the action and then rushed to catch his train. When asked "What can you say in regard to the action of the operators today?" he replied:

"This is somewhat of a surprise, but Prospect of Settlement Has move of the independent men surely Further means that the coal-carrying roads have awakened to the situation. Just say that the national officers of the United Mine Workers of America carnestly beg for the miners to remain firm to their cause, for victory is heaving in sight, Tell them all to defer action until they hear from President Mitchell. He will not be slow in taking in the situation, and at all times he is for the miners."

Report of Suffering Denied

Wilkesbarre, Pa., Oct. 5.-President Mitchell and miners' officials say there is no truth in the statement that the miners on strike or their families are in distress. They have issued a card to the public to that effect. This report, they charge, is circulated by the mine owners or their hired detectives for the purpose of weakening the position of Oct. 5.-The great and the miners. It is on a par, they say, with the forged notice purporting to have been signed by Mitchell for the miners to return to work, and with the persistent rumor that President Mitchell has agreed to accept a ten-per-cent increase will be called upon to suppress another and hunger is beginning to appear in n wages for the striking miners.

Much indignation is felt here that forgery and other underhand methods should be used by mine owners or their outbreak is imminent. mine bosses to mislead the strlking

Operators Will Offer Increase

Wilkesbarre, Pa., Oct. 5,-Nearly al the individual operators in this district their collieries tomorrow. Only the Susquehanna, Delaware and Hudson and the Pennsylvania companies are holding, at any time, off, and these are expected to fall into In this locality the Chinese regular number peace is no nearer, and a long erty instead of specifically upon their troops have found themselves unable to strike is predicted.

Another Company to Raise Wages

posted this notice today:

Seymour Accuses Imperial Forces

London, Oct. 5.—The Official Gazette tonight publishes a number of dispatches from Admiral Seymour, commander of the British fleet in Chinese waters, who ed the allied forces from Tien Tsin in the unsuccessful effort to relieve the legationers at Pekin. The dispatches ran from June 27 to July 15, and in themthe admiral describes his efforts to relieve the people at Pekin. He ascribed his failure to the fact, according to his own words, of "the Chinese imperial troops with whose government we were not at war, turning against us, conniving at the destruction of the railway, and probably actually joining the Boxers."

The General Situation Is Considered Favorable.

James Was Reminded of a Circus Ele- OUTLOOK IS PROMISING

Most Faverable Reports Come from the South Where Ten Cent Cetton Inspires Unusual Activity - Weakness Is Noted in Sugar and Strength in Hog Products-Some Lines of Business Waiting on the Election.

New York, Oct. 5.-Bradstreet's to-

morrow will say: Despite some irregularity, both as to demand and prices, due partly to warm, rainy weather, but likewise to reflection of a hesitancy to embark largely in new business, general trade is favorable and confidence as to the outlook for business the balance of the year is notable. Some diminution in the volume of jobbing business is noted at large western centres, northwest alike checks the movement of wheat to market, injures the grade of the same and discourages retail and job-

Ten cent cotton is the key to very favorable reports which come from the South, and the character of reports from this section is more nearly favorable than for many years past at this

The indisposition to contract heavy as to the future is perhaps most marked in the iron and steel trade, and here also the most marked tendency towards weakness in the crude forms of produc-

tion is noted. The industrial outlook has been improved by the signing of the tin plate scale, but the anthracite coal situation is, on the surface at least, rather more unafovrable than a week ago, more mines and miners being idle and the product steadily diminishing.

Special weakness is noted in the sugar trade, owing to the practical break of the raw sugar corner, as much as to the passing of the canning season and the reported intention of refiners to reopen the war in prices. Special strength is noted in provisions and hog products, in which the very strong statistical position is receiving more attention. The strength of the railroad situation is reflected in earnings fully equal to last year and in some instances larger, and the announcement that rates are to be advanced November 1st. Business failures for the week number 177, as against 169 last week, 145

in this week a year ago and 163 in 1898 Business as Dun Views It

New York, Oct. 4 .- Dun's review tomorrow will say: The anthracite strike settlement has been delayed another week and the effect upon business in the east is more apparent, though distribution in the West and South seems no less active. Seasonable weather in the east would quickly aid matters. Prices are slightly lower in wool, coal and sugar, but the produce and textile markets are firm, and in all departments of business an effort by distributors to increase transactions would quickly advance prices. Bank clearings for the week at New York show only 8.2 per cent. decrease from 1899, on account of the Dewey holiday last year, and 8.9 per cent. gain over 1898. At the leading cities outside New York there is 7.0 per cent. decrease from 1899 and 15.9 per cent. gain over 1898.

The most interesting financial development was the further drop of 1 cent in the pound in sterling exchange, completing a decline of 2 cents in two weeks, don rates for discounts have strengthened materially, though the Bank of Cotton shipments are producing about double the exchange they did a year ago, and as the crop is being moved with result is that New York is loaning foreigners about half the value of the crop. Most manufacturing concerns are deterial. Pig iron has declined on small orders and was also depressed by the and export buying does much to prevent

Sales of wool at three chief eastern markets 3,417,265 pounds, exceeding against 20.37 September 1st.

Wheat is steady. For the week Atlantic exports were 3,252,994 bushels, flour included, against 3,562,062 in 1899.
