Democratic National Headquarters Are Closed

FUTURE OF THE PARTY

Ex-Governor Stone Declines to Discuss the Causes of Bryan's Defeat-He Declares That the Democratic Party Must Stand for the Defense of the Constitution-Must Be Progressive as Well as Conservative

New York Nov. 7 .- Democratic national headquarters were closed up at 11 o'clock this morning and the Hoffman House and other Democratic resorts are deserted. No claims are being made on any State which at last reports last night seemed to be close. The result

is accepted without question. In spite of heavy Democratic gains all over the State, the Democrats lose seven members of the New York Congressional delegation. At present they have eighteen of the thirty four members of the House at Washington. In the next Congress they will have only

The Tammany estimate this morning of the Republican majority in the State is 127,000. The Republicans are still claiming a majority of 150,000. The Bryan plurality in Greater New York will not go above 31,000. Before closing up shop this morning ex-Governor Stone, of Missouri, manager of the Bryan campaign in the east said: The battle is over. The Democrats of the country accept the result without complaining, as in duty bound. It signi-

fies but little now to analyze the influences to discuss the causes that brought about the result. There will be a wide divergence of opinion as to that. This I will say, however, that the Democratic party must stand, and will stand, undismayed in defence of the constitution and for the preservation unimpaired of our institutions. A colonial policy would be the destruction of the republic, and we should resist every effort to

establish it. "I have always favored the annexation, in a proper way, of the islands adjacent to our coast, but have opposed the annexation of a large domain in the eastern hemisphere for reasons fully stated during the campaign. "The Democratic party must stand

firm in defence of the constitution, while at the same time it should take an advanced and progressive position looking to the development and protection of our maritime and commercial interests. "The Missouri Democratic platform of 1898 expresses my views on the politi cal questions of the day. These questions are for cuture discussion, however. All I say now is, what I have

said many times before, that the Democratic party must be affirmative and progressive as well as conservative. "Mr. Bryan made a great fight. He is one of the great men of history. He may never be President, but whether in public or private life, no man in America will hold a more commanding place, and none will be capable of exerting a
