THE WEATHER TODAY: Fair

TUESDAY, OCTOBER 7, 1902.

The fact that the President and his cabinet held a lengthy conference on Sunday morning in discussion of the coal strike

It impresses upon the public given encouragement to the hope that a plan is in contemplation which will bring an early end to the disturbance

The plan may be nothing more than friendly advice to the mine workers to return to work under the promise of a prompt and thoroughly fair investigation by Congress

The Democrats not only point with pride to these increased appropriations and expenditures, but also to the fact that the tax on the property of the people has not been increased one mill

Again, Governor, it greatly pleases us to impress upon you the fact that while proud of the increased appropriations and expenditures for such worthy objects, the Democracy is also proud that not one cent thereof has been misplaced or misapplied

Now we have told Governor Reynolds where that "more than a million" has gone. Will he read, learn, inwardly digest, and be good?

The Man on the Farm - a - in the country is at the head of the procession now so far as his fuel and milk go

In addition to the coal strike which is pressing down so heavily upon the good people of Boston town, a strike is on or threatened between the New England Milk Producers' Association and those who furnish that live-saving fluid as to the price to be paid the latter this winter

So long as violence continues, property destroyed and man anxious to work prevented from so doing by violence, whether done by and with the consent of the organization or not brings reproach upon the latter, weakens its claim upon public sympathy, and affords strong justification for the refusal of the operators to compromise with law-breakers

We have strong hopes that if this is the plan of the President it will be

has been charging 8 cents. Now the farmer wants 4 cents and the dealer insists, to meet his expenses he must charge 8 cents, against which his patrons kick and kick furiously

To our amiable but very figurative friend, Lieutenant Governor Reynolds, The Post would commend the following: For the years 1890-1898, both inclusive, put down in the book of chronicles as the years of Fusion and Famine in North Carolina, when the wicked ruled and the people mourned, there was expended for the education of the poor children of the State \$3,413,594.69

Here is an excess of \$847,283.08 of Democratic expenditure for schools over that of the Fusion period. Governor Reynolds, in his weekly efforts to confuse the record, charges that the Democrats have spent more than one million dollars more during the past four years - including the present fiscal year - than his party did during the four years it was in power, and giving credit for the \$280,000 increased appropriations for the asylums and \$100,000 increase for pensions, raises his voice in a regular Wachovian yell - whatever that may be - and asks, "What is the other \$800,000?"

Right, my friend, in the school-houses wherein the little children have been entertained and instructed for from fifteen weeks in 1901 to sixteen weeks and more in 1902, contrasted with the thirteen or fourteen weeks under Fusion rule.

Yes, Governor, the Democrats admit having increased appropriations for the asylums more than a quarter of a million dollars - put this in CAP letters, Governor, if you wish; the Democracy is proud of the act - they admit an increase for the old soldiers of \$100,000, and they are very, very proud of the increase of expenditures for the schools for the poor children of \$847,000, which accounts for every increase of appropriations of expenditure made by the Democratic Legislature.

The Democrats not only point with pride to these increased appropriations and expenditures, but also to the fact that the tax on the property of the people has not been increased one mill. If it is discovered, Governor, that the revenue bill, enacted to meet these appropriations, falls short two or three hundred thousand dollars, and it has yet to show what it will do towards meeting the expenditures, we can still assure our friend, that the deficit will be met honestly and squarely without increasing the tax on the property of the people one mill, or by any discriminating or oppressive taxes upon any income. Put this in your pipe and smoke it, and then tell it to the heathen through the columns of your organ.

Again, Governor, it greatly pleases us to impress upon you the fact that while proud of the increased appropriations and expenditures for such worthy objects, the Democracy is also proud that not one cent thereof has been misplaced or misapplied. When the people's money is spent for a good purpose and honestly, the people have never complained as yet. And they will not begin now.

Now we have told Governor Reynolds where that "more than a million" has gone. Will he read, learn, inwardly digest, and be good? (Winston Republican please copy, on 5th page at top of column.)

You Can't Begin Too Early.

Paine's Celery Compound

Affords Happy and Marvelous Results to Rheumatic Sufferers.

The autumn season, with its changeable weather is a time of dread to all rheumatic sufferers. Chilling winds, cold rains and heavy, impure atmosphere, aggravate every condition of rheumatism, and bring many sufferers desperately near the grave.

Are you a victim of rheumatism in its acute or chronic form? If so, you can't begin too early to get rid of this painful disease, to purify the blood and strengthen the system.

While everybody with proper instincts sympathizes with the individual miners in the coal-fields with regard to real grievances, sympathy with the methods by which strikes are often caused and engineered is quite another matter.

It is as important for press and people to speak out when the labor unions act unreasonably as when the employers of labor do so. To "play to the galleries" in such a case is cowardly.

Nothing can be more dangerous than to condone what is wrong because it is undertaken in the name of something popular. Does the public approve of the sort of tyranny which would be established over both employer and individual employee if the principle about to be tested in the coal mines of Alabama should prevail?

