His Deliverances on Trusts and the Monroe Doctrine Attract Attention and Provoke Criticism

London, Aug. 30.—There has never been a more convincing recognition of the position of the United States as a world power than has been furnished by the annual session of discussion of the League of Nations. The president's speeches have been the subject of the most remarkable discussion in the history of the world. The president's language has not been so widely and so earnestly discussed in any other country. THIRD VICTIM

A Durham Negro Killed by a Ditch Caving In

Durham, N. C., Aug. 30.—Special.—Sam Battle, colored, employed on the sewer works, was killed this afternoon between 4 and 5 o'clock by the ditch caving in on him. He was at work in a ditch some nine or ten feet deep when the cave-in occurred. The shouts of those on top warned him that there was danger. He made an effort to get out but the great bulk of earth caught him against the opposite bank and his life crushed out instantly. This is the third man killed in the sewer works since the beginning some six months ago. In addition to these several men have been seriously hurt at different times. Battle was the only one in the ditch this afternoon.

NAVAL SPY CAUGHT

An Incident in the Game of Playing at War

New London, Aug. 30.—Signal corps men stationed on Block Island captured a naval spy tonight. He was discovered in the vicinity of Station Hill where the army has erected a wireless telegraph station, concealed in a cigar case. He had several important papers revealing for the first time the plans of the government's instructions to Rear Admiral Higginson, commanding the naval fleet which so mysteriously disappeared from Fayal two weeks ago and has not since been seen. These plans have now been communicated to General MacArthur who declined tonight to make them public. It is learned, however, that an immediate invasion of the United States is contemplated.

Greensboro, N. C., Aug. 30.—Special.—The result of the Democratic primaries in Greensboro and High Point last night, indicate beyond a doubt the nomination of all the present county officers by overwhelming majorities. Denver, Col., Aug. 30.—Former Governor Charles S. Thomas, who has been a candidate for United States Senator for several years and has been busy laying wires throughout the State for the fall legislative campaign, has abandoned hope of securing a strong following. Today he issued an open letter saying that while he wants to be a Senator and thinks the Democrats of Colorado decided to defer working for the honor further until Patterson's term expires in 1903, in this campaign he heartily supports Henry M. Teller for re-election.

SHAW'S HINT TAKEN

Washington, Aug. 30.—The suggestion of Secretary Shaw that the national banks take out additional amounts of circulating notes with a view to meeting any demands for currency that may be needed in the movement of crops has met the approval of those institutions, and so far \$15,000,000 of additional notes have been ordered printed for their use. This amount is in addition to the regular demands for bank notes. While the additional notes will be prepared at once they will not be issued until there is a demand for more money, but will be held in reserve for an emergency should it arise. SOUTHERN RAILWAY

Points Gleaned from the Company's Report

New York, Aug. 30.—The Southern Railway Company has issued its stockholders the full report covering its operations for the fiscal year ended June 30. With an increase of 37 miles operated during the year, gross earnings show an increase of \$3,061,176, while net earnings are larger by \$548,554. The comparatively small increase in net earnings was caused by the larger expenditures on improvements and betterments charged against operating expenses. The balances earned available for dividends were \$3,000,897, as compared with \$3,540,500 earned during the previous fiscal year, an increase of \$60,937. The other income shows an increase of \$328,800. President Spencer explains that this increase is chiefly due to interest on Mobile & Ohio general mortgage 4 per cent bonds owned and pledged for Southern Mobile & Ohio

Savable Wins Futurity

on Final Jump at the Post

New York, Aug. 30.—Six weeks ago John A. Drake, the Chicago millionaire turfman, announced publicly that he had the winner of the futurity in his stable. He alluded with confidence to his bay colt Savable, by the famous Salvator, out of Strawberry, who was purchased by him from Pat Dunn, the western horseman, last winter for \$30,000. Dunn had purchased the colt as a yearling in the Haggin sale for \$550. At the time eastern horsemen were inclined to ridicule Mr. Drake's confident prediction, and when Savable recently ran a very poor race at Saratoga the impression became general that the youngster would not do, but today, down at Sheepshead Bay, in the presence of an immense crowd of 50,000 spectators, Savable made good his owner's forecast by winning in the post, in the last jump by six inches from August Belmont's Lord of the Vale.

Magnificent Race in Which

Four Horses Struggled for Victory—Twenty-four Were Started

As the jockeys took their positions Fire Eater suddenly whirled around and kicked Africkander in the ribs. He came within an inch of kicking L. Smith in the leg, the boy pulling his foot out of the stirrup in the nick of time. After several attempts the field, as if controlled by a single hand sprang forward in a perfect line as the barrier flew up. After taking two strides, however, Fire Eater stopped short and was left standing still.

Heavy losses are reported on both sides. The provisional army was under command of General Nord, while the rebel forces were in command of the revolutionists. The towns of Marmalade and Limbo had been totally destroyed in the course of the fighting. The Cincinnati, in command of Captain McLean, is now at Cape Haytien, so that American interests in that vicinity are well protected.

