

WOUND UP IN RED FIRE

Close of a Spirited and Energetic Campaign in New York

New York, Oct. 31.—The municipal campaign for mayor and other city and borough offices practically closed tonight after a most spirited canvass by both parties. Over one hundred meetings in all parts of the city were held tonight and the wind up was in a blaze of red fire, sky rockets and oratory.

Both parties have done a prodigious amount of work and each side expresses publicly the utmost confidence. Whether this expression of feeling is the real one may be doubted. Mayor Low and his lieutenants have done good work in the campaign, have presented the issues of good government and the dangers of a return of Tammany to power in a most convincing manner, but Tammany's campaign has been equally spirited and the betting closed tonight at 10 to 9 in favor of McClellan, Tammany's candidate.

A partizan source of strength to the Republican cause has been the determined stand of Hugh McLaughlin, the Brooklyn Democratic leader, against Tammany. Ever since George B. McClellan was nominated for mayor by Tammany Mr. McLaughlin has refused to aid the ticket in any way. In fact he has bolted it, and almost daily has issued a blast through the press against Tammany leader Murphy for his alleged high-handed methods and what Mr. McLaughlin terms his efforts to capture the city and forest disreputable resorts and gambling houses on the people of Brooklyn, heretofore free from that evil. Tonight McLaughlin issued a final statement assailing Murphy's leadership of Tammany Hall.

The World says the poll of Brooklyn indicates a big drift to Low and a plurality in that borough of 37,577 for him. A poll of typical districts in Manhattan shows no such drift away from Low and shows that he will more than hold his own in Manhattan compared with his vote of two years ago. The entire poll by the World gives the city to Low by over 25,000.

The Herald canvass elects Low by 13,142 plurality.

Broke Into His House UP FOR HAZING

S. Le Quin of Cavendish, Vt., was robbed of his customary health by invasion of Chronic Constipation. When Dr. King's New Life Pills broke into his house, his trouble was arrested and now he's entirely cured. They're guaranteed to cure, 25c at all druggists.

UP FOR HAZING

Three Annapolis Seniors May Be Tried by Court-martial. Washington, Oct. 31.—The navy department has been notified of the arrest of three midshipmen for hazing at the naval academy, and that they will be tried by court-martial if Capt. Brown, superintendent of the academy, finds enough evidence against them to justify that course. Under the anti-hazing law enacted by congress as a result of the West Point hazing agitation, it is mandatory on the superintendent of the military academy or the superintendent of the naval academy to bring to trial any cadet or midshipman believed to be guilty of this offense. The penalty of conviction is dismissal, and no cadet or midshipman so dismissed can again enter West Point or Annapolis.

BEATEN IN BATTLE

Santo Domingo Insurgents Defeated in First Conflict. New York, Oct. 31.—Senor Manuel Galvan, consul general of Santo Domingo in this city, received a cipher dispatch today telling of the first actual battle which has been fought between government troops and rebels since the uprising started a week ago. The engagement took place yesterday morning at Sosua, about fifteen miles from Puerto Plata, and resulted in a victory for the government. General L. Espartero, Dominican secretary of war, commanded the army which routed the rebels. He had under him 900 men, who are now on their way to Puerto Plata, where vice-president Deschamps is held prisoner.

Consul General Galvan cabled today to Consul Vidua at Santiago de Cuba to ship immediately to Santo Domingo City 500,000 cartridges which are there at the order of the government. They will be shipped by special steamer and ought to reach the Dominican capital Monday.

DOLE TO BE JUDGE

He Will Be Succeeded as Governor by George R. Carter. Washington, Oct. 31.—The president today announced the appointment of Sanford B. Dole, the present governor of Hawaii, as United States district judge of that territory, to fill the vacancy caused by the death of Judge Morris M. Estee.

CURRENTS MIXED UP

Electrical Disturbances Tangle the Wires Badly. London, Oct. 31.—A remarkable electrical disturbance, which is attributed to a magnetic phenomenon of terrestrial origin, seriously interrupted telegraphic communication in the United Kingdom Saturday. It was confined entirely to the earth and interfered mainly with the land lines. Communication, however, between America and Europe was fitful and at times was entirely cut off. The cable wires were at times only able to carry four or five times a minute. This condition of affairs has never been equalled since the introduction of the telegraph. There was no visible sign of an electric storm passing at the time.

