to participate in the naval review, still more remarkable was the spectacle presented today of uniformed forces, foreign nations armed and accoutred as for battle in our streets. Not since the British evacuated New York has such an occurrence been witnessed here, and in no country but ours is such an occurrence pos sible. With muskets at their shoulders and small arms by their sides, the foreigners invaded our soil today and marched down America's greatest street-Broadway. Grim, fierce looking Russians, sturdy Britons, ruddy-faced Germans, trim, quick-moving French men and dark-visaged Italians marched in file after file with their own officers commanding and with their own bands playing airs that they love best. But they were our captives. Our marines and blue jackets preceded them, and our National Guardsmen followed in their rear. Arts of peace had superseded the strategy of war and the armed forces of nine nations marched in our streets as though our country and theirs were one and they and we were brothers. The parade started from the corner of Fifth Avenue and Forty-second at 10:57. Gov. Flower and Gen. Horace Porter rode at the head of the line. They were followed by By Southern Associated Press details from the United States army and Engineer Corps. Then came the admirals in carriages.
