

CORRESPONDENCE.

The Editor must not be understood as endorsing the sentiments of his correspondents...

Mr. Editor: Our citizens here, this afternoon, have been treated to a grand political harangue, by the great humber from Ohio, Gen. S. F. Carey...

A DAMAGING ADMISION.

He was charging with great vehemence that the Radicals had stolen much, when he caught the eye of your correspondent fixed on him...

SCOTCH-IRISH REPUBLICAN.

Fayetteville, May 1st, 1872.

S. F. Carey.

Mr. Editor:—Since Gen. Sam Carey of Ohio, lectured here on the 2nd instant, the following facts have come out in regard to him:

I. He is a paid emissary of the English Free Trade League.

II. He is paid by the Tammany Democracy of New York City.

III. He offered to canvass for the Greeley Democracy of North Carolina, if they would pay him \$5,000 additional.

IV. This substantial man here indignantly declined because of his infamous Republican principles.

This leaves the Ohio General's Temperance clerical friends here in pretty much the same plight they were left in a few years since by S. Adams Lee—"Sold-God in the Ocean."

To-night as I write, the Greensboro leaders had gotten up a grand ratification meeting in the Public Square. The real object is to whip in the discontented of their own party for the municipal fight on Monday next. They are badly frightened. They see a "national calamity" in so many of their own party voting for Capt. Arhens against the rotten foggy ring of Young and Co. They can't believe that the Republicans are honest in making no party of this issue.

Two things strike me as I listen to the labored strains of Waring, Jones and others: 1. They find Merrimon's connection with Swepson an unfortunate plank 2. Greeley is an awful dose.

By-the-way Jones and Waring both pledged Mecklenburg for overruling majorities, just as they did for Convention, say 2,000, while the old thing went the other way 2,000. "A prophet is not without honor in his own country."

J. S., Jr. Charlotte, May 4, 1872.

The Greensboro' Nominees.

Judge Merrimon, the nominee of the Democratic (not Liberal) Convention is the right man on the right ticket to be badly beaten, and we say to our Democratic friends with great satisfaction, you could not have done better to suit us.

Merrimon has played fast in loss with the party which has nominated him for years, and has no political strength worth speaking of, but an excellent reputation in connection Swepson, Littlefield & Co. He is the last man we should have imagined that a Convention of wise men representing the brains of the Democratic party would have pitted against such a man as Governor Caldwell. Merrimon's nomination disposes of the last chance the Democracy had to make a respectable show of strength in the contest.

Major John Hughes, the candidate for Lieutenant Governor, is a gentleman of high character, and a consistent Democrat, but is not calculated to make a vigorous canvass. He will be defeated, and rather welcome it.

Major John Hughes, before he is done with the fight for a position which is unsuited to his quiet and yielding disposition. His nomination is in a public speech.

With regard to the other names on the ticket, they are mere catch-weights, jockeyed on, and not worth particular notice.

The mountain hath labored, and brought forth a brood of chickens without wings, and not a single black one among them. Nurse them up, gentlemen, pour on the oil of consistency, rub the "salt" through the candidates, and let the mountain have its way in a flock to be whipped.—New Bern Times.

The Weekly Carolina Era.

J. C. LOGAN HARRIS, Editor.

THURSDAY, MAY 9th, 1872.

All Letters relating to Subscriptions or Advertisements, must be addressed to WM. M. BROWN, Business Manager.

All Registered Letters can be sent at our risk.

Local, State and General Items.

ENTERPRISE.—Since 1865, Columbus, Ga., has built cotton factories which run thirty-three thousand spindles, and will this season consume six thousand bales of cotton; and there is talk of erecting another large mill.

ONE FAIR.—Delegates to the Republican Congressional Convention to be held at Frankfort on the 15th inst., will be passed over the Chatham and Raleigh & Gaston Railroads for one first class fare. Return tickets must be procured.

