After the cabbage were taken off he planted the ground in Irish potatoes, using two and a half barrels for seed, and gathered and sold 145 barrels that were sold at \$2.25 a barrel, making \$326.25. A correspondent of the Virginia, from Scotland Neck, N. C., thus reviews the various county officers: There has not been as much general interest shown in politics in this county in many years as is witnessed now. Every convention is well attended, and every delegate is sure to fill his appointment. This unusual activity in political interests is attributed by every one to the influence of the Farmers' Alliance. The coalition idea is still prevailing to some degree in this county, and it is thought by many that an attempt will be made to carry a coalition ticket. Many think this the reason for postponing the nominations for county officers and members of the Legislature until the first of October.

The debtor class especially are in trouble in consequence of the legal ratio which existed for hundreds of years between gold and silver having been dissolved and the extraordinary fall of one of the metals or the rise of the other; and owing to the fact that debts contracted years ago have to be paid in a metal that is constantly increasing in value, the debtor class perhaps are suffering more than any other. No, it will not pay that—SEATOR VANCE.

OUR WASHINGTON LETTER.

WASHINGTON, D. C., July 21, 1890.—Very little of interest to your readers of the country has transpired in Congress during the last week. The Land Forfeiture Bill was amended in the House and passed that body last Thursday. By this act, if it should become a law, millions of acres conditionally given to railroads are forfeited and again become a part of the public domain. A statement from Senator Allison contained such a full expenditure of money in the necessary appropriations for the ensuing fiscal year as to jeopardize the passage of some of the appropriation bills and especially the River and Harbor Bill and Fortification Bill. The immense expenditure of money for partisan legislation by this Republican Congress has been so great that many of the real and necessary demands of the Government will be side-tracked for partition purposes. According to the statement of Senator Allison, at the rates of the present plan it will require an expenditure of July 1, 1890, of nearly \$400,000,000 and the total abandonment of the sinking fund. The causes of these vast expenditures of money are the increase of money given to pensioners, subsidy legislation and the new Election or Force Bill to be fastened on the people. Can anything more complete be done than the after-impunity of the Republican party to control and make laws than does this sudden exhaustion of the Treasury in the second year of Harrison's administration, and the total annihilation of the large surplus left in the Treasury by Mr. Cleveland? The administration is but repeating the history of former Republican administrations. It is a party of subsidies and extravagance and waste. Its leaders are household names of the National banking act, a cessation and repeal of all unconstitutional legislation by Congress, a proper control of the railroads, etc. Resolutions were adopted endorsing Vance for re-election.
