USED EQUITABLE FUNDS

Syndicates Speculated With the Society's Money

Profits Unaccounted for on the Books—Senator Depew Among Those Who Had a Finger in This Particular Brand of Pie

New York, Sept. 27.—Today's hearing of the Armstrong committee was devoted almost exclusively to syndicate transactions in the Equitable Life Assurance Society. Important disclosures were made. It was shown that \$110,000, representing profits which should have gone to the Equitable in syndicate transactions, was either missing altogether, or unaccounted for on the society's books. More than half of this amount went to an account known as the 'George H. Squire trustee account,' carried in the American Deposit and Loan Company, which was the predecessor of the Equitable Trust Company.

This trustee's account, it was shown, was opened in April, 1900, and continued in force until 1902. In that year \$100,000 was transferred from the account to the notorious \$685,000 loan account in the Mercantile Trust Company, from which it has been charged that campaign contributions and lobbying fees were paid. The \$100,000 represented the cash balance at that time. It was shown today that besides the syndicate profits stocks and other securities of which the Equitable has had no record of ownership on its books were entered as assets on these accounts. Some of these securities appear to have come into the possession of Squire as trustee from a firm of brokers, Williamson & Squire, but the indications were today that they had once been collateral on loans made by the Equitable Society which had proved to be worthless. The Squire in the brokerage firm is a son of the trustee's Equitable account.

Two men are at the Walker Memorial hospital tonight each with a fractured leg, as the result of two accidents on the electric car lines. BARN BURNERS CONVICTED

Two Farrington Boys Sentenced to Long Terms on the Roads

Greensboro, N. C., Sept. 27.—Special. Bailey Farrington, a white boy seventeen years old, and his brother, Prince, aged sixteen, were found guilty of barn burning by a Guilford superior court jury this afternoon and were sentenced by Judge Shaw to five years each on the county roads—the minimum punishment for this crime. The jury was unable to agree after twenty-four hours' deliberation as to Tom Farrington, father of the boys, charged with the same offense, and a juror was withdrawn and a mistrial ordered. His bond was fixed at one thousand dollars for his appearance at the next criminal term of court. Notice of appeal to the supreme court was given by counsel for the two.

The foregoing case was successfully worked out by Deputy Insurance Commissioner W. A. Scott, who began with a very small clue, but wove a very strong net around all three of the Farringtons. Mr. Scott has been highly complimented upon the success with which he handled this matter.

WANTS TO RETIRE

Minister Wu Has Had Enough of Official Life

Washington, Sept. 27.—Wu Ting Fang, who was for six years minister to the United States, is seeking retirement from official life according to news which has been received in Washington. In any other country a man who wished to cease working for the government would merely have to resign, but in China it is a very difficult thing to get away from an official position. There are only two reasons that are regarded as sufficient cause for retirement, and it is doubtful whether Mr. Wu can make good on either one. One is ill health, and Mr. Wu is proceeding along this line. The other condition is a matter of tradition. If the official's parents are seventy years of age and he is the only son, he may retire on the theory that he is needed at home. Mr. Wu can not operate under the condition last named, and judging from advices received here it is doubtful if he can prove that his health is such that he should be permitted to retire. It is likely that he may gain some headway on account of the explosion in the railway station at Pekin last week.

Goldboro Negro Shot

Goldboro, N. C., Sept. 27.—Special. People who were in Walnut street at 7 o'clock this morning saw an exciting scene when one negro pulled a pistol from his pocket and fired at his antagonist. The ball took effect in the shoulder of the negro, but will not possibly do more harm than make an ugly wound. The negro who did the shooting, known as Slew Macked, darted through an alley and made his escape as soon as he fired his gun. He did not wait to find out the effects of his attack. The negro who was shot was taken to the office of Dr. Thomas L. Ginn, where his wound was attended. He was afterwards sent home. The two negroes had been quarreling over some woman and had been at enmity for some time. When they met this morning the quarrel was renewed and the shooting took place.

Among the first to receive an invitation to be present at the initial plunge of the man-of-war were the governor of Mississippi and his cabinet. It was not known until today whether he had received the invitation or not. A letter from him arrived today and in a few words explained that it would be impossible for him to attend the launching.

E., this evening, she drew a revolver and shot him, the ball lodging in his spinal column. He was taken to a hospital, where the physicians say he cannot live. Mrs. Mayes was arrested and held to await the result of his injuries.

Beaufort Harbor Improvement

New Bern, N. C., Sept. 27.—Special. The steam suction dredge Cape Fear, which has been working in the lower Cape Fear river at Wilmington, is now at work on Beaufort harbor. The project under which the dredge is at work is to deepen the bar to twenty feet at low water, which, with the rise and fall of the tide, will give twenty-four feet depth, conforming the depth on the bar to the channel depth up to the railroad terminus at Morehead City. The bar is about one-half a mile in width. The amount of the present appropriation is \$45,000 for this work. It is an important work.

ALL UNION MEN OUT Charlotte Papers Making a Fight for the Open Shop

Charlotte, N. C., Sept. 27.—Special. The printers employed by the Evening News remained away this morning, and today all the union printers of Charlotte are out. The Observer appeared this morning and the Chronicle and News were issued this afternoon of time. Several new men were engaged this morning, and these are displacing their time amongst the three papers. Other linotype operators are expected tomorrow and hand compositors are also being engaged.

The matter used in the three local dailies is partly hand-set now. The News this afternoon issued a signed defiance to the union and joined the other dailies in the fight to make Charlotte an open town. The local papers are advertising for women typewriters to operate linotype machines, the News inaugurating this innovation. The result of the experiment is awaited with considerable interest. There has been no show of violence and no excitement thus far, though the striking printers are employing their usual tactics of having a committee wait on all traffic and endeavor to turn printers away from the town. In several instances they have been successful.

When an alarm of fire is sounded the standpipe pressure is cut off at once and direct pressure from the pumps is put on. This is done by electricity. The fire alarm system is being extended and put in perfect order. New boxes have been put in. The Odd Fellows' orphan home, the Eastern hospital and the grammar school will have separate call numbers.

Heminway a Stand-patter Washington, Sept. 27.—Senator Joseph Heminway of Indiana, chairman of the house committee on appropriations, is a stand-patter. 'To undertake a revision of the tariff in the midst of such uncertainty as exists at this time,' he said today, 'would be like offering medicine to a healthy man. In my judgment there will be no tariff legislation.'