KILLED.—The New North State learns that a little boy was killed a few days ago, about twelve miles from Greensboro. He was going to mill and the wagon upset, falling on him and causing his death. No particulars.

ARRIVAL OF GOV. HOLDEN.—Governor Holden and family arrived in Raleigh last Tuesday. He will assume editorial charge of THE CAROLINA ERA.—W. Post.

It is a mistake that Gov. Holden will assume editorial control of THE ERA. We are authorized to state that he will not take an active part in political affairs.

PAINFUL ACCIDENT.—The Rockingham Observer says a negro man named Richard Wall, who was employed on the premises of Mr. H. C. Wall, near this place, while endeavoring to leap off, fell, and the wagon ran over his leg, breaking the smaller bone about three inches above the ankle.

We are glad, however, to add that he is rapidly improving.

SAD ACCIDENT.—The Durham Tobacco Plant learns that Win. Dixon, miller for Capt. Parrish, on Flat River, was killed on Monday last, by being caught in the running gear of the mill. His neck was broken, body almost severed, one arm torn off and his entire person badly bruised and mangled. His wife observed that the mill was not running, went down to ascertain the cause and found him in this condition.

WILMINGTON, CHARLOTTE AND RUTHERFORD RAILROAD.—The Shelby Banner says Captain V. Q. Johnson, Assistant Superintendent of the Wilmington, Charlotte and Rutherford Railroad, is in our town, and has greatly encouraged our people by the information that the road will be pushed through the Paper Mills before work is resumed again, and that as soon as the bridge is built across Buffalo Creek work will be resumed and the road completed to Shelby. There are about twenty-five hard-working men busily engaged, who have laid the track three miles, which brings it to Muddy Fork, eight miles of Shelby.

FATHERMORE, there is an engineer on this end, who came for the purpose of making a survey around the great rock, near Shelby, in order to shun the same.

Captain Johnson is desirous of completing this road. He knows that, not only this section, but the whole State will be benefited greatly thereby.

HORRIBLE ACCIDENT.—The Wilmington Journal regrets to learn of a sad accident which occurred on board of the revenue cutter W. H. Seward, on Sunday afternoon.

By request of the friends of the deceased, Capt. Carson has consented to fire a few guns in the endeavor to bring the body of young Joseph Price to the surface. Several shots were fired in the forenoon, but without effect, and it was thought best to try a few more during the afternoon. On this latter occasion, the first gun having been fired, a seaman by the name of the Katesbury R. Warring, was engaged in ramming home the charge for the second shot, while Thos. Kavanagh, the Captain of the gun, held his thumb firmly on the vent or touch-hole, when, of a sudden, the gun exploded, tearing away Warring's right hand at the wrist, and blowing his face considerably burned by the powder which was blown up through the vent, as his thumb was forced from it. Warring was rescued, and on examination it was found besides the blowing off of his hand, that his arm had been broken in two places. The mutilated hand was taken off at the wrist on Sunday night by Dr. Winans, and the broken bones were set. As the last accounts the patient was doing as could be expected.

Kavanagh was severely burned on the face and in the eye, but with careful nursing it is thought that his sight will be preserved, and he generally.

The guns are old and defective. No blame can be attached for the premature explosion.

EDITORIAL NOTICES are so common that it is almost impossible for an editor to express his honest opinion of the merits of any article without being suspected of interested motives. This fact, however, shall not deter us from saying what we think of a new addition to the Materia Medica to which our attention has been recently directed. We refer to Dr. J. WALKER'S CALIFORNIA VINEGAR BITTERS, a remedy which is making its way into more families just now than all the other advertised medicines put together. There seems to be no question about the potency of its tonic and alterative properties, while it possesses the great negation of recommendation of containing neither alcohol nor mineral poison. That it is a specific for Indigestion, Bilio-nousness, Constipation, and many complaints of nervous origin, we have reason to know; and we are assured on good authority that as a general invigorant, regulating and purifying medicine, it has no equal. It is stated that its ingredients, (obtained from the wilds of California), are new to the medical world; and its extraordinary effects certainly warrant the conclusion that it is a compound of all the best known remedies. If popularity is any criterion, there can be no doubt of the efficacy of the VINEGAR BITTERS, for the sale of the article is immense and continually increasing.

