APPOINTED A DEAD MAN TO OFFICE

Legislature Named a Member of Yadkin Board of Education Dead Over Year

At least one dead man was appointed to office by the recent General Assembly—a man indeed who had been dead for over twelve months. His name was H. W. Douglass, appointed as one of three members of the Yadkin county board of education. Letters have been received from parties in Yadkin county inquiring if there is not some mistake in the published lists of county boards as approved by the Legislature, giving as a reason that the name of H. W. Douglass is published as one of the Legislature's appointees. On examination of the bill as adopted shows that the name is correct, and that the dead man was really appointed along with M. L. Woodhouse and L. A. Spear, the other two members of what the law prescribes shall be a board of three. It will now be necessary to appoint another member of the board. This will be done by the state board of education under the revised law.

TELEGRAPH TERSITIES

St. Louis, March 13.—Augustus Krauss, a wealthy farmer near Bellefontaine, St. Louis county, who last night killed his wife and six children with a sledge hammer, died today. After killing his family Krauss cut his throat, but did not injure himself with the hammer as first reported.

 Rome, March 13.—The government has decided to ask parliament for a

vote of money for official representation at the St. Louis exposition.

New York, March 13.—Police Commissioner Greene today relieved Inspector Nicholas Brooks of the command of the detective bureaus. This was done, the commissioner said, owing to Brooks' acknowledgment of failure to get evidence against gambling houses.
 Washington, March 13.—Commissioner of Immigration Williams at New York has made a report on the employment of female inspectors, pointing out many objections, and Commissioner General Sargent has reported to Secretary Shaw that their services are not needed.

R. A. M. S. Versus Orioles

A very interesting and exciting game of base ball was played yesterday afternoon. The opponents were the R. M. A. vs. Orioles. The R. M. A. team wishes to get games with any minor school or academy. The line-up is as follows:
 R. M. A.—Thompson, catcher; Burton, 1st base; Hogan, 2d base; Haynes, shortstop; Upchurch, W., 3d base; Mills, left field; Haywood, center field; Graham, right field; Duckett, pitcher. Orioles—Stokes, catcher; Smith, L., 1st base; Maglenn, 2d base; Clark, J., shortstop; Harris, G., 3d base; Purnell, left field; Jones, H., center field; Sawyer, J., right field; Sawyer, W., pitcher.
 The score:
 R. M. A. 10 1 2 0 0 0 1 0—5 8 1
 Orioles 2 0 0 0 0 0 0 0—2 6 2
 Bases on balls, Duckett 7, Sawyer 7; struck out, by Duckett 7, by Sawyer 5. Double plays, Hogan to Burton (2).

The Raleigh Monument

Can't something be done to revive the "movement"—which seems to have gone into retirement—to raise funds for a suitable monument to Sir Walter Raleigh, our namesake?
 There seems to be absolutely nothing doing at present along that line, and what has been done here does not make a creditable showing. The Charlotte Observer of yesterday says:
 "It is not altogether creditable to our people that only \$400 has resulted from the movement to raise money for a monument to Sir Walter Raleigh. The state owes him a handsome monument, to be erected in the capitol square of the city of his name."
 Washington Star.
 "Don't you think that a billion dollars is too much for any man to have?"
 "Yes," answered Senator Sorghum, "that is too much for any other man to have."

Rheumacide

Continues to make Miraculous Cures

READ THIS LETTER: ALMOST A MIRACLE.

DILLON, S. C., Aug. 18th, 1902.
 Gentlemen—In September, 1899, I took rheumatism in a very bad form. In a month after the disease started I had to give up my work and go to bed. It continued to grow worse until my arms and hands were badly drawn, feet touched my hips. I was as helpless as a baby for nearly twelve months. The muscles of my arms and legs were hard and shriveled up. I suffered death many times over. Was treated by six different physicians in McColl, Dillon and Marion, but none of them could do me any good, until Dr. J. P. Ewing, of Dillon, began to get better. I used five and a half bottles and was completely cured. That was two years ago, and my health has been excellent ever since. I have had no symptoms of rheumatism. I regard "RHEUMACIDE" as by far the best remedy for rheumatism on the market. I cannot say too much for it. I have recommended it to others since and it has cured them.
 Will say further, that I began to walk in about six days after I began to take "RHEUMACIDE," with the aid of crutches; in about three months after I began to take it, I could walk as good as anybody, and went back to work again.
 Very truly,
 JAMES WILKES.

