, you are nowhere. We have more dogs than that in the seventh ward, and in addition, we have Spainel, Bernard, Hound, Shepherd and "Yaller' dogs, in all, numbering about four thousand, (more or less,")

QUERE?-How long does it require a man to discover the fact that he is not capable of filling an office, or, that he hasn't time to attend to its duties? That's a serious question, and one which the Republican party of Raleigh Township would like to have answered-and one which they intend shall be answered. "Watch and wait."

An exchange says an excellent disinfect ant is readily obtained by dissolving bushel of salt in a barrel of water, and with the salt water slack a barrel of lime, which should be wet enough to form a kind of paste. HA. HA .- It has leaked out, says the Newbern Republican, that Mr. Ringwalt who has been examining our harbors, taking soundings &c., stating he was largely interested in the project of building railroads and steamships to connect with the great west, is an officer in the British navy. It might be well for our Secretaries of the army and navy to put the above in their pipes and smoke it.

THE YELLOW FEVER .- Charleston Sept. 1.-The cool change seems to have had a favorable influence in abating the fever. No new cases are reported to-day, and only one death. To correct the erroneous rumors, it should be stated that the business of the city is proceeding without interruption of any kind, and that all railroad trains arrive and depart with their accustomed punctu-

DISSATISFIED,-The Times says the stockholders in the Salt River Steamer, down about Newbern are dissatisfied with the engineers, and want a change of those officers. The old lady, it is said, drinks all the buttermilk, and hence a "fuss"-and hence, again, neglect of engine-and hence, No. 3, the great collision. No; they want an engineer who will either blow up the "Ku Klux" or sink her.

We are glad buttermilk has nothing to do with the dissatisfaction.

> BURNING OF THE STEAMER CASWELL. The steamer Caswell, commanded by Capt. R. P. Paddison, and running between this city and Point Caswell, says the Wilmington Star of the 27th Aug., was discovered to be on fire while laying at her wharf at th the hours of 12 and 2 o'clock. The fire originated in the Captain's office and before the flames could be arrested the entire upper works of the boat, including the cabin, hurricane deck, wheel house, and, in fact, every thing from the first deck up was destroyed.

> The Wilmington Star says a young white woman by the name of Hattie Lee, hailing, we learn, from Magnolia, but at present residing with a family by the name of Stafford, on Fifth, between Mulberry and Walnut streets, attempted to commit suicide on Sunday evening last, by taking a large dose of laudanum. As soon as it was found that she had swallowed the fatal drug persons who were present exerted themselves to keep her aroused, a physician having been sent for in the meantime, who applied the necessary remedies and she was finally relieved of the effects of the poison.

THE QUEEN BEE ON FARMING .- Fodderpulling time is about at hand. Crops of wheat should be plowed in the ground and fertilizers put around each blade. Indiana boasts of a one-eyed pig. We would recommend the introduction of the breed into our State. Fodder should not be allowed to get wet after it is stacked. Rail pens ten feet high and "bull strong" would greatly remedy the evil of exposure. The Presidency of the Railroad will claim my constant attention. The new piece of music, called "Put me in my little bed," makes

HEAVY ON THE WORD "RESPECTABLE."-The Goldsboro' News makes the following proposition in the interest of peace. It will be observed that the proposition is well guarded, and properly; for we would not, under any circumstances consent to an association, politically, with many of the socalled Conservative leaders. They have sinned so grievously, and in the face of law and order, that they cannot again be trusted.

The News says: "And now, we will make our proposition for peace-with President Grant and W. W. Holden on our banner for 1872-we shall take all respectable Democrats and Conservatives by the hand on their new departure, and safely lead them into the haven of peace and comfort, where-so long as they keep a pure conscience they shall have peace.

IMMIGRATION TO NORTH CAROLINA .-Hon. George Bancoft, Minister of the United States to Prussia, has written the following letter to His Excellency Gov. Caldwell:

"AMERICAN LEGATION, BERLIN, Aug., 7, 1871.

His Excellency Tod R. Caldwell, Sir: I have had the honor of receiving your communication of the 8th of May, in which you express your hope that the highlands of North Carolina may receive a large emigration. Be assured, it will always give me the sincerest pleasure to bear my mony to the beauty and natural fertility and salubrity of that levely region of country and to the hospitality of its inhabitants. Western North Carolina is the Switzerland of the United States, East of the Mississippi I have passed through four of its gaps, and I have twice been up or down the valley of the French Broad. I hope it may ere long be filled with as dense, as industrious and as free and happy a population as that of European Switzerland.

I remain yours, sincerely, GEO. BANCROFT."

