Stock Letter

The stock market was dull today, due in the first place to the weakness that was displayed yesterday afternoon, which made both the traders and the public timid about new commitments Central News from Brussels says it over Sunday, and a great many traders is rumored at Antwerp that the Red were absent on account of the foot Star Line steamship Kroonland with ball game. The undertone was strong 1,445 passengers, has foundered in midand indications are that we will have ocean. The Red Star officials have no not much if any further declines. It information of any such disaster and seems strange that the public should discrredit the report. The Kroonland become uneasy on a decline of one per sailed from Antwerp November 12 for cent. after each enormous advance. New York We think it would be desirable to have prices a little lower, and it would invite new interest in the market and would help what we predict higher prices. The low prices usually favor Southern Railway, Rock Island and Erie. Pacific stocks are destined to sell higher and we are told that Union Pacific will sell at 120 next week. Industrials will continue in favor, and we think the general business conditions favor higher prices for these specialties. The bank statement today was a good one, in fact, much better than anticipated.

CARE FOR INSANE

and Raleigh Directors Here

An important joint meeting of directors of the two white hospitals for the insane in North Carolina will be held here Tuesday. The object to this conference is to prepare a report on the arrangement made last April for caring for the unfortunates who were crying for admission to the hospital here. Other matters may also come up for consideration.

Dr. P. L. Murphy, superintendent of the hospital at Morganton, arrived yesterday and is the guest of Dr. James McKee, superintendent of the state hospital here. The joint meeting will be held tomorrow and those who will attend, besides the superintendents of the two hospitals, are J. J. Davis from Morganton, A. A. Shuford from Hickory and J. P. Sawyer of Asheville, of the Morganton institution, and Doctors R. H. Stancil, L. J. Picot and S. O. Middleton, constituting the executive committee of the hospital

Last Aprril when the situation became alarming an arrangement was made for the transfer of 69 or more applications on file at the hospital here to the hospital at Morganton. This was done and now the joint committee will agree upon a report about this arrangement.

Tuesday the board of the hospital at Raleigh will meet. Superintendent McKee is preparing his report which will later be submitted to the governor and by him to the legislature. That body will be urged to make more adequate provision for the insane in this district.
