Chicago, Jui 13 .- With every union waiter, cook and lesser employe in every important hotel in the city out on strike, nearly all the hostelries are providing for their guests in a more or less satisfactory manner, and applications for work are coming in so fast that hotel and restaurant men declare the strike will be broken within twentyfour hours. Meanwhile help is being imported from near by cities. About two hundred men and women reported in the city today and went into various hotels and restaurants.

Advertisements appeared in all the newspapers in the big cities of the country this morning, calling for hotel help of all kinds, promising good wages and steady employment. The responses were so heavy that John Vogels said

Then it was a question of slavery; now it will be a question of the white man or the negro. This is a white man's clusion, so as to establish the legal country, and the white man is going to govern it. "I don't know what the bill Congressman Hardwick intends introducing for the repeal of these amendments is, but the reorganization." I reiterate that the repeal is inevitable from the fact that the country is finding out the standing of the negro. When the hand is played, if it is found that the Ohio platform is more than a local measure, the matter of repealing these amendments will most certainly be taken up at the coming convention. Speaking of presidential possibilities, Mr. Tillman said he had never seen the country so barren of material for the Democrats to work on. "Most of the irregularities herein set forth were directed by the department or requested or suggested by high departmental officials, and in either case came to the postmaster with all the force of a direction.

The employes who entered the service by transfer and without examitation are in general inferior to those appointed through competition.

The appointments result in a congastion of the service, and when a reduction is to be made the employes appointed for political or personal consideration are cared for, sometimes at the expense of persons appointed upon marit and without influence. In reloving the branches of the service thus crowded with empoyes, transfers are tade to other parts of the service to the injury of eligibles.

The passing of the war emergency and, the amendment of December 31, 101, of the rule referring to transfors and new provisions of the revised mes which became effective on April 15, 1903, will, it is believed, prevent the continuance of these abuses in the Constituent service, and the adoption, at the earliest practicable date, of regutions for the employment of laborers the Washington post office in acrecognize the new ruler of Servia when March 26, 1903, will, there is reason to he shall have been officially installed. hope, put the employment of laborers on the basis of fitness and the needs of the service."
