

The Tar Heel Negro to Come Into His Own Again

Cheatham Slated for Delegate at Large to the National Convention—No Chance for the Brayton Idea to Amount to Anything

BY THOMAS J. PENCE

Washington, Dec. 10.—Special.—Republicans from everywhere have flocked to Washington in view of the meeting of the national committee tomorrow. Ex-Judge W. S. O'B. Robinson, the member of the committee from North Carolina, was about the only absentee today. His arrival tonight is announced. Ex-Judge Timberlake and former Attorney General Zeb. Vance Walser are here, but they declare that politics had nothing to do with their visit. The only North Carolinian "mixing in" the political game was ex-Congressman Henry G. Cheatham, colored. He and Judson W. Lyon, the only colored member of the committee, were together a good part of the day and were in evidence tonight about the Arlington Hotel, which is the centre of attraction, your Uncle Marcus being the magnet.

One of the interesting stories developed during the day related to ex-Congressman Cheatham, who, it is declared, will be one of the delegates at large from North Carolina to the Republican national convention. The information is given that an understanding was reached some time ago by which Cheatham was promised the much coveted distinction and that the administration had a hand in the matter. The negro cut a mighty sorry figure in the last Republican state convention, being cast out in the cold without ceremony. The vacillating Rough Rider was then a lily white, but when the negroes over the land began their clamor he quickly changed and has since been a staunch supporter of the black and tans. In the next Republican state convention there will be no unsettling of negroes, who are expected to have a voice in party matters. It is interesting in this connection to state that many weeks ago the statement was made by a well known North Carolina Republican that Cheatham

would be one of the delegates at large from North Carolina.

What promises to be the most interesting feature incident to the committee meeting is the banquet which Senator Hanna will tender to the members at the Arlington. Will Judson W. Lyons, the negro member from Georgia, be invited, or will he be asked to remain away, and thus eliminate an embarrassing situation? The subject is one that has been much discussed.

Senator Hanna was the special object of interest to visiting Republicans. All day long he was besieged by callers, many of whom were proclaiming publicly that they were for Roosevelt, first and forever, but were privately saying nice things about Uncle Mark and discussing his running qualifications. The officeholders are not unlike Republican senators and congressmen. Patronage makes them terribly cautious. They are for the man who is going to win. They are praying for Hanna's nomination, but are satisfied that Roosevelt will be the man.

Gen. Brayton, member of the committee from Rhode Island, is here engaged in a quiet campaign in behalf of his pet scheme for the reduction of the representation of southern Representatives in the national convention, though he admits that there is no prospect of the committee taking action. He announced today that he will bring the subject before the committee tomorrow, presenting his reasons why southern Representatives should be denied part of their numerical strength. The most that Gen. Brayton hopes for is a recommendation by the committee in favor of his plan. It is very doubtful whether he could command a majority even on that proposition, which is harmless at most. With both the president and Senator Hanna averse to Gen. Brayton's scheme no sort of action is looked for. In speaking of this subject the general declared tonight that he is conducting his campaign of education now and that by 1908 the movement will have materialized. Postmaster General Payne, vice chairman of the committee, who has always advocated a reduction of the basis of the south's representation, admitted today that no action would be taken.

The politics in the situation, as explained by another member of the committee, is that President Roosevelt's friends do not deem it wise at this time, in view of the peculiar relations between the administration and factions of the Republican party in the south, to give opportunity to any one to charge that the administration was

seeking to diminish the voting power of the southern delegations.

Robert C. Capel and Hugh C. Ridsen of this city were arrested today, charged with a conspiracy to defraud Henry B. Groeber of China Grove, N. C., and other members of the China Grove Furniture and Manufacturing Company. Ridsen is a promoter and Capel, who went under the name of Brown, is an alleged capitalist, both of whom are charged with conspiring in a bold and daring scheme to defraud the China Grove concern. The men are said to be wanted on numerous other charges of attempts to defraud. They will be held pending requisition papers from Governor Aycock and will be taken to North Carolina for trial.

The fact became known to Ridsen that the China Grove concern was in need of money. It had not been operated successfully and he went there for the purpose of effecting a reorganization. He referred to George W. Brown, a capitalist of Chicago, who, he said, could be induced to put up the \$15,000 necessary for the reorganization. For procuring his services Ridsen was to receive a commission of \$1,500. It was decided by the company to send for Brown, and \$5 was advanced for his expenses. Brown came in due time and finally agreed to advance the money on certain conditions. He said he would return to Chicago and the stockholders voted on the proposition. All consented but one man, and he had to be brought out, carry through the scheme at a cost of \$50. This made a total of \$15 now expended on the reorganization scheme.