It's THE BEST HE CAN.-The Squedunk organ published in the centre of a troubled territory, undertakes to re-echo the squeal of the Sentinel, that Hester made the Ku Klux uniforms before leaving Raleigh, and took them with him to Moore county. Such nonsense, Mr. Squedunk, may answer a purpose—even a bad purpose—for the time; but, we have it from such authority | the result of the late Republican gathering as leaves no earthly doubt, that the uniforms were made in Moore by, and were colored man a more devoted adherent to the property of, the very men captured by U. S. Detective Hester. It is a sore pain to some, to see these murderers trapped; still, the work is going on, and a dreadful flutville American says, "we have reason to be- tering, and leaving the State will take lieve that, there is a manufactory of five place, when the investigation commences. cent pieces or "nickels," in this county, It would be well, for all such doubting near this place, or else a copious supply is characters as the Squedunk editor alluded obtained from other parts. A FIRE EATER.-We have a white prisoner in our county jail by the name of Wm. Cheser, who can eat live fire coals, put molton lead in his mouth and keep it till it becomes solid, 'put his tongue on a red hot shovel, &c., without experiencing the least pain .- Greensboro' Patriot.

NEW JOB-PRINTING ESTABLISHMENT. The attention of our readers is called to the advertisement of Messrs. Edwards & Broughton, two practical printers, well known in this community as gentlemen worthy the confidence and support of the guarantee as good work as can be done anywhere in the South, and on as good terms. Fancy printing claims their immediate attention, and they cannot be excelled in that branch, Book work, posters, &c., &c., will be "turned out" to please, or no pay.

Of the colored population, the Eagle, pubished at Hickory Tavern, this State, says: "Whenever the leopard changes his spots and the Ethiopian his skin then they will make Democrats and honest men."

We give the Eagle credit for his out spoken opinion. It is the spirit of the entire Ku Klux press, but they hav'nt got the "spunk" to speak it out. The colored people appreciate a free expression, and will, as they have been doing, shun the Conservative party, as they would a pestilence.

The charge made by a kind of insinuation familiar with the haters of the colored race, that the recent fire in Goldsboro' was there, was well calculated to make every his party. Without evidence to warrant the charge, a stigma is attempted to be fastened upon the colored man, and render him a still greater object of hatred in the eves of those who courted his patronage only a few days ago.

We ask the question in all candor, i there a paper in North Carolina bold enough to have made such a charge if the majority who attended that meeting had been white men? Not one. And simply because, they know that they would have been held personally responsible. On the other hand, the charge is made against the colored man for the reason that it is well known, his education, and his former condition in life operates to make him bear the insults he otherwise would resent.

The Charlotte Observer of the 30th ult. paper was usually kept. How it originated no one knows, unless a match had been accidently thrown in among the paper, Mr, Gunnells had but a short time before left the store. The damage will not amount to a great deal.

LONGSTREET'S BRIGADE.-The attempt of the Sentinel to bring into contempt the name of Longstreet, will prove as abortive as its attempt to ridicule the working men of the city of Raleigh on account of their ignorance. Longstreet was a gallant soldier in a bad cause; and now, with the candor of an honest man, accepts the results of the war in good faith. If others, who were prominent in the Southern Army would act as has Gen. Longstreet, we would have had peace and prosperity, long since, We should not have been annoyed by Ku Klux, and other Klans of the same kindred. The innocent men who now fill the graves of martyrs, would have been living and enjoying the blessings of a free government and a free country.

The following letter from a Boston Editor to the Hillsboro' Recorder, breaths the right spirit:

"I should be pleased to see you, as I should be glad to call on you at Hillsborough. The nearest I have ever been to that place is Kinston where in the time of the unpleasantness some one of the erring brethren put a bullet through my lelt hand and hit three fingers on my right, while another put one through my left leg. But so far as I am concerned by-gones are bygones and as long as in the present and fu-ture men are loyal to the dear old flag I let the dead bury the dead."

THAT'S THE TALK .- What a difference there seems to be between the Raleigh Sentinel and the Goldsboro' Messenger, as to the dignity of labor. The one tells the mechanics of Raleigh that they ought to (or will have to,) call in certain gentlemen to tell them who are the working men-the other, pays a well-timed and appropriate tribute to the working men. How do you account for this great difference between The Charlotte Bulletin says a bold at- two editors of the same political faith? Why tempt to rob and murder was made at the thus: the Messenger editor has seen hard service as a working man, and never by "luck" or accident owned any thing-all, and every thing he possesses, we are told, is the result of energy and hard labor. The following we take from the Messenger, and will be received kindly, by the working men who live in North Carolina:

MECHANICS.-They are the palace builders of the world: not a stick is hewn, not a stone is shaped in all the lordly dwellings of the rich, that does not owe its beauty and fitness to the skill of the mechanic. The towering spires that raise their giddy heads among the clouds depend upon the mechanic's art for their strength and symmetry. Not an edifice for devotion, of business, or comfort, but bears the impress of public. They are No. 1 workmen, and will their hands. How exalted is their vocation, how sublime their calling.

