

HOW TWO BEAUTIFUL WOMEN ESCAPED PELVIC CATARRH BY AID OF PE-RU-NA.

Female Weakness Is Usually Pelvic Catarrh. Pe-ru-na Cures Catarrh Wherever Located.

Mrs. Mable Bradford, 18 Church street, Burlington, Vt., Secretary Whittier Oratorio Society, writes: "Peruna is certainly a wonderful medicine for the ills of women. I have heard it spoken of in the highest praise by many, and certainly my experience is well worthy of a good word. "I began to have severe pains across my back about a year ago, brought on by a cold, and each subsequent month brought me pain and distress. "Your remedy was prescribed, and the way it acted upon my system was almost too good to be true. I certainly have regained my health and strength, and I no longer suffer periodical pains and extreme lassitude."—Mable Bradford.

Mrs. Lizzie Redding, 3134 B Clifton Place, St. Louis, Mo., writes: "I found after trying many different medicines to restore me to health, that Peruna was the only thing which could be depended upon. I began taking it when I was in a decline, induced by female weakness and overwrought nerves. "I began to feel stronger during the first week I took Peruna and my health improved daily until now I am in perfect health and enjoy life as I never did before."—Lizzie Redding.

In Peruna these women find a prompt and permanent cure. Thousands of testimonials to this effect are received by Dr. Hartman every year. The good that Peruna has accomplished in this class of cases can scarcely be over-estimated. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio. All correspondence held strictly confidential.

Thousands of Women Cured Every Year by Correspondence—This is What Dr. Hartman Proposes to Do For You Without Charge. Women who suffer should read the evidences presented here. We have thousands of letters from grateful friends who tell the same story. Half the ills that are peculiarly woman's own are of a catarrhal character. Female weakness was not understood for many years. Dr. Hartman deserves the credit of having determined its real character. He has made catarrh and catarrhal

diseases, including pelvic catarrh a life long study. Peruna cures catarrh, whether of the pelvic organs or any other organ of the human body. Pe-ru-na, a Natural Beautifier. Peruna produces clean, mucous membranes, the basis of facial symmetry and a perfect complexion. The women have not been slow to discover that a course of Peruna will do more toward restoring youthful beauty than all the devices known to science. Many a girl has regained her faded beauty, many a matron has lengthened the days of her comely appearance by using Peruna.

FORSYTH COUNTY FAIR

October Third Is Day Set for the Opening

Confederate Monument to be Unveiled—Horse Show to be a Leading Feature—Winston to Become a Summer and Winter Resort

Winston-Salem, N. C., Sept. 23.—Winston-Salem people are not easily excited. In fact, they are generally painfully conservative, but when the spirit that moves things gets a good hold on them, then as Fairbrother would say, "something is going to be did." Another notable Winston-Salem characteristic is that they do not make much fuss about what they are doing or what they are going to do. To be candid, our people are too timid on this point. Other progressive cities in the south are all the time publishing to the world what they are doing along progressive lines, but we see comparatively little in the papers these days about this beautiful and rapidly growing city. This correspondent does not belong to the conservative class, and he is sure it will be said that he does not share in that predominant spirit of timidity. So here goes with your kind permission:

We are going to have a fine summer and winter resort here. There seems to be no doubt about this fact, and I am not referring to the large modern hotel that is now being built here, but to the recent purchase of Marienbad Springs by local and northern parties. This property is situated about two miles from the city and is a beautiful place in every respect. Within a few feet of each other there are fourteen mineral springs, some of them containing water that according to analysis is as good as any in the south. A fine hotel will be built on the property and other improvements made. There is more building going on here now than ever before in the history of the place, buildings of a substantial kind, too. A fine office building will soon be erected and the government will at an early date begin work on the public building. It is not necessary to enumerate the many improvements that are going on. We invite the world to come to see for itself, and the first week in October will be a good time to visit us. It is generally a delightful season of the year when the weather is pleasant and when every one is in a good humor. October the 3rd will be a notable day in our history. It is not only the opening day of the fair, but the day set apart for the unveiling of the beautiful Confederate monument that now stands in the court house square. The ceremonies attending the unveiling of the monument will be unique, brilliant and beautiful. There will be speeches by the governor, Col. A. M. Waddell, C. B. Watson and others. There will be a parade in which hundreds of old veterans will march to the music of Dixie and other old wartime airs. Four bands of music will be in the parade and there will be floats with beautiful young ladies, military companies, twenty-five automobiles, one thousand children singing patriotic songs, etc. Fifty mounted marshals will have charge of the parade. The fair this year will be the most successful one that has ever been held here if the weather is good. Col. Webb, the manager, says every foot of available space on the grounds will be taken by attractions. He and his assistants are at work night and day getting things in shape. The horse show on Friday promises to be an interesting feature of the week. The handsome write-up of Winston-Salem will soon be out of press. This will be the handsomest thing of the kind ever sent out by a North Carolina town. The work has been done by Messrs. L. E. Norryce and G. E. Webb at a cost of about \$1,500.