The organization of the new company was to be effected in this city. Accordingly Mr. Groeber was sent here as the representative of the China Grove concern. He consulted Senator Overman and as soon as Capel, alias Brown, found that the senator was taking a hand in the affair he disappeared from view. As a result the meeting for the organization of the new company could not be held. Senator Overman's suspicions were aroused and he placed the fact in the hands of Captain Boardman, chief of the detective force. For several days the detectives have been at work on the case. This morning they captured Capel, alias Brown, as he was attempting to board a train out of the city. He confessed the swindle, but declared that he was only the tool of Ridsen. As soon as possession of the contract

Serious Charges Against a Judge

Lamar of Florida Proposes to Impeach Judge Swayne for High Crimes and Misdemeanors in Office

Washington, Dec. 10.—When the House met today Mr. Lamar of Florida, rising to a question of privilege, after announcing that he would offer a resolution in which would be embodied a joint resolution of the Florida legislature, said:

"In pursuance of that joint resolution I desire to impeach Charles Swayne, judge of the United States district court for the northern district of Florida, with high crimes and misdemeanors."

The resolution further authorizes the judiciary committee to send for persons and papers, and to do other things essential to the investigation. He moved the adoption of the resolution. Mr. Grosvenor suggested that there should be specific charges; that the House should go slowly and be extremely careful. The House is not a grand jury, he said.

Mr. Lacey of Iowa moved to refer the resolution to the committee on judiciary.

Mr. Payne of New York said the House should proceed with care in so important a matter as this. Mr. Fuller of Illinois said the resolution should not be referred, but should be voted down, considering that it did not contain a single specification. "The humblest citizen, he said, was entitled to be furnished with specific charges before being placed on trial."

and, if you please, pernicious, absenteeism from the district; second, with corrupt official conduct, based on several matters; third, I charge Judge Swayne with maladministration of justice in his court, so much so as to embarrass bankrupts and annihilate the assets of litigants and others appearing within his jurisdiction."

Mr. Williams contended for the adoption of the resolution, citing former cases and arguing that the verbal statement of Mr. Lamar is sufficient. Mr. Mann of Illinois asked Mr. Lamar if it was his idea that the judiciary committee should proceed with an inquiry without specific charges. Mr. Lamar replied that the committee had full power.

Mr. Clayton of Alabama said Mr. Lamar had pursued a course similar to that followed in other cases. "This is merely the inauguration of an indictment," he said. Mr. Lacey of Iowa spoke for his motion to refer. The motion to refer the resolution to the judiciary committee was lost. The House at 1:37 adjourned until tomorrow.

No One Ready to Talk

Washington, Dec. 10.—Today's session of the Senate lasted only 37 minutes. After the completion of routine business the Cuban bill was laid before the Senate; but no one appeared ready to speak on it. Mr. Hale, then, at 12:37 moved an adjournment, and the motion prevailed.

Prior to adjournment a number of bills were introduced.

REDE SMOOT OF UTAH

A Senate Committee Will Take His Case in Hand

Washington, Dec. 10.—Chairman Burrows of the Senate committee on privileges and elections, has called a meeting of the committee for Saturday afternoon to consider whether any action shall be taken on the protests and petitions for the expulsion of Senator Reed Smoot of Utah. There is an immense mass of petitions coming from forty different states. The indications now are that the contest will rival in importance and in earnestness the case

of Brigham H. Roberts before the House of Representatives a few years ago.

While the president is familiar with the details of the case, no effort is being made by either side to draw him into the controversy. That a thorough investigation of the subject will be made by the Senate committee on privileges and elections now appears to be beyond doubt. By those who are pressing the investigation it is said it will be more comprehensive and searching than any similar inquiry ever has been.

GEN. WOOD'S ACCOUNT

Secretary Root Wants Congress to Have Them Printed

Washington, Dec. 10.—The following letter from Secretary Root to Senator O. H. Platt, chairman of the Senate committee on relations with Cuba, in regard to the printing of General Wood's Cuban accounts, was made public today at the war department:

"You will recall that the itemized accounts, showing in detail the receipts and expenditures of the military government of Cuba, from the date of the occupation by Spain, January 1, 1898, to June 30, 1900, have been printed by congress as public documents. Similar accounts, showing in detail the receipts and expenditures down to the American occupation on the 20th day of May, 1902, and showing the receipts and expenditures of the military government of Santiago during the year 1898, were furnished to congress about a year ago, and on the 18th of February, 1903, the Senate passed the following concurrent resolution:

"Resolved, by the Senate (the House of Representatives concurring) that there be printed two thousand copies of the report of the war department on the receipts and expenditures in Cuba during its occupation by the United States; one thousand copies for the use of the House of Representatives, 750 copies for the use of the Senate and 250 copies for the use of the war department."