We refer to the action of President Fyrm of the United Mine Workers of the District of Alabama in ordering the miners of the Tennessee Coal, Iron and Railroad Company at the Blue Creek and Blockton mines to strike tomorrow because of the refusal of the company to grant hold assessments made by the miners' union for the anthracite strikers from the wages of those miners who object to paying them.

FOR THE HOUSEWIFE DIAMOND DYES

have been manufactured. They give fast, beautiful colors and are prepared for home use. Simply follow directions. Direction Book and 40 dried samples free.

FUNERAL OF PRESTON BRIDGERS

Wilmington, N. C., Oct. 6.-Special.-The funeral services over the remains of the late Preston Louis Bridgers were conducted at 9 o'clock Sunday morning from St. James' Episcopal Church, in the presence of one of the largest funeral assemblies held in Wilmington in many years.

The mound in Oakdale was a wealth of lovely floral designs and choice flowers laid there by tender hands. The services were conducted by Bishop A. A. Caldwell, D. D., and Rev. F. H. T. Harfield. Among the out-of-town relatives and friends here to attend the funeral were Messrs. Ernest and Edgar Haywood of Raleigh, brothers of Mrs. Bridgers; Miss Lucy Bridgers of New York and Mr. George Bridgers of Georgia, sister and brother of the deceased, and Mr. D. T. McKeithan of Lumber, S. C., the partner of Mr. Bridgers.

A New Basis for a Strike (Norfolk Landmark). While everybody with proper instincts sympathizes with the individual miners in the coal-fields with regard to real grievances, sympathy with the methods by which strikes are often caused and engineered is quite another matter.

It is as important for press and people to speak out when the labor unions act unreasonably as when the employers of labor do so. To "play to the galleries" in such a case is cowardly.

Nothing can be more dangerous than to condone what is wrong because it is undertaken in the name of something popular. Does the public approve of the sort of tyranny which would be established over both employer and individual employee if the principle about to be tested in the coal mines of Alabama should prevail?

We refer to the action of President Fyrm of the United Mine Workers of the District of Alabama in ordering the miners of the Tennessee Coal, Iron and Railroad Company at the Blue Creek and Blockton mines to strike tomorrow because of the refusal of the company to grant hold assessments made by the miners' union for the anthracite strikers from the wages of those miners who object to paying them.

The Hered Bachelor. An old maid finds it hard to be friendly with a widow who has had four husbands. When he talks in his sleep is about the only time a fellow can get his wife's absorbed, undivided attention.

An Example to Follow (Elizabeth City Tar Heel). A striking and admirable scene was enacted at the primary Monday night when the venerable editor of The Economist, Col. R. B. Creecy, entered upon his crutches and for the thirty-fourth time in his useful life cast a ballot for Democracy.

Mr. Beddingfield in Pamlico (Baylor Sentinel). Hon. Eugene C. Beddingfield, the Democratic candidate for Corporation Commissioner, was here on last Saturday, and addressed the citizens upon the political issues. He spoke for about one hour preceding the assembling of the county convention. He made a good speech and it was well received by his hearers.

The reason why the South has always favored lower tariffs is clearly pointed out by the Charleston (S. C.) News and Courier (Dem.), which says: "The operation of the system has been of more consequence to the two sections, of course, when it is considered that the South sells two-thirds of all its cotton, its chief product, in the foreign markets, and buys practically all manufactured goods in the Northern market on the same unequal terms as in the case of cotton goods. It sells to the world and to the North at the world's free-trade prices. It is allowed to buy from the North alone at the North's self-appointed protection prices. It is no matter for wonder that the two sections have prospered in so unequal degree."

CHAS. B. HANFORD'S BRILLIANT SUCCESS

Presentation of "Much Ado About Nothing" - Play at Greensboro Tonight

Seldom do Raleigh theatre-goers have such an opportunity to witness as fine an attraction as was presented at the Academy of Music last night. To be sure Mr. Hanford's appearance has always been looked upon as one of the events of the season, but at no time has he exceeded the magnificent production given last evening. His interpretation of "Hamlet" was a gem of great artistic worth.

Special mention should be made of Miss Curry's performance of Hero, and of Miss Phipson as Margaret, and Miss Merrick as Ursula. The comedy roles of Degliery and Yengos were splendidly portrayed by Messrs. Light and Allen.

The costumes were on a scale of magnificence, while the scenery, being new and appropriate, added greatly toward making the evening one long to be remembered in the theatricals of this city. The company goes to Greensboro today and plays there tonight. The Post most heartily commends them to the people of that bustling city. Give them a packed house and enjoy the theatrical treat of the season.

J. E. Cartland, Merchant Tailor, Greensboro, N. C.

We open our fall season with a very large stock of staple and up-to-date woolsens for suits, overcoats and trousers. A trial order solicited. Satisfaction guaranteed.
