With a Majority in the Next House -- Farewell to a Popular Newspaper Man

Washington, Oct. 6 .- Special .- Hon. John Sharp Williams of Mississippi, who has recently returned to Washington from a stumping tour in the north under the auspices of the Democratic congressional committee, commented rather severely in the following language upon the utterances of a few Democrats who have thought it unwise for their party to control the next house of representatives. He said:

"I have seen the discussion of socalled Democrats who are publishing to the country the idea that in the cause of good government, and in the interest of the Democratic party, it would be best for the Democrafs to lose the next house. While not presuming to confirm what has been said to the effect that the Democrats who say this are asses, 1 wm fully prepared to say that the assumption underlying the statement is that all Democrats are fools; that the party assumption is that fundamental political truth is idocy. was the farewell given Mr. W. P. Leach, the business manager of the Times,, who goes to San Francisco to take a similar position with the Chroniclee at a salary of \$10,000 a year. His splendid business capacity and enterprise has made the Times a winner and those who know him are sure that he will make the Chronicle the leading paper on the Pacific coast, an even more successful paper than it now is. At the farewell given Mr. Leach there were present Mr. W. P. Whitsker, business manager of the Morning Post, and news paper men from New York and San Francisco, who came here to extend happy felicitations. Being one of the most popular newspaper men in Wishington Mr. Leach was kept busy all the week attending functions in his honor and he was the recipient of many handsome tokens of esteem. Mr. Lench's successor is Mr. Paddock, for many years with the New York Sun and more ately with the News.
