

There Is Little Hope for the Outside Insane

They Will Probably Continue to Exist and Suffer in County Jails and Poorhouses. Meeting of Committee on Insane and What They Did

If appearances are not deceitful the "outside" insane (now confined in county jails and poor-houses) will not see that comes in the state hospitals for the insane through an enlargement of capacity of those institutions at Raleigh and Morganton.

In other words, the present General Assembly will not make any appropriations for additional buildings, as recommended by the directors of the asylums and the superintendents there- of if the probable reports and recom- mendations of the legislative commit- tee on the insane are adopted.

This course, if pursued, will be de- pendent on the ground of lack of funds but it is none the less deplorable on that account—and the hope may be expressed that some way may be found to provide for these poor, suf- fering, miserable, unfortunate wards of the state.

In the Senate chamber yesterday afternoon the Senate and House com- mittees on the insane (of which Sen- ator Glenn and Representative Ste- venson are chairmen) held a joint meeting.

Senator Hicks of Duplin addressed the joint committee and explained the provisions of his bill, introduced this week, changing the manner of ap- pointing directors of the hospitals for the insane and asylums for the blind and the deaf and dumb—which has al- ready been explained to the readers of the Post in the proceedings of the Senate.

Chairman Glenn then made a state- ment of the full joint committee of the result of the investigation made by him and Dr. Stevenson so far in- volving an arrival at a conclusion as to what may best be done—in view of the information given by the superin- tendents and others at former meet- ings of the committee, etc.

He said that he and Dr. Stevenson had practically agreed upon what ac- tion they would recommend the com- mittee to take, but that, of course, if the committee did not endorse their views and elected to pursue a different course, that was their privilege. Speak- ing off-hand, Senator Glenn stated that what the chairman would recommend was the following sums be appropri- ated:

- To the State Hospital at Morganton—For maintenance, \$250,000.
 - State Hospital at Raleigh—For main- tenance, \$300,000.
 - State Hospital at Goldsboro—For maintenance, \$215,000.
 - Dangerous insane, at Penitentiary—For maintenance, \$5,000.
- These amounts are to cover a period of two years, and are based on taking into account only the number of patients which the present capacity of the in- stitutions will accommodate.
- They would also recommend that provisions be made for the purchase of boilers, etc., and the connection of the asylum water mains at Raleigh with the Wake Water Company. (No recommendation as to the other sums listed for by this institution was men- tioned.)
- Also that \$3,500 be given the danger- ous insane department for plumbing, heating apparatus, etc.
- Also \$5,000 for a new building (kitchen) for the negro asylum at Golds- boro.
- Additional appropriations for im- provements at the hospital at Morganton, also, not fully stated or deter- mined upon yet.
- Chairman Glenn then read that it

was desirable that a sub-committee be appointed to take this matter of ap- propriations under considerations and draft a bill, to be submitted to the full committee at its next meeting.

On motion, the two chairmen were authorized to appoint a sub-commit- tee of five (two senators and three representatives) for this purpose. There- upon Chairman Glenn appointed Sen- ators Aaron and Conly, and Chairman Stevenson appointed Representatives Riddick of Franklin, White of Jones and Alexander of Mecklenburg.

These gentlemen, with the two chair- men, are called to meet at 4 o'clock this (Wednesday) afternoon in the room of Dr. Stevenson (No. 54) in the Yarbrough House.

After Messrs. Riddick and Davidson had expressed their views on the sub- ject of appropriations, the joint com- mittee adjourned to meet again to- morrow (Thursday) at 4 o'clock p. m. in the supreme court library.

One was pale and yellow, and the other fresh and rosy. Where the differ- ence? She who is blushing with health uses Dr. King's New Life Pills to maintain it. By gently arousing the lazy organs they compel good di- gestion and head of congestion. Try them. Only 25c at all druggists.

MILL MERGER

Negotiations in New York As Making Progress

New York, Feb. 18.—Further confer- ences have been going on in this city looking to the organization of a south- ern cotton yarn combination under the name of the Southern Textile Company. It was said in Wall street today that if the deal is successfully launched the Southern Textile Company will acquire sixty per cent of its authorized capital will be \$7,000,000 common stock, \$7,000,000 7 per cent cumulative preferred stock and \$6,000,000 six per cent bonds.

The terms agreed upon by a major- ity of the mills, which it is proposed to absorb in the new company, were given as substantially 65 per cent of the agreed valuation to be paid for in seven per cent preferred stock, twenty per cent in common stock, and forty per cent in six per cent bonds. Mills not willing to take bonds and requiring cash are to have the option of receiving forty per cent in cash instead of bonds, but in that event are to receive in com- mon stock only ten per cent instead of twenty per cent. The underwriting syndicate is to receive as a commis- sion for its service the residue of the common stock not disposed of under the above plan.

Those attending the conferences have included H. E. Fries and A. W. Hay- wood, who have been the chief prom- oters of the enterprise, T. W. Pratt, S. B. Tanner, John W. Fries and David Bennett, who is acting as counsel.