Blockade Declared Off

Washington, March 13.—W. W. Russell, secretary of the United States legation at Caracas, and acting minister, today cabled the state department that the blockade of the Orinoco river, established by the Venezuelan government, has again been declared off. It is believed this action was taken on account of the protest of the British government against the interference with trade. The blockade was established June 23 last, and was raised in October. It was again established by executive proclamation March 3 at the ports of Capana and Guanta, and is again raised.

The Kaiser's Dinner Party

Berlin, March 13.—Among the guests at a dinner given tonight by Chancellor Von Buelow at which the kaiser was present, were professor D. L. Deltzsch, whose lecture on the Bible was criticised by the kaiser; Admiral Hollman, to whom the kaiser's confession of faith was addressed; Court Chaplain Dryander, the highest representative of court orthodoxy; Professor Slaby, inventor of the system of wireless telegraphy bearing his name, and others. It looked as if the party were specially assembled for the purpose of effecting a reconciliation between the kaiser and Professor Deltzsch on questions of science and religion.

Show Called off

Greensboro, N. C., March 13.—Special. Every seat in the Grand Opera House last night, but at the last moment the performance was called off on account of the illness of the leading lady who was suffering from a severe attack of the grip. About 100 people from surrounding towns arrived on the evening trains to witness the performance, and the disappointment of these was especially keen. The young men of the city gave a dance in the club rooms of the Merchants and Manufacturers Association complimentary to the visitors.

"Insult," says Marconi

London, March 13.—Signor Marconi, the wireless telegraph inventor, speaking today of the challenge which he had received to submit his wireless system to a test before four editors on each side of the Atlantic, said he could not accept the conditions imposed. Such conditions, he stated, would be an insult to the governments which had taken up his invention, especially the Italian government. He reaffirmed, however, that wireless messages have passed between America and Europe.

New York's Mortgage Tax

Albany, March 13.—Between \$13,000,000 and \$15,000,000 revenue annually, it is expected, will be raised by the mortgage tax to be imposed on all classes of mortgages except those exempted by the statutes. The measure will be ready for introduction in the Legislature early next week, and it is expected that it will be passed soon after the other tax bill raising the excise fee of 50 per cent. The mortgage tax is to be an annual tax of four mills, in lieu of all other taxes, and not a filing or recording tax.

Knopp a Witness

Hamilton, Ohio, March 13.—Allen Andrews, counsel for Joseph Roth, who is on trial for attacking children, this morning called Alfred Knopp, the alleged wife murderer, as a witness. Knopp was on the stand fifteen minutes, but his testimony developed absolutely nothing. He said that the first he had heard of the attack on the Moxter children was when he read it in the papers. Knopp was taken back to jail.

Fly Wheel Burst

High Point, N. C., March 13.—Special. A phone message from this country this evening says that William Holt, who lived near it, is placed, met a sudden and painful death together with a negro man. Mr. Holt and the negro were engaged in cutting feed on a steam cutter when the fly wheel burst, cutting off both of Mr. Holt's legs and killing the negro instantly. Mr. Holt lingered an hour or more.

Mr. Walker has been in poor health for some time. He went to Texas in the hope that the change of climate would prove beneficial. Dr. Richardson left his patient, considerably improved.

 If, as the president, governor and vice governor appear to hold, the reduction of duties on imports from the Philippines to one-fourth the Dingley law rates will save the islands from industrial and commercial ruin, would not their abolition altogether give a hope of the prosperity which had been promised as the consequence of "benevolent assimilation"?
