DUTY OF PEDERAL OFFICERS.

WASHINGTON, Sept. 4. The following was referred to General Sherman for his guidance by the Secretary of War and transmitted to United States Marshals for their government: SIR-The laws of the United States having made it my duty to exercise general direction over Marshals in the manner of discharging their offices, I have prepared for their use this circular letter of instructions as to the coming elections, intending the same also as a reply once for all to numerous ap-

plications in like connections from private citizens in various States. In the present condition of legislation the United States occupy a position towards voters and voting which varies V. according as the election is for State and other local officers, only, or for (Signed) members of Congress and Presidential Electors. In elections at which members of the House of Representatives Tilden and false pretences have are chosen, which by law include also elections at which the Electors for pointed, the United States secures voters against whatever in general hinders or prevents them from a free exercise of the elective franchise, extending that care alike to the registration lists, the

If such interference should take place—a thing not anticipated—you are to disregard it entirely. The laws of the United States are supreme, and so, consequently, is the action of officials of the United States in enforcing them. not concern elections for Federal offices.
