ROOM FOR JOHN SMITH

ernor Forward for Vice President

Baltimore, June 26.—The Maryland delegation is now preparing a John Walter Smith boom for the vice presidency which they will present at the Kansas City convention. Chairman VanDever admitted today that Governor Smith's name would probably be presented to the convention for vice presidential nomination. He thinks the nomination will do much to restore confidence among eastern Democrats, that it will be a wise selection and not at all outside of the pale of possibilities that he should receive it. "We will probably present Governor Smith's name," said Mr. Van-Diver. "At any rate re shall certainly urge his availability as a running mate to Bryan. We believe from all that we have heard tthat even the most ardent of the Bryan and free silver advocates are anxious that something should be done to propetuate the eastern conservative voters. We know of no better way to do this than by coupling to Mr. Bryan a conservative eastern Democrat Everything that Mr. Bryan himself has said has pointed to the fact that he believes something should be done to enlarge the Democratic vote.

"Governor Smith has just redeemed Maryland from the Republicans. He is a Democrat who has never been beaten at the polls. He has never turned his back on his party, has never deceived either Bryan or free silver in public, though he is known to have somewhat more conservative views on the financial question. He is known throughness connections, and his nomination spected the soldiers with the veiw of would make a certainty of Maryland. beyond having considerable strength all over the country. It is lost ground which the Democratic party will have to make up if they expect to carry the undignified campaign for Governor Smith, but we do believe that in him have a solution of the question, and we see it."

London, June 26.-From many quar ters comes confirmation of the news of the relief of Tien Tsin June 23. The news reached Berlin from the German consul at Chefoo, who anat 9:30 o'clock. The police have it that Tien Tsin during the afternoon of June nounced that the relief column entered 23 and started again June 24 to rescue Vice Admiral Seymour, who, with the foreign ministers, was said to be occupying a position twelve and one-half miles from Tien Tsin, where he was surrounded and hard pressed by a great force of Boxers and Chinese regulars.

Possibly the Japanese report that Seymour is a prisoner and that the ministers had left Pekin guarded by Chinese soldiers is merely a distorted version of the Berlin story.
