MR. SIMMONS' INSTRUCTIONS.

He Warns Deputies About Harassing People By Petry Accusations.

There has been a great deal of complaint among moonshiners about persecution, raher than prosecution.

Collector Simmons has sent instructions to all deputies in this district. Among other things he says:

'It is proper, and this office desires, that every ariminal violation of the internal revenue laws shall be duly prosecuted before the courts. But while this is true, it is likely desirable that the people shall not be harrassed and annoyed by patty and trivial accountions, and prose of criminal warrants for infractions except upon the personal knowledge of the affant, 'or upon the sworn complaint by a collector, deputy collector of internal revenue or revenue agent, setting forth the facts upon in- North Carolina. formation and belief.' Will Appear in Ten Days Something

The fact that Captain-S. A. Ashe had written a book on the financial question was not known until a few days ago. However, it has attracted the liveliest interest not only in the elty but over the State. There is no man in the State who has given more study and thought to this subject than

Capt. Ashe's book on the free coin age of silver is in the form of financial chats between several friends, and is called "A Day With the Proensor and His Rriends. .. One of the characters is a college professor and there is a New York drummer who is monometallist; another is a Kanssa farmer who naturally is a Populist, while the chief talker is the "Major," a free coinage Democrat. The table of contents indicates that the ground on which the monometallists stand is not solid: that monometallism nas proved a failure and that the free coinage of silver can be successfully maintainen by the United States, independently of European nations, if the Administration be in earnest.

Edwards & Broughton are now run ning the book through their presses. and it will be out in ten days. There are about twenty illustrations. The price of the book will be twenty-five

A Success From the Start.

The initial number of the consolidated afternoon paper, the Press-Visitor, is full of bright and interesting matter and makes a favorable impression. It has a field that promises the best results. Raleigh needs just such a paper as our afternoon contemporary, and will give the PRESS-VISITOR a handsome support The News and Observer extends its cordial good wishes to the new management, and predicts for it a large

neasure of success and usefulness. Mr. Greek O. Andrews, the editor and manager of the Press-Visitor, is well-known in the State as a journalist of capacity and experience, and the readers of this paper, with which he was long connected, will be gratified to see him at the head of what promises to be a strong paper. His associates, Messrs. Thos. J. Pence and J. N. McRary, are among Raleigh's most popular citizens. With gentlemen so well qualifavor, the new paper is an assured success from the start.

Resolved. That this school has lost one of its best loved and most useful and cheerful members, who, by her Christian graces and gentle disposition, endeared all our hearts to her.

2. That while God has honored us by calling one of our members, we bow in submission, gathering sweetest comfort from Him who said: "What I do thou knowest not now, but thou shalt know hereafter."

3. That we tender the bereaved family of our deceased pupil and class-mate our sincere sympathy, feeling that through His mysterious way we may be brought to consecrate ourselves anew to the Lord and to realize those beautiful words:

"Not now, but in the coming years, It may be in the better land.

We'll read the meaning of our tears, And there, sometime, we'll understand.

We'll catch the broken threads again, And finish what we here began; Heaven will the myeteries explain,

And then, oh! then, we'll under stand." 4. That a copy of these resolutions

be sent to the family of the deceased and be spread upon the minutes of the Sunday school. JOSEPHINE E. REESE.

WEEK FORCIBLE.

Rain Slightly Injurious to Cotton.

CROP TWO WEEKS LATE.

Not a Boll of Cotton Open so far Too Much Rain for Tobacco Market Active.

The reports of correspondents of the Weekly Weather Crop Bulletin, issued by the North Carolina State Weather Service, for the week ending Saturday, August 24th, 1895, are very favorable. The week was slightly shove normal in temperature, except Wednesday and Thursday, which were cool with abundant rains. The rain-fall, though generally beneficial was slightly injurious to cotton and tobaceo, causing some shedding in the former and rough growth in the latter. Cotton is still two weeks late, and not a boll open yet. Tobacco markets very active. Farmers preparing land for wheat. Late Irish potatoes are not coming up very well.

Rastern District .- R ports from this district are generally favorable. There was perhaps a little more rain than actually needed, but the rain of Wednesday and Thursde, were generally beneficial. The temperature was about normal except on the 21st and 22d, which were cool. The amount of sunshine was perhaps a little below the average. The week closed fair and very favorable for all kinds of work. Fodder-pulling going on, and bulk of it will be saved next week. Late corn fine. Cotton has too much weed and generally not much fruit. Some reports of shedding were received this week. Turnip-planting going on. Tobacco cures continue fine and markets everywhere in full blast. Second crop of Irish potatoes not coming up very well. Yield of scuppernong grapes

Central District-The past week was very favorable, excepting perhaps too much rain on Wednesday and Thursday, but the fair, warm weather The committee on ceremonial day following will prevent any damage; for the Cotton States and International all crops are doing well. Some correspondents say cotton is now fruiting well, but it is still about two ing exercises on September 18th, and weeks late, and there is some shedpen yet, while the first bale was marked about the middle of August last year. Fodder-pulling will soon begin in the central and northern parts of the district. There has been a little too much rain for tobacco to ripen well; rough growth caused. reputation, whose name is not yet Hitherto cures have been good. good.

Western District-A very favorable week with plenty of rain, putting land into excellent condition for fall plowing. Rainfall a little injurious to cotton and tobacco, but corn, clover, pea vines and other crops were much benefited. Farmers are doing much plowing for wheat and still planting turnips; early planted are growing nicely. Cotton is reported at a number of places to have improved considerably, though still about two weeks late; it needs dry weather to mature and open bolls. Tobacco is ripening slowly, with prospects for a good crop; curing will be under way next week. Fodder-pulling is not yet general. The only thing feared for sorn is freshets on the streams.

Persons Residing Near the Car Com-

pany's Pond Say it is Not Healthy. There has been a good deal of complaint among the residents in the visinity of the North Carolina Car shops North of the city, about the pond which is maintained by the ompany. The residents claim that the poud is drained and refilled every day and that the exposure of the bottom and banks of the pond to the rays of the sun produce chills and fever. They claim that there has been a good deal of sickness in the community and attribute it to the

conditions above mentioned. A petition was gotten up with twenty-five signatures and presented to Dr. P. E. Hines, Superintendent of the Board of Health for the county. requesting him to have the pond drawn off and the defects remedied. Dr. Hines visited the pond and he says that the pond was well filled. He also states that he saw nothing to indicate that the pound was unhealthy. A little further, towards Peace Institute, Dr. Hines says he noticed that garbage and refuse matter had been dumped near residences which was calculated to prove unhealthy to the community. He notified the Mayor, who promised to see to it that the garbage was removed further from the city bounds. The residents in the neighborhood of the pond are still unsatisfied.