Fire Losses Adjusted
Goldsboro, N. C., Sept. 23.—Special. The losses from last Sunday's fire have all been adjusted by the insurance men, who have been on the scene all the week. So far as can be learned every case was adjusted very satisfactorily to the losers. The wholesale department of the Goldsboro Drug Company, which was the heaviest loser, has been moved to the second story of the building occupied by the L. M. Michaux Grocery Company. Bizzell & Wooten, wholesale and retail grocers, whose place of business was flooded with water, have been given their large stock to dispose of by the insurance companies, and they are selling immense quantities of groceries for a mere song. They have rented a vacant store from L. D. Gullett in John street, and next week will open up a new stock of goods. They will remain in John street until their store can be repaired. The Fonvielle Grocery Company was only damaged by smoke, but its damage has been adjusted and it is doing business at the old stand. The fire was the heaviest that Goldsboro has had for several years.

Igichi's Sense of Responsibility
Tokio, Sept. 23.—Captain Igichi, commander of the battleship Mikasa, which was sunk in Sasebo harbor September 12 by explosions following a fire, was not on board when the fire was discovered, but immediately went on board and did his utmost to save the ship. Since her loss he has been much depressed. He collected the survivors and told them he considered himself personally responsible. After the audience he jumped out of a window, evidently with the intention of committing suicide. He was taken to a ship in Sasebo, where he lies in a serious condition.

Young Man Killed by Accident
Durham, N. C., Sept. 23.—Special. V. C. Matthews, a member of Trinity sophomore class, has been called to his home in Harnett county by a telegram announcing the accidental death of his brother. The young man was killed at his father's cotton gin by a block falling on him. The news was a terrible shock to Mr. Matthews.

High Point Man Paralyzed
High Point, N. C., Sept. 23.—Special. One of High Point's well known citizens, John S. Campbell, is unconscious affected by paralysis, which has paralyzed his entire body. Little hope is entertained for his recovery. Yesterday he was in his usual good health. Mr. Campbell was born and reared here, being the only son of James A. Campbell, for many years a prominent merchant.

Small Fire at High Point
High Point, N. C., Sept. 23.—Special. At half past ten o'clock last night there was a fire at the plant of the Eagle Furniture Company. Shavings in a blower pipe had become ignited and presented an ugly situation for a few seconds, but the flames were subdued before any damage was done. A fire here brings terror to the people, especially those interested in the factories, for if a fire should get started in the factory district there is no telling where it would end.

A Bit of History
Littleton, N. C., Sept. 23.—Special. Littleton Female College had present on the first day—in 1901, 80 boarding pupils; in 1902, 115 boarding pupils; in 1903, 127 boarding pupils; in 1904, 157 boarding pupils; in 1905, 165 boarding pupils. The matriculation of boarding pupils within the first week of the present scholastic year has reached 156.

LAWYER AND HACKMAN

Failure to Agree Led to Some Interesting Developments

Asheville, N. C., Sept. 23.—Special. The entanglement of Colonel Felder, a lawyer of Atlanta visiting in the city, and a local hackman has interested police and municipal circles today. Colonel Felder came here and registered at the Battery Park. He hired a hackman to attend a social function, agreeing to pay the sum of \$1 per hour. The hackman claimed that he kept the turn-out three hours. Felder contended that he kept it only two hours and refused to pay the hire. The hackman had an officer go to the hotel and arrest the Atlanta man. In police court the case against Felder was dismissed. Neither the hackman nor Felder was satisfied. Felder appeared before the board of aldermen and in vigorous language assailed the police officer and the police force. After he had concluded his talk to the aldermen he was served with notice that his trunk had been attached by the hackman for pay alleged to be due. The case was heard before Magistrate Gudgeon about noon. Felder and the hackman both appearing with counsel. The magistrate held that the hackman was due the three dollars claimed, and taxed the three dollars and the costs. This ended the matter, so far as the hackman is concerned, but it was stated this afternoon that the police are not through with Felder; that as soon as the police committee, to whom was referred Felder's complaint, makes report a suit will be brought against the Atlanta attorney by the police officer on the ground of slander and blackmail.