DOWIE VS. DOWIE

The Judge Insists That He Is the Father of the Prophet. Chicago, Oct. 31.—A dispatch to the Chronicle from Essex, Iowa, says: John Murray Dowie, crushed by the attack made upon him by his son, John Alexander Dowie, says: "The statement that I am not the father of John Alexander Dowie is the greatest myth ever uttered by the mouth of man. It is scandalous that my son should repudiate me after I have done so much for him. He is my son and was born in lawful wedlock. No one can deny it. The records may be had at the great register offices, Princes street, Edinburgh, Scotland. I have always lived a quiet, peaceable, Christian life, and it breaks my heart to have this trouble come toward the end."

GRABBED HIS MONEY

New York Flimflam Men Work a Citizen of Buncombe. New York, Oct. 31.—A man who said he was Wm. Robinson of Buncombe county, N. C., complained to the police of the east 20th street station tonight that he had been robbed of \$175 by two flimflam men. He said he had received letters at his home calling attention to an investment scheme which promised big profits and came here to learn more about it. Two men met him at the foot of West 24th street when he reached town today and took him to the house at 246 West 21st street, where they said they had their office. There, according to Robinson, the men drew revolvers, grabbed his money and got away.

SURPLUS VANISHING

Striking Contrast Shown by the Treasury Statement

Washington, Oct. 31.—Today's treasury statement, which shows conditions at the close of the first four months of the fiscal year, exhibits a striking contrast to the statement issued a year ago. Then there was a surplus in round numbers, of \$18,500,000. Now this surplus is almost eliminated. The statement of October last showed \$13,500,000, together with \$5,000,000 of anticipated interest, making the total surplus about one-third of that for the entire fiscal year, which was \$54,900,000. The surplus shown today is \$355,582. The wiping out of the surplus is explained by decreased receipts and increased expenditures. Customs receipts have declined about \$8,000,000 while there have been increases in expenses of about \$5,000,000 for the navy, the same sum for civil and miscellaneous and a million for the army. Indirect expenditures fell off about a million. This shows roughly why the difference in the amount of the surplus exists. The falling off of customs receipts in September and October was largely in the sugar and steel schedules. There is also a falling off in the importation of articles of luxury. It is predicted that the showing now made will result in congress insisting on greater economy.

SACRIFICE DEMANDED

Russians Wanted Revenge on Wang for Execution of a Bandit

Pekin, Oct. 31.—The occupation of Mukden by Russian troops is, as was expected here, the execution of the Russian threat for the failure of the Chinese official, who sentenced to death a notorious bandit leader of robbers who had been enlisted by the Russians in eastern Shing King. The Wia Wu Pu, or Chinese foreign office, understood that Russia's ultimatum in regard to this matter would not go in regard to effect until November 2, on which date the throne proposed to exile Wang and also to remove the district Taotai of Antung. The Russians now have Wang in their clutches, and he is in danger of execution. Five regiments of troops have arrived at Tashlichiao, the New Chwang junction of the Siberian railway. They are probably on the way to Liao Tung. Up to October 8 the Japanese military authorities decided that the Russians had not fortified Manchuria against foreign invaders, but they admit now that since the occupation of Mukden, which was executed on the pretext that the place was not fortified, there has been an active augmentation of troops and military display throughout Manchuria. China has 20,000 troops at Mukden who have been ordered to avert a rupture of peaceful relations.

SLIPPING IN THE LAKE

Railroad Tracks and Warehouses Undermined by Quicksand. Cleveland, Ohio, Oct. 31.—The front of the city for a distance of 1,000 feet at Davenport street is sliding into the lake at the rate of two inches an hour. The tracks of the Pennsylvania and the Lake Shore railroads are being carried away from their true positions at the same rate, and it is only by the efforts of hundreds of men working constantly day and night that the tracks are held together for the operation of the railroads. As another result of the fast land slide the entire northern half of the great freight depot the Pennsylvania has erected on the north side of Davenport street is ruined. The north wall of the building, a solid piece of masonry six hundred feet long, one foot thick and fifty feet high, has sunk straight down into the ground a distance of six feet, leaving the roof dangling in the air. Quicksand is the cause of the movement of the ground that is costing the railroads so much time and money. The sinking of the earth has been noticeable for the last week or two, but it has only been in the last few days that the slide has been so rapid. In places the drop is ten to twelve feet from the former level.

young attorney of this city, and Mr. John Cole, a saloon keeper, had a street fight some time ago. In the scuffle Mr. Murphy drew a pistol and fired, the ball taking effect in Mr. Murphy's leg, inflicting a slight flesh wound.