THE QUEEN BEE ON THE SQUEDUNK .-Anterior to the war of 1812, in and about the reign of King George III, there was no such animal known to the naturalist as the Squedunk. North Carolina has the honor of presenting a native Squedunk, found in the waters of Robeson. They are remarkable only for the horrible noise which they make. We recommend their introduction to the Klan. The Egypt for our Joseph to visit to buy corn for our forces, will be down on Flat River, this year. Eno rejoiceth over this discovery, as the way through the woods is well guarded by the true sons of the Invisible Empire. Cane Creek also maketh gladsome noises. The crooked handle stick now carried by Judge Brooks, is said to be one of the staff's carried by the Shepards while watching their flecks by night and must be made out of good timber. Our Klan are the Shepard's of the present day. Sour krout poetry don't set well on my stomach, and if my little wings prose into the face of that dutch poet. Larkins and Wilson and Beard and Mitchell should not have interfered in the Salisbury fight. The Boll Worm are committing serious depredations on the cotton of the Judge's action in this matter, we feel it to South. The Democratic Organ to be pubbe due the Judge to state, that he is acting lished in the city of Raleigh gives me great

THE FAYETTEVILLE EAGLE AND U. S. DETECTIVE HESTER.-We were a little surprised at the language used by the Eagle "As the world was created in six days, so in reference to Capt. J. G. Hester, an acmight the National Democracy in six words credited agent of the U. S. Government. enunciate a platform. They might declare That paper, after some direct personal abuse for constitutional government, equal taxa- of Mr. Hester, goes on to say: "Hester and tion, economy, amnesty." > In the absence of that information necessary to just conclusions, the language of our cotemporary of the Eagle is ill-timed, ill-advised, and dangerous. Our personal prejudices are often foremost when particular matters do not go on as we would wish. and we not unfrequently are led into the use of language which, perhaps, it were better we had never uttered.

We know whereof we speak; and unless witnesses from the ranks of the Ku Klux perjure themselves, such a tale will be revealed as to cause even the proud and fiery eye of the Eagle himself to grow dim with the tear of regret.

All this personal abuse of Capt. Hester, and this intimation that he be shot, amounts to nothing, as it will not deter either that gentleman or the government he represents from doing their whole duty in suppressing and bringing to punishment the wicked Klan who have inaugurated a reign of terror in certain localities.

Suppose some misguided member or members of the Ku Klux should shoot down Capt. Hester and his associate officers while in the discharge of their legitimate duties? You ask, "then what?" We reply, the Government is strong enough and willing enough to protect its officers, and bring to justice any person who shall wontonly shoot them down in the discharge of their duties. We write this in a good spirit, and not threatening. We want peace: we want all murderers and traitors punished: we want every man, woman and child to feel secure in their own homes ;-the general Government is determined, at whatever cost, that such a state of security shall be guaranteed to the people.

A NEW TEMPERANCE PAPER.-We are says, on Monday night between 9 and 10 pleased to note the fact that Mr. Theodore o'clock the alarm of fire was given, and it N. > NEW ARTICLE OF TRAFFIC .- Maj. W. H. Miller, the Post Sutler at Fort Macon, has on hand over four thousand terrapins, caught for the Philadelphia market, where they are worth from eighteen to twentyfive dollars per dozen. This is a new enterprise, and, as carried on by Mr. Miller, can not be otherwise than a paying one. Mr. Miller being a thoroughbred yankee, we would not be surprised to hear of him tailfeathering his terrapins and selling them to our hoosier friends for sea-birds.

> HEAVY ON REV. MR. ASHLEY,-The Sentinel intimates that Mr. Ashley, Superintendent Public Schools, is not handsomethat his capacity for the position, is about equal to that of an educated monkey! Where Mr. Ashley is known, such personalities will do him no injury. Mr. A. is an educated gentleman-a philanthropist, a loval man, and a devoted servant of the people, and an humble follower of our Divine Master. He will not consent to bandy igly words with the Sentinel.

> THE QUEEN BEE ON PERSECUTION .- The good book pronounces a blessing on all who are persecuted for righteousness sake. The Lost Cause, as Jeff. Davis will tell you, was a righteousness. Stephens says it may be regained, and we may yet depart in peace. I am persecuted in consequence, and Starbuck is a fool for not making me a martyr. Parrot Creech, of Johnston county, can beat the one-eyed Indiana pig; he raises "two feet" pigs. There is an advantage in this breed-"two feet" can't run as fast as four feet, and Creech's hogs won't be hard to keep out of the corn field.