NOT A BRANCH COMPANY

Sale of the Rucker & Witten Factories to the R. J. Reynolds Co
Winston-Salem, N. C., Sept. 23.—Special.—Pannill Rucker, president of the Rucker & Witten Tobacco Company, which has been operating large manufacturing plants at Martinsville and Mt. Airy, makes the following statement which speaks for itself: "The public should know the truth in regard to the sale made by the Rucker & Witten Tobacco Company, and I wish to correct the statement, which appeared in a recent issue of the Henry Bulletin, wherein I was quoted as saying that said sale was made to a branch of the American Tobacco Company and would add that the R. J. Reynolds Tobacco Company of Winston-Salem, N. C., to whom we have bargained to sell, is a distinct concern within itself and not a branch of the American Tobacco Company, or any other business. The president and other officers and directors of the R. J. Reynolds Tobacco Company are made up of their active employees, who

UNIVERSITY NEWS

Athletic Society Officers and Tar Heel Editorial Staff Elected

Chapel Hill, N. C., Sept. 23.—Special. The athletic association of the university met yesterday afternoon and elected officers. The meeting was attended by the whole student body. The following were elected: President, J. V. Howard of Kinston; vice president, J. R. Moore of Columbia, S. C.; secretary and treasurer, T. H. Haywood of Haw River; post graduate member of advisory committee on athletics, J. K. Wilson of Elizabeth City; under graduate member of advisory committee on athletics, P. E. Seagle of Hendersonville; cheer leader, L. T. Moore of Wilmington. The following men were chosen to fill positions on the Tar Heel, a weekly publication issued by the students of the university: Editor-in-chief, V. L. Stephenson of Statesville; associate editors, J. S. Kerr of Clinton, Manlius Orr of Charlotte, W. D. McLain of Maxton, P. S. Spruill of Hickory and E. H. D'Alemberte of Pensacola, Fla. The Edison medal committee of the American Institute of Electrical Engineers, after examination of the courses offered by the department of physics, has given notice that students in this department will be admitted to competition for the Edison medal. This is an expensive award established recently by the institute, one of the strongest scientific societies in America, for the best piece of original work in an American college or engineering school. The medal is in recognition of the magnificent work in electricity of Mr. Thomas A. Edison. Only students in institutions offering courses approved by a committee of expert scientists are allowed to compete for it. Only the leading educational institutions in the country are considered in this competition. It is quite an honor for this institution to be among those thus recognized.

BABY IN A SWAMP

A Negro Woman Abandons Her New Born Child

Elizabeth City, N. C., Sept. 23.—Special.—A new-born babe was found in a swamp in the edge of the city last night by colored laborers, who heard its cries and traced it to a dense clump of bushes surrounded by quagmire. It was wrapped in rags. Mary Godfrey, colored, was suspected. She emphatically denied it. Later the city physician, accompanied by officers, made an investigation. The woman confessed after being threatened with arrest. She told many different stories. She said her husband had deserted her several months ago, and since then she had been unable to make a living. She said she did not want the birth of the child known, and also decided to carry it to the swamp and leave it, in hope that it would be found and cared for by some one. At first she said that she secreted it in the swamp Thursday night and that she carried it back home Friday morning, but her last admission was that she had not seen it since she first placed it in the swamp.

Small Fire at High Point

High Point, N. C., Sept. 23.—Special. At half past ten o'clock last night there was a fire at the plant of the Eagle Furniture Company. Shavings in a blower pipe had become ignited and presented an ugly situation for a few seconds, but the flames were subdued before any damage was done. A fire here brings terror to the people, especially those interested in the factories, for if a fire should get started in the factory district there is no telling where it would end.

A Bit of History