AN EDITOR'S PRESENT

It Was an Infernal Machine That Did not Go Off

Boston, Oct. 31.—An infernal machine addressed to Peter Kureghian, the editor of Young Armenia, was intercepted by the landlady of the house where the editor lives, and has been turned over to the police. The package containing the contrivance was left at the house, the police say, by a man who, from his description is judged to be an Armenian. The woman was suspicious of the bundle and summoned a policeman, who, on opening the package, found an appliance consisting of copper wires, a time clock and some carbons, connected with a heap of steel filings and gunpowder. A dial on the clock showed that it was fixed to explode at 9 o'clock, two hours after it was left at the Kureghian house. The police believe the incident is an outcome of the assassination of Sagitel Sagouni in London this week. Kureghian's paper is the organ of the Old Huntehagist wing of the Armenian revolutionary party.

OUTLOOK IN IOWA

Republicans Will Win by Greatly Reduced Majorities. Des Moines, Ia., Oct. 31.—Official statements issued by the executive committees of the Republican and Democratic state committees fail to make a definite forecast of next Tuesday's election. They content themselves by generalizing as to the result, conceding that there will be a heavy falling off in the vote, the Republicans conceding that Governor Cummings' plurality will be reduced and the Democrats conceding that Cummings will be elected by a reduced plurality. Republicans likewise admit the net loss of a number of legislators, but not sufficient to affect their overwhelming majority in both houses.

BRIDAL BOWER AFLOAT

Seven Young Wives Bound for the Philippines. San Francisco, Oct. 21.—Seven brides of officers of the 22d infantry started today with their husbands on the transport Sheridan for Manila. For the brides there came boxes, bouquets, even wagons of flowers. The stateroom of each was banked with blossoms, mainly chrysanthemums. The decks were converted into floral fields. Every woman aboard had a corsage bouquet, a shower bouquet and as many other bouquets as she could carry. The ship was a veritable marriage bower. Besides the brides the Sheridan carried the entire 22d infantry regiment. Col. Henry Weyant commanded. The transport also bore pay for the soldiers and government employees in the islands. In all she had \$2,000,000 in currency besides 1,400,000 pesos in silver.

NORTHERN LIGHTS

Brilliant Display of Aurora Borealis Seen Saturday Morning. New York, Oct. 31.—The aurora borealis gave New York a brilliant display between 2 and 4 this morning, and those who were out at the time in New York saw more northern lights than ever before in their lives. The disturbance did not tie up the telegraph lines entirely, but it made a lot of trouble. Sometimes the instruments began to click of their own accord, then messages came through all right for a time, only to be interrupted by a sputtering as though the receivers and relays were not properly adjusted. It was said by electrical experts that today's was the worst since 1888. It was nearly noon before the telegraph instruments were ticking uninterrupted again. One brokerage house which has three direct wires to Chicago reported that between 9:30 and 10 they could operate their wires only about one minute out of five.

ANOTHER CRANK AT THE WHITE HOUSE

Washington, Oct. 31.—Wm. E. Lentz, 25 years old, is the latest crank to seek President Roosevelt. Today Lentz went to the White House and demanded to see the president, stating that he was a stenographer and wanted to secure the position of secretary to the president and to secure the intervention of the president to stop his prosecution by an organization of stenographers. Incidentally he wished the president to subscribe for a book he was selling. Lentz lives in Washington, but he recently returned from the Pacific coast where he was employed for a time.

HEADEN GETS TWENTY YEARS

A Greensboro Lawyer Fined Twenty Dollars for Totting a Gun. Greensboro, N. C., Oct. 31.—Special Judge Allen this morning imposed a sentence of twenty years on Will Headen, the negro convicted in the superior court yesterday afternoon of murder in the second degree. Headen was convicted of killing another negro, Dolph Causey, at a dance in this city, December, 1900. The case against Alonzo Barringer, colored, charged with killing another negro in High Point several weeks ago, was continued to next term. Mr. T. J. Murphy was fined \$20 for carrying concealed weapon and judgment was suspended upon payment of the costs in the case against him for assault with a deadly weapon. This is the case in which Mr. Murphy, a

FREE Trial Bottles FOLEY'S KIDNEY CURE to all grown people who ask for same at our store within the next few days. Have you Backache, Aching Pain over Hips, Sediment or Deposit in Urine, Irritation of the Bladder, Urine highly colored, or any other indication that your kidneys are deranged.
