

FINANCIAL AND COMMERCIAL

Daily Review of the State of the Markets at Home and Abroad.

DRY GOODS. New York, Aug. 9.—The conditions in the general dry goods market were very encouraging. The demand has shown gradual improvement at firmly maintained prices, while distribution of reasonable lines from second hands is good. Stocks are not accumulating at the center. Converters and jobbers are in season here, and in the case of the heavy purchasers of cotton goods, especially brown and gray goods, sales of the latter were good. The advance of 1-16c for certain lines, and of 1-8c for others, in the market for sheetings and drills firm at 2 1/2c. The print cloth market is quiet and unchanged at 2 1/2c for regulars.

COTTON. New York, Aug. 9.—Trading in cotton was active today under continuation of yesterday's general buying movement, and prices made further sharp advance, extending to 11 and 12 points throughout the list of options. The primary cause of the recent sharp advance has been due to the announcement of the crop damage. The report has been heavily oversold by bear traders and southern operators and speculators, and the hasty retreat of this large interest has in reality precipitated the upward movement. Liverpool's advance has been due to the same cause. Spot firm and 1-16c higher here at 6 1/4c for middling. Futures:

CHICAGO GRAIN AND PROVISIONS. Chicago, Aug. 9.—Wheat closed 1/2c over Tuesday and at times showed a little better. There was a general disposition to cover in advance of the government report tomorrow. Corn advanced 3/8c and held most of it. Provisions were higher early but closed off at a small decline.

STOCKS. New York, Aug. 9.—The stock market opened strong and with trading showing more animation than for some time. The advance was more common throughout the market, trading showing a general distribution of interest. The rise seemed to be a continuation of the movement that set in the final dealings yesterday. There was little new in the situation but sentiment was plainly encouraged by the growing ease in the money market. In the railway list the features were granger shares, Pacific stocks and the Minneapolis and St. Louis. The industrial quarter was also firm. Trading was extremely light in the final dealings, except in a few of the industrials and specialties. American Lined Oil, Leather stocks and Colorado fuel and iron being conspicuous. The close was dull and steady.
