

Republican State Convention.

In accordance with a resolution of the State Executive Committee of the Union Republican party of North Carolina, adopted by said Committee, a State Convention of the Republican party of this State, is called to meet in the city of Raleigh, on WEDNESDAY, the 17th day of April next.

The Convention is called for the purpose of nominating candidates for the offices of Governor, Lieutenant-Governor, State Treasurer, Attorney-General, Superintendent of Public Works, Superintendent of Public Instruction, Secretary of State, Auditor, and for other purposes.

According to the Plan of Organization of the party, each county will be entitled to as many votes in the Convention as it has members in the House of Representatives of the General Assembly.

S. F. PHILLIPS, Chairman. J. C. L. HARRIS, Secretary.

National Union Republican Convention.

The undersigned, constituting the National Committee designated by the Convention held at Chicago on the 20th of May, 1868, hereby call a convention of the Union Republican party at the city of Philadelphia, on Wednesday, the 5th day of June next, at 12 o'clock noon, for the purpose of nominating candidates for the offices of President and Vice-President of the United States.

Each State is authorized to be represented in the Convention by delegates equal to twice the number of Senators and Representatives to which it will be entitled in the next National Congress, and each organized Territory is authorized to send two delegates.

In calling this Convention, the Committee remind the country that the promises of the Union Republican Convention of 1868 have been fulfilled. The States lately in rebellion have been restored to their former relations to the Government. The laws of the country have been faithfully executed, public faith has been preserved, and the national credit firmly established.

Notwithstanding the fears of the sincere friends of the measure, the not unnatural prejudices against the civil and political equality of the races is rapidly giving way. The present General Assembly, which is nearly two-thirds Democratic, has a number of colored members in each House, and especially in the House of Representatives.

As a body they command and are treated with respect, not only by the Republican but the Democratic members also. As a class they are regarded as being as honest and liberal as any other. As a class they have shown no hostility or ill feeling towards the white race. In several instances some of them have shown a liberality and freedom from partisanship not found among the white members.

With the success of the Republican principles must necessarily be coupled the success of a party in North Carolina and the South. What party shall that be? Shall it be the great National Republican party that first came into existence upon and established those principles? Or shall the party that so long and so persistently opposed them be allowed to appropriate them and ride into power upon them? To this true and patriotic Republicans can give but one answer. They will join with one accord in saying, that with the success of Republican principles must come the success of the Republican party also.

The Democrats will hold their State Convention at Greensboro' on Wednesday, the 1st day of May next.

Mr. JORDAN.—We cheerfully give place to Mr. Jordan's card in another column—it speaks for itself. The attention of The Washington Chronicle is called thereto.

Why will the Democrats in the Legislature not give the State Printing to the lowest responsible bidder? Because they cannot "do so on the sly"—they would be compelled to do the act "publicly."

DON'T CARE.—We understand that Mr. Turner, of The Sentinel, says he cares nothing about national politics.—How can a man care about that of which he is profoundly ignorant, and of which nature has decreed that he must remain ignorant?

MEETING OF THE ALUMNI.—We give the proceedings of the first day, from The Daily Carolinian, in another column. We will give the remainder in our next. We are glad to learn that the prospect of reviving the University upon a just and satisfactory basis is promising.

The Triumph of Republican Principles.

Great innovations have ever had violent prejudices to encounter. This has been the case in all ages and in all countries, and will continue to be the case through all coming time.

These charges are true no right minded man can be found to defend them. If true, the officials charged should be promptly dealt with and dismissed from office. But are they true? Those who make these charges ought to bring forward the proof and have the alleged offenders indicted and punished in the Courts.

But in spite of all these prejudices, shared to some extent even by the writer, evil and political equality to the colored race came, and with it came wallings and lamentations from many of the best people in the land.

Notwithstanding the fears of the sincere friends of the measure, the not unnatural prejudices against the civil and political equality of the races is rapidly giving way.

will be invincible. Let it do this and it will obtain and keep possession of the State government as long as it administers it honestly, comically and faithfully. Let it do this and future generations will rise up and call it blessed.

The Sentinel and the Federal Officials.

The Sentinel of the 1st inst. has an article under the head of "Radical Official Villainy" that, perhaps, demands notice. A long catalogue of charges are preferred against the federal officials engaged in the execution of the ku klux law in North Carolina.

These charges are true no right minded man can be found to defend them. If true, the officials charged should be promptly dealt with and dismissed from office. But are they true? Those who make these charges ought to bring forward the proof and have the alleged offenders indicted and punished in the Courts.

Sumner for President.

George Wilkes, and some other discontented Republicans, who are for "any-body-to-beat-Grant," have proposed Sumner as their candidate for the Presidency. This is one of the strangest movements in the history of American politics.

These charges are true no right minded man can be found to defend them. If true, the officials charged should be promptly dealt with and dismissed from office. But are they true? The Lowrey Gang.

A recent correspondent of The N. Y. Herald stated his "belief that one of the reasons why the Lowrey gang in Robeson county had not been broken up, was, that they were voters on the Republican side in politics, and that they carried their political bias into their murderous trade and only killed Democrats." The statement is utterly groundless, false and scandalous.

Republican Meeting.

The grand mass meeting which has been in contemplation some time, took place here yesterday. The gathering of Republicans was the largest seen here since 1868.

NEW PAPER.—We have received the first number of a new weekly paper called The Economist, published at Elizabeth City, N. C., and edited by R. B. Creecy. It is one of the handsomest, largest and best printed weeklies in the State, and gives promise of usefulness, being well edited. In politics it is decidedly conservative, but moderate and respectful. It concedes that there are men among its political opponents who are "able, honest and faithful," and that it has a high personal regard for some of them. We wish it the most abundant success in a business point of view. Terms of subscription \$3 per annum.

NICE SMOKING TOBACCO.—We filled our pipe to-day from the bag of a friend who is a "smokist," and have no hesitation in pronouncing it equal to the "Lone Jack,"—from the factory of H. P. Jones & Co., Hillsboro, N. C.

THE WILD PIGEONS HAVE A ROOST AT CALLOWAY; it embraces an area of four miles long by three wide. The reports we have of the number of pigeons to be found there at night is incredible. The hunters go there and shoot indiscriminately in the dark, then with a lantern they follow the range of the gun and gather up the dead and wounded pigeons. Fifteen to twenty-five a shot is usual. It is said on good authority that Mr. John McElrath, of Murray, killed one hundred and twenty-four pigeons at a shot.

A Kentucky editor tells this with a sober face: "The wild pigeons have a roost at Calloway; it embraces an area of four miles long by three wide. The reports we have of the number of pigeons to be found there at night is incredible. SLEEP.—A sufficient amount of good, refreshing sleep is just as necessary to the health of the body, as proper food and sunlight. No one can do well without it. Indeed, he cannot do at all when one loses his sleep, he loses his strength and power of endurance with it. It is sleep that strengthens our bodies and repairs the waste of our tissues. Every movement we make during the day—every thought, every action—is attended with a loss of substance. Like a mill running by water, by every hour's work uses up a certain quantity of motive power. During the night, while we sleep, this is all replaced, and we awake feeling refreshed and new, and ready for action again. No matter how little he sleeps, he will always feel tired and uncomfortable. Sleep is the great restorer, the great invigorator. It is poor economy to steal an hour from refreshing sleep, with the expectation of making a paying thing of it.
