Contention of Counsel in the Case of John Turner

New York, Oct. 28 .- John Turner, the English anarchist, who was arrested while addressing a meeting and detained at Ellis Island for deportation, was before United States Circuit Judge Lacombe today on a writ of habeas corpus. Hugh O. Pentecost, Mr. Turner's attorney, attacked the constitutionality of the new law. His contention was that the law is contrary to the first amendment of the constitution, in that anarchy in effect was a religion and that the law also abridged man's freedom of speech.