"This resolution went to the House and was, I understand, favorably reported by the House committee to which it was referred, but failed to come to a vote in the House during the late congress. I beg that you will secure the passage of this resolution by the Senate. In my letters to you last January I urged the printing of these accounts upon the ground that this was the only way to meet the charges which were sure to be made, that the military government of Cuba had not properly accounted for the revenues of

the island. Since that time my anticipation has been justified by false statements of this description to which wide currency has been given."

Dowie Rules in Zion Again

Chicago, Dec. 10.—Judge Kohlsaat, in the United States district court today, refused to change the order made recently by which John Alexander Dowie agreed to pay the costs of the receivership of the Zion industries. The change was sought by the attorney for one of the creditors, the point being made that Dowie's solvency had not been technically proven in court.

COMBAT BOLL WEEVIL

Louisiana Legislature Meets to Oppose the Danger.

New Orleans, Dec. 10.—The legislature met in extra session today to consider the cotton boll weevil danger. The call was issued by the governor at the request of the New Orleans cotton exchange and the Louisiana Cotton Growers Association. It will consider no question except protection against the weevil. It is expected to create a boll weevil commission to order a quarantine against Texas cotton seed and to pass an appropriation that will enable Louisiana to co-operate with United States agricultural department to carry out the plan of defense suggested by the planters.

DIED A CONVICT

Final Scene in a Noted Criminal Drama of Real Life.

Nashville, Tenn., Dec. 10.—Col. H. Clay King died today in the state penitentiary, where, since August 11, 1899, he has been serving a life sentence for the murder of Attorney David H. Poston in Main street, Memphis. The murder grew out of litigation against King by Poston and Mrs. Gladson J. Pillow, wife of the famous court and defender officer. Both King and Poston were widely known, the former being the author of "King's Digest of the Laws of Tennessee."

Up to the final trial and sentencing of King factional feeling ran high, and on the night the convicted man was taken from Memphis to Nashville Poston's friends chartered a special train and endeavored to overtake King, with the avowed purpose of lynching him.

INSURANCE FRAUDS

Efforts Being Made to Deny Them the Use of the Mails

Washington, Dec. 10.—The Senate committee on post offices and post roads gave a hearing today upon a bill introduced by Senator Dryden, at the request of the national insurance commissioners, for the purpose of denying the use of the mails to fraudulent insurance companies.

Reau E. Folk, state treasurer and insurance commissioner of Tennessee, spoke for the measure, while a score of insurance officials, agents and brokers represented the opposition. Senator Dryden said there were many fraudulent insurance companies in the south and west, and the state commissioners are trying to devise a scheme to drive them out of business. The bill submitted, he said, affects substantial and legitimate interests, many of which had written him protesting its passage. Senator Dryden personally repudiated the authorship of the measure, and said that his own company, in fact, would be prevented from doing business if the bill becomes a law.

Schooner Capsized and Five Lives Lost

All Were From Brunswick County—Two Were Heads of Families—The Boat Ventured Out in a Heavy Gale

Wilmington, N. C., Dec. 10.—Special. The coasting schooner Clarence H., trading between Wilmington and Shallotte, Brunswick county, capsized in a gale off this coast last night and the five persons on board were drowned. They were Capt. L. H. Hewett, the master; Morrison Galtson, deck hand; Jim Richardson, cook; Captains William Lewis and James Lewis, passengers. The unfortunate men were white and were residents of Shallotte.

News of the disaster reached here today. Capt. John E. Robinson, in a small sharpie this morning saw the wreck lying bottom up on the beach several miles south of the Cape Fear bar and not far from the life saving station. He went near enough to positively identify the vessel. The body of Capt. William Lewis washed up on the beach near the wreck this afternoon. The other bodies are still missing. The Clarence H. came out of Shallotte yesterday with a full cargo of naval stores and other freight for Wilmington. The weather off the coast has been very stormy during the past twenty-four hours and the wind blew a gale last night. It is thought that the vessel could not ride out the storm and was capsized. Vessels arriving in port today say it was terrible at sea last night. The drowned men were of good families. The crew were young men. The Lewises were prominent in Brunswick county. They leave large families. The coast is being patrolled for several miles and a sharp lookout is being kept for the four bodies. The Clarence H. was built a year ago. She was about 25 tons net register and was owned by W. T. Phillips of Wilmington, Jackson Stanley and W. A. Frink of Shallotte. Mr. Phillips, who is the representative from Brunswick county in the Legislature, recently moved to Wilmington. He and his wife were waiting for the vessel, which had all their furniture, household effects and clothing. About all they have left are the clothes on their backs.