W. N. C. RAILROAD.—The Asheville Citizen says a letter from the President of this Road to the Treasurer, here, informs us that the negotiations for its transfer to the Pennsylvania Central Company have not been completed. The trouble is said to be with the Eastern Division—as to who are the proper parties with whom to contract.

RETURNED.—Gov. Holden and family returned to this city on Tuesday last. They are all well. The Governor is enjoying excellent health; looks well, is in fine spirits. A great many of his friends have called to pay their respects to one who has ever been the friend of the poor, the defenseless and those in distress.

Speaking of the departure of Gov. Holden from Washington, the Chronicle of that city says:—

Ex-Governor W. W. Holden, with his family, left Washington last evening for a permanent residence at his old home in Raleigh. He is accompanied by his wife and children, from his city the kindest remembrance from a host of friends he has made here.

PARIS FASHION.—A Paris correspondent relates the story of a sad wedding party in that city. The whole party came out of the church weeping. The bride wept, the mother wept, the company wept, and the groom wept more copiously than all combined. The only persons who did not weep were four men and a child. The child was born out of wedlock, and to give it a name, its parents had married before they parted forever. The groom was a young clerk, sentenced to transportation for forgery and he was to leave the following morning.

Four men who accompanied him were police agents, ordered to go with him to church and to the Mayor's office, and to bring him safe back to prison, after the marriage was celebrated.

FIRE AT NEUSE RIVER LIGHT HOUSE.—A FIGHT FOR LIFE.—The New Bern Times learns by letter that Neuse River Light House caught fire on the morning of the 26th, from a cooking stove. In the ceiling over the oil room, E. Daniels (the wife of the principal keeper) was well under way. It happened that at the time, the Assistant Keeper was on shore (a long distance off) with the only boat attached to the Station. Death straddled the devoted husband and fond wife in the face, and with an energy and heroism born of despair and true courage, the brave couple worked for an hour or more, gradually gaining on and finally conquering the devoting element, but not until a hole seven feet square had been burned in the ceiling. The agony and desperation of those persons during that fearful hour of peril can be better imagined than described.

WILMINGTON, CHARLOTTE AND RUTHERFORD RAILROAD.—The Shelby Banner says Captain V. Q. Johnson, Assistant Superintendent of the Wilmington, Charlotte and Rutherford Railroad, is in our town, and has greatly encouraged our people by the information that the road will be pushed through the Paper Mills before work is resumed again, and that as soon as the bridge is built across Buffalo Creek work will be resumed and the road completed to Shelby. WALKER'S CALIFORNIA VINEGAR BITTERS, a remedy which is making its way into more families just now than all the other advertised medicines put together. There seems to be no question about the potency of its tonic and alterative properties, while it possesses the great negation of recommendation of containing neither alcohol nor mineral poison. That it is a specific for Indigestion, Bilio-nousness, Constipation, and many complaints of nervous origin, we have reason to know; and we are assured on good authority that as a general invigorant, regulating and purifying medicine, it has no equal. It is stated that its ingredients, (obtained from the wilds of California), are new to the medical world; and its extraordinary effects certainly warrant the conclusion that it is a compound of all the best known remedies. If popularity is any criterion, there can be no doubt of the efficacy of the VINEGAR BITTERS, for the sale of the article is immense and continually increasing.

W. N. C. RAILROAD.—The Asheville Citizen says a letter from the President of this Road to the Treasurer, here, informs us that the negotiations for its transfer to the Pennsylvania Central Company have not been completed. The trouble is said to be with the Eastern Division—as to who are the proper parties with whom to contract.

RETURNED.—Gov. Holden and family returned
