WEDNESDAY, SEPTEMBER 4, 1895

There will be thirty-two contested  
seats in the next congress. Illinois  
will furnish two. It is certain that  
the republican claimants will get  
every seat, whether they were de-  
feated at the polls or elected.

Chicago play goes have had the  
novel experience of seeing a drama  
in the interest of the freeboing of  
silver at the ratio of 16 to 1. "The  
Silver Lining" is the name of the  
play and it is a dramatization of  
"Coin's Financial School."

Two recent events are destined to  
cause trouble. The Chicago Beer  
Trust has advanced the price of beer  
a dollar a barrel, and the sheriff of  
Dallas has permission to shoot such  
aportas as assemble to witness the  
Corbett Fitzsimmons fight.

The telegram of Mr. Henry Hester,  
Secretary of the New Orleans  
Cotton Exchange, furnishes food for  
reflection and it should be a very  
gratifying reflection to North Carolina.  
The consumption by the mills  
of this State of nearly half as much  
cotton as was credited to the whole  
South by the census of 1890 is some-  
thing almost incredible to contem-  
plate. This in our opinion goes to  
prove that cotton industries are  
rapidly becoming the bed-rock in-  
dustry of North Carolina and the in-  
spiration and impetus of the mate-  
rial upbuilding of the State. Of all  
the cotton milling industries in  
North Carolina, we have never  
heard of one which was conducted  
upon a proper scale which did not  
pay a good dividend.

## THE AGRICULTURAL BULLETIN AND THE STATE'S INDUSTRIES.

It is the custom of "The Bulletin,"  
the official publication of the North  
Carolina Department of Agriculture,  
to publish in the issue of each Au-  
gust a resume of the industrial pro-  
gress of the State. This month's  
Bulletin contains a complete review  
which makes a splendid show for  
the manufacturing interests of the  
State, and to this has been added,  
from time to time, other matters of  
progress, such as a list of the breed-  
ers of pure blooded horses, cattle,  
sheep and swine, miscellaneous  
factories and industries, and other  
matters of general or special interest  
to our whole people. In this connec-  
tion the Bulletin pertinently re-  
marks:

There is an old saying: "The gods  
help those who help themselves." So  
it is almost everything. It is exceed-  
ingly gratifying to note that our people  
recognize the fact that we must  
"diversify our agriculture" by the  
building of all sorts of industries—  
mills and factories; that our home  
people must take the lead in such  
matters, and when it is demonstrat-  
ed that such enterprises are remuner-  
ative, there will be no lack for  
those who will come in and help us.  
It may, slowly but surely, we  
pick up the waste pieces; our  
is our best "immigra-

tion of mills and fac-  
in this Bulletin is words  
examination; it shows pro-  
and a broadening of the  
the accumulation of  
the farmers near  
all that is  
in this sense

is of great interest and value to the  
farmer. The building of mills points  
to conditions of industrial prosperity  
which promises to posterity an  
heritage worthy of our age and peo-  
ple.

## Dixon's Ideas on Protestantism and His Yachting Cap.

The Rev. Thomas Dixon, jr., in the  
Academy of Music in New York Sun-  
day, preached the first of a series of  
sermons on "The Failure of Protes-  
tantism in New York." Mr. Dixon  
showed further evidence of his disre-  
gard of the conventionalities of the  
clergy by coming to the theatre at-  
tired in a double-breasted coat and  
a blue yachting cap. Every seat in  
the Academy was filled when he arose  
to speak.

"Protestantism is a failure in New  
York" he said. "I have said that be-  
fore and I have been roundly abused  
for saying it by many good but un-  
thinking people. But this is a day of  
light—of electric light, of electric  
search light—and anything that can-  
not stand the supreme test of the  
electric search light of the science  
and reason of the day must go down.  
I am here to state facts. It is as bad  
for a preacher to juggle with facts as  
for a politician to do so."

that parties not authorized to do so  
have been presenting bills for back  
subscriptions and our subscribers are  
hereby warned. We wish also to em-  
phasize that carriers are not author-  
ized to make collections and that no  
payments whatever should be made  
to them. Mr. Vernon McRary has en-  
tire charge of the collections and will  
wait on all subscribers in due time.

## A proposition is now on foot to connect the B. & O. railroad with the C. F. & V. V. railroad, by extending the branch of the Valley road from Lexington to Roanoke.

By reaching Roanoke and having  
close affiliations with the Roanoke  
& Southern and the Cape Fear and  
Yadkin Valley lines, the Baltimore  
& Ohio would secure an entrance to  
a wide area of territory, with the  
possibility of close relations with  
the Norfolk & Western at Roanoke.

## The Discovery Saved His Life.

Mr. G. Caillotte, druggist, Beaver-  
ville, Ill., says: "To Dr. King's New  
Discovery I owe my life. Was taken  
with a gripe and tried all the physi-  
cians for miles about, but to no avail  
and was given up and told I could not  
live. Having Dr. King's New Discovery  
in my store I sent for a bottle and be-  
gan its use and from the first dose  
began to get better, and after using  
three bottles was up and about again.  
It is worth its weight in gold. We  
can't keep stores or houses without it."

## Irving W. Laimore, physical director of Y. M. C. A., Des Moines, Iowa, says he can conscientiously recom-

mend Chamberlain's Pain Balm to  
athletes, gymnasts, bicyclists, foot ball  
players and the profession in general  
for bruises, sprains and dislocations;  
also for soreness and stiffness of the  
muscles. When applied before the  
parts become swollen it will effect a  
cure in one half the time usually re-  
quired. For sale by J. Hal Bobbitt,  
Druggist.

Last June Dick Orford brought  
his twelve-months-old child, suffering  
from infantile diarrhoea, to me. It  
had been weaned at four months old  
and had always been sickly. I gave it  
the usual treatment in such cases but  
without benefit. The child kept grow-  
ing thinner until it weighed but little  
more than when born, or perhaps ten  
pounds. I then started the father to  
giving Chamberlain's Colic, Cholera  
and Diarrhoea Remedy. Before one  
bottle of the 25 cent size had been used  
a marked improvement was seen and  
its continued use cured the child. Its  
weakness and puny constitution dis-  
appeared and its father and myself be-  
lieve the child's life was saved by this  
remedy. J. T. Marlow, M. D., Tama-  
ra, Ill. For sale by J. Hal Bobbitt,  
Druggist.

"Gameland" is responsible for the  
statement that the flight of the wild  
goose is 100 miles per hour.

John G. Manger, editor of the Sun-  
beam, Seligman, Mo., who named  
Grover Cleveland for the Presidency  
in November, 1888, while was mayor of  
Buffalo, N. Y., is enthusiastic in his  
praise of Chamberlain's Colic, Cholera  
and Diarrhoea Remedy. He says: "I  
have used it for the past five years and  
consider it the best preparation of the  
kind in the market. It is as staple as  
sugar and coffee in this section. It is  
an article of merit and should be used  
in every household. For sale by J.  
Hal Bobbitt, Druggist."