Baptists Enthusiastic in Cause of Foreign Missions

CHICAGO WILL WIN

St. Louis Stands No Chance for Republican National Convention

Washington, Dec. 10.—Tomorrow's meeting of the Republican national committee will be very fully attended and the Arlington Hotel lobbies are lively tonight with the boomers for the various cities anxious for the honor of entertaining next summer's convention and with the usual crowd of small fry politicians and hangers-on. The boom is not of a very lively order as it is a foregone conclusion that Chicago will win. St. Louis has a big delegation here, and tonight they decided to remain in the tight and to contest the honor with Chicago on general principles.

The fact that the Louisiana Purchase Exposition will be held in St. Louis next summer has made the hotels and the railroads of that city lukewarm on the subject of the convention, and the offer of St. Louis to give \$300,000 cash to the national committee if elected as the convention city is not taken seriously. Chicago will therefore win, hands down.

The date for the convention will be set for about the middle of June, and it is believed that by that time Congress will have adjourned and the senators and representatives returned to their homes. At an informal conference the managers it has been decided not to have action taken by the committee on the subject of cutting down representation from the southern states. The committee will be called to order at noon tomorrow by Chairman Hanna and will then call in a body upon President Roosevelt.

SOUTHERN SUFFRAGE

New York Union League Club Calls for Prosecutions

New York, Dec. 10.—At a largely attended meeting tonight over which Cornelius N. Bliss, president of the Union League Club, presided, the club adopted these resolutions by a practically unanimous vote:

"Resolved, that the government be requested to instruct the district attorneys in the various states where an illegal suppression of votes is alleged, to prosecute every case where there has been a violation of the laws of the United States in respect of the suffrage if adequate evidence can be obtained to justify a submission of such cases to the grand jury. "Resolved, that congress be requested and respectfully urged to investigate with thoroughness and impartiality the charges of a suppression of votes contrary to the 14th and 15th amendments to the constitution of the United States; that where the decisions of the courts or the practices of elections disclose the fact that the present statutes are inadequate amendatory acts be passed remedying the defects disclosed. "The resolutions and a report on 'suffrage at the south' were submitted by the committee. The report also was adopted.

Strike Against Reduction

Norfolk, Va., Dec. 10.—Three hundred men, women and children, employed at the Norfolk Silk Mills, struck today, following a forty per cent. reduction in wages, which is said to be retroactive for two weeks. Great excitement prevails at the mills and policemen are on duty.

Thomasville Orphanage Doing a Great Work—Liberal Aid Given to Ministerial Education—All Departments Moving Forward

By WILLIS G. BRIGGS

Charlotte, N. C., Dec. 10.—Special. The second day of the Baptist state convention closed at 11 tonight with a great wave of enthusiasm for foreign missions. After striking addresses on this subject from Rev. J. C. Massee of Raleigh, Rev. R. T. Bryan, just returned from ten years in China, and Dr. R. J. Willingham of Richmond, the convention determined to raise \$20,000 next year for this object, which is \$2,500 more than was contributed this year.

Women's work was first considered, and J. C. Thompson of Durham and W. D. Hubbard of Shelby made the main addresses. State missions will be the subject in the morning and home missions at night.

The trustees of Wake Forest College this evening accepted with regret the resignation of the venerable Dr. Thos. E. Skinner as chairman of the board. Dr. W. C. Tyree was elected to succeed him.

THE DAY'S PROCEEDINGS.

After devotional exercises, conducted by Rev. C. L. Greaves, the report of Secretary Livingston Johnson, of the board of missions, was read to the convention. The report, a summary of which has appeared in the Post, showed \$83,000 contributed to objects of the convention, a gain of \$8,000 over last year. The recommendations made will be acted upon as the several subjects are taken up later. The board is out of debt save for a few little matters that came in after writing the report.

The report by Rev. G. N. Cowan of Kinston from the committee on Thomasville Orphanage showed that the value of this plant had grown from \$25,000 to \$150,000 in ten years. Five hundred fatherless children have been nurtured and sent forth as valued citizens of their state. A dormitory, to accommodate forty girls, donated by John C. Whitty of New Bern as a memorial to his little daughter, Rowena, is about complete, but applications are on file to more than fill it.

Rev. H. W. Battle of Greensboro followed with a strong appeal for the orphans. Supt. J. B. Boone then made the surprising statement that the Simmons bequest had brought the orphanage \$78,800—much more than was expected—and there are other bequests which will in all provide a dozen new buildings. All this money will be used in these permanent improvements; so the surprising statement that the Simmons bequest had brought the orphanage \$78,800—much more than was expected—and there are other bequests which will in all provide a dozen new buildings. All this money will be used in these permanent improvements; so the surprising statement that the Simmons bequest had brought the orphanage \$78,800—much more than was expected—and there are other bequests which will in all provide a dozen new buildings.
