TELEPHONE,

WEDNESDAY, SEPTEMBER 11, 1895

Wm observe that Capt. Ashe's book, "The Professor and his Friends," is already being much read. One of the State's most eminent men yesterday remarked to the edifor of the PRESS-VISITOR that the people of North Carolina would listen to anything Capt Ashe had to say. This is true, and his book is aiready in great demand.

THE Chamber of Commerce held a meeting full of interest last night It was a grateful sight to see the substantial business men of Raleigh the men who have been the pillars of this town, the Old Guard, so to speak, all at their posts to keep their shoulders to the wheel in the pushing forward of Raleigh's best material interests. The discussions showed that they had those interests at heart. The new committees were fully represented and the new President Capt. J. E Pogue was in his place, and showed by the vigorous and business like manner in which he presided and dispatched business that he will do his part in keeping up the tone and work of the organi zation. The chamber has done much good work and it will do much

THE SILVER CONVENTION.

That there is urgent need for united action on the part of the friends of silver in the country is be youd all dispute

We have witnessed, in the last few months a canvass of Kentucky by Secretary Carlisle, and of Georgia by Secretary Smith in the interest of gold.

So far as the doctrine of "offensive partisanship," which was so much inveighed against by Mr. Cleveland is concerned, it has been set aside; and the administration with all its immense power has been used, and is every day and every hour, being used to overthrow what has been denominated the money of the constitution and of the people.

The power of the gold men, with all their wealth and influence, is added to that of the administration. Surely then it is absoltutely necessary for the silver men to unite.

The call for the Convention has been signed by large numbers of the best and most influential Democrats in North Carolina-all over the

Men who have held the highest offices in the State as Democrats, and Democratic office holders, who at present hold offices from the highest to the lowest degrees, have signed the "call," and are urgent that some action shall be taken to prevent the further control of the United States Treasury by a syndicate of bankers, whose chief is a foreigner.

From reliable reports nine teaths of the Democrats in the State are in favor of free silver and gold at a 16 to 1 ratio. Many of the best of them

have spoken for the Convention. Let the silver men all over North Carolina turn out en masse, and make it such a success as to be of all to Democrats in other Statesthat we may all work together, and teach the gold monometallists both at home and sbroad that while they may operate the United States under lie present management; they

Dimbersoy of our free fountry. The Paris-Vint's is not in field to fight political battles, alit it in steadfast in that Democratic faith of which Thomas Jefferson was the exponet as opposed to the plut oraric policy of Alexander Hamilton, his antagonist, which partook of the nature and essence of oligarchy and centralization. The same policy is now the main spring of action in the camp of gold monometallism. It is a pernicious policy and one which should be resisted and fought out upon Democratic lines;

This paper has not absorbed any of the virus of Populism, but it has its conviction upon the floancial subject which is now uppermost in the minds of the people of North The Leading Afternoon Carolina and every state in the Union, and this conviction finds nothing sympathetic or homogeneous in the theory of the single gold standardites. If men who have for years been among the best and truest Democrace in this State favor the overthrow of gold monometal lism and the restoration of silver, because they believe it to be right, no man can call upon them to get off of that platform because, farsooth, a Populist also elects to stand upon it. We believe in such figancial reform as will carry out the highest

> and trust ideal of Democratic princi ple, and such as will dam the stream which is ebbing away the values of products and property and flooding an ocean of wealth into the dry docks of the plotecrats of gold

monometallism.

Two Lives Saved. Mrs. Phoebe Thomas, of Junction City ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it sayed her life. Mr. Thos. Ergers. 139 Florida St. ban Francisco, suffered frour a dreadful cold, approaching consumption, tried without result everything eise; they bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thank fut. It is such results, of which these are samples, that prive the wonderful efficacy of this medicine in cough and colds. Free trial bottle at John Y. Mackae's drugstore Regular size F0c and \$1.

Last June Dick Ur wford brought his twelve-months-old child, suffering from infantile diarrhoes, to me. It h d been weaned at four months oid and had always been sickly. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic, Cholera and Diarrheas Permadu P and Diarrhoea Remedy. Before one bottle of the 25 cent size had been used a marked improvement was seen and its continued use cured the child. Its weakness and puny constitution disappeared and its father and myself believe the child's life was saved by this remedy, J. T. Marlow, M. D., Tama ros, Ill. For sale by J. Hal Bobbitt Druggist.

John G. Mauger, editor of the Sun-Grover Cleveland for the Presidency Grover Cleveland to the was mayor of n November, 1882, while was mayor of Buffa'o, N. Y., is enthusiastic in his praise of Chamberlain's Colic, Cholera Placeboa Remedy. He says: "I and Diarrhea Remedy. He says: "In have used it for the past five years and consider it the best preparation of the kind in the market. It is as staple as sugar and coffee in this section. It is an article of merit and should be used in every household. For sale by J. Hal Bobbitt, Druggist.