Your Fight-nor ours.-Maj. Hearne, late editor of the Telegram, has published a lengthy article in the Wilmington Journal, in which said article are sentences objectionable to the editor of the Sentinel-the Sentinel twits the Journal for the publication of Major Hearne's article-the Journal comes back on the Sintinel, and concludes | For shipment from Raleigh,

"The Sentinel, like the rest of us, needs to learn the lesson of charity and tolerance. We all need to have the mantle of charity thrown over our errors of judgment and errors of heart. The Sentinel is not exempt from the common lot of editors and of hu-

Count us at a distance-a looker-on-not a participant. "Behold how good and how pleasant it is for brethren to dwell together in unity. It is like the precious ointment upon the head that ran down upon the beard, even Aaron's beard, that went down to the skirts of his garment." If we haven't quoted the scripture correctly, it is because our Bible is loaned out to a repentant Ku

Klux, and we write from memory. KU KLUX IN SOUTH CAROLINA-MAR-TIAL LAW.—The Washington Correspondent of the New York Herald assures that paper that the President will issue his proclamation despersing the Ku Klux in South Carolina, and immediately thereafter, the counties in which the Klan are operating, will be declared under martial law, and a sufficient force of U.S. Soldiers will be sent to said localities, to enforce the order. The

Herald's letter says: "It now appears that the outrages continue to as great an extent as formerly; that the witnesses before the sub-committee are an especial object of Ku Klux hostility, as they feared they would be, and it is the case that several of them have been abused and others are refugees in Spartanburg and towns where there are United States garrisons. Two or three weeks past the Ku Klux have ridden extensively throughout the district and a large number of negroes have, been whipped at Greenville. For some weeks or more past the trial of eight supposed Ku Klux has been progressing; one of them is said to be colored. The jury have failed to convict all but one. The colored prisoner has yet to be tried. The first jury stood eight for acquittal and four for conviction. Singularly enough the first eight were all democrats of an extreme stripe. It is very evident from this experience that the conlition of public sentiment there is so bad that juries will not or are afraid to convict.

In these cases the evidence was ample to convict most of the accused. In his interview with the President to day, Senator Scott laid the facts above given and many others before him, urging that the utmost rigors of the law be put in force to protect the unfortunate Unionists of Western South Carolina. He gave the details from his correspondence of several of worst cases. One of the witnesses (a white man.) named Quinn, who is a Republican, and was one of a grand jury charged with the investigation of Kukluxism, has been taken out of his house and most brutally whipped. Another important witness, colored, barely escaped with his life and is now a refugee at Spartanburg. The apprehension prevailing is something which decent people living in the North must utterly fail to realize. Senator Scott laid before the President letters received from Colonel manding post at Spartanburg, an officer BRILLIANCY of APPEARANCE, whose prudence and sagacity the Senator

says he has the utmost confidence. In these letters Colonel Merrill gives details of the occurrences herein referred to. The receipt of these letters has finally induced the Senator to lay the matter before the President, as he did to-day, and to advise and urge that the powers given by the kuklux law be exercised to their fullest extent in at least the counties of York and Spartanburg, South Carolina."

The country will sustain the President in any action he may take under the authority vested in him, for the restoration of peace. Forbearance on his part, as Chief Executive of the nation, has been exercised, as we most respectfully submit, to an extent unwarranted by the circumstances. Nevertheless, a vigorous enforcement of the Ku Klux Bill, even at this late day, will be a grateful relief to a people long and unmercifully persecuted.

The Half Yearly Abstract of the Medical Sciences, edited by Wm. Domett Stone, M. D. F. R. C. S., for July, 1871, published by Henry C.Lee, of Philadelphia, is before us. It is inot necessary that we should recommend this work to the profession. It is a standard journal. The typography is excellent, and reflects credit on the publisher.

WILTBERGER'S FLAVORING EX-TRACTS are warranted equal to any made. They are prepared from the fruits, and will be found much better than many of the Extracts that are sold.

Ask your Grocer or Druggist for Wiltberger's Extracts. BARLOW'S INDIGO BLUE

is without doubt, the best article in the market, for blueing clothes. It will color more water than four times the same weight of indigo, and much more than any-other wash blue in the market. The only genuine is that put up at ALFRED WILTBERGER'S DRUG STORE No. 233 North Second St., Philadelphia, Pa. The Labels have both Wiltherger's and Barlow's name on them; all others are counterfeit. For sale by most Grocers and Druggists. aug. 19—4mwatriw.