Democrats in Maine Pleased with Kitchin

Fifth District Representative Makes a Hit with His Eloquence and Unswearable Logic

By THOMAS J. PRINCE

Washington, Aug. 30.—Special.—Congressman W. W. Kitchin has made a hit in Maine where he has been campaigning for the Democrats of that state. As in the case of Congressman Fox, who campaigned in the Pine Tree State two weeks ago, the Democrats are so well pleased with him that they are trying to induce him to remain another week. Reports received at Democratic headquarters show that Mr. Kitchin has received a flattering reception everywhere and that his speeches have done much good. In Auburn, Me., last Tuesday the president and the Third Head congressman were rival attractions. In two hours after the president had departed Mr. Kitchin was addressing a big audience in the city hall. The Lewiston Daily Sun, an independent paper, devotes two columns to the Democratic rally and editorially it says of Mr. Kitchin:

"Congressman Kitchin in Auburn Hall last night made a good point on enforcement—Republican enforcement—enforcement of prohibition in Androscoggin and anti-trust laws in the nation. Read what he said. But the best was his presentation of the Philippine issue and the present violation of the principle of local self-government. We wish our people might hear it over and over again."

In the report of his speech the Lewiston paper said of Mr. Kitchin: "As Mr. Kitchin stepped forward upon the platform he was greeted with much applause. Mr. Kitchin is a man of strong personality and a most entertaining speaker. From the time he uttered the first word in his speech until he was seated he held the closest attention of his listeners. That he is an orator of no little note will be the sentiment of all who heard him. Mr. Kitchin's speech throughout was punctuated with applause of the most enthusiastic nature. Mr. Kitchin declared that the most strenuous president had practically surrendered to the trusts. He had once opposed them, he had once spoken of 'shackling cunning,' he now speaks of the great captains of industry and threatens them with publicly a terrible punishment, publicly. On the 4th of July he spoke at Pittsburg on trusts and ate dinner with Mr. Frick of the steel trust. Never fear an honest man who partakes of your hospitality. The president has not resorted to the second section of the trust law. He ought to wait that. He ought to show some earnestness about the matter. But he cannot; he wants to be nominated for the presidency. No man who is at heart hostile to the trusts can secure the Republican nomination. Should the trusts withdraw their support from the Republicans that party would fall and its patriotic members would be ashamed of its recent history, who instead of the statesmanship of Garfield and Sherman and Blaine the interests of syndicates have shaped its policy."

"The president wants to wait for a constitutional amendment before he undertakes to attack the trusts, knowing as he does that in a hundred years the constitution has not been amended except as a result of the civil war, and knowing the supreme court has sustained the constitutionality of the present anti-trust law which he does not enforce. The trusts can have no better friend than he who declares we must wait until the constitution is amended before the trusts can be destroyed."

I talked with many of the fourth district Republicans at Greensboro, and they were all of one opinion with respect to the endorsement of ex-Congressman Axtator as the Republican candidate for congress. They declare that he has fooled them once and that he will not be given the opportunity of doing so again. From what I heard it looks like Frank Jones of Chatham, the present Republican chairman of the district, will make the race against Mr. Fox.

The death of Congressman R. C. De Graffenreid of Texas brings to mind the fact that his ancestors lived in Craven county, being prominent in affairs in that section. It was always Mr. De Graffenreid's desire to visit his ancestral home and he had accepted an invitation to be the guest of Congressman Charles R. Thomas, but some previous engagement interfered and he had to postpone it. All of the North Carolina congressmen were very fond of "De" as his friends affectionately called him. The remains will leave here tomorrow morning at ten a. m. for Texas.

Echoes of the Republican Convention

Greensboro is to be the battle ground of the Republican fight in the present campaign. Before taking the train for Marshall yesterday Senator Pritchard stated that he intends to open Republican headquarters in the Gate City September 15. D. C. Pearson, who was re-elected secretary of the State committee, and the Senator's secretaries will be on the ground, and though the Senator will spend much time on the hustings, he will direct the campaign in person and spend as much of his time as possible at Greensboro. The proposed joint canvass with Locke Craig is on the Senator's mind just now and he desires to arrange the details of this week so that he can devote his time as possible to organization and plunge into the campaign.

At the meeting of the State committee yesterday the situation in the state was gone over very carefully and the condi-

tions in the various districts were freely discussed. The Republicans do not expect to carry North Carolina this year, but they are not without hope. Senator Pritchard realizes the desperate condition of affairs that confronts him, but he is not a quitter and he is going ahead with the view that North Carolina will soon be a debatable ground politically and that he can build up the party and give it a prestige it has never had.

The convention this week has unquestionably a great improvement over any that the party has ever held in North Carolina. The strength that the manufacturing element has carried to Republicans should not be underestimated, by the Democrats. I heard two cotton mill men from an eastern county tell Senator Pritchard that Republicans would be sent to the legislature from that county. The county gave a Democratic majority of less than three hundred two years ago. This instance is an exception, it is true, but it shows what the Republicans are doing. Whether or not the Republicans endorse the independent movements in the counties they will certainly give them all the encouragement possible.

The convention this week has been widely discussed and that which is attracting attention outside of the state was the disposition of the negro. The elimination of the negro as a political factor was most effectual, but the more active factor was taken that can give offense to national Republicans. The negro had gone forth that the negro must take a back-seat, but the more active members of the race did not heed, and then it was necessary to use the power of force that the leaders possessed. Dave Leno was a young colored man entitled to the privileges of the floor, but he was subjected to some wonderful hypnotic influence and was induced to go over to Danville. His less fortunate brothers were in a very agitated state of mind all day yesterday over Dave's sudden disappearance and were wondering whether or not he had been kidnapped, and they were about to give out an alarm Dave turned up. His explanation of his absence was that he wanted to see "white men fight it out this year."
