A Beautiful Piece of Work.

Mr. S T. Smith's on Market Place is a varitable palace and will compare favorably with the saloons in larger cities. The walls of Mr. Smith's saloon have been handsomely covered with a new design of paper, which is the first of the kind introduced in the South It is used exclusively for papering saloons, and is known as the new saluon wall paper. It is brilliant and dazzling in its effect and the design is superb. The paper is of vermillion and gold, and handsome frieze and esiling to match. The design is beautiful in the color of the street and it was so cold the tip of my nose was nearly frozen. I dropped in at Dughi's and get a fry and stew and I felt as good as I ever do. beautiful in the extreme, and with the SWINDELL'Sglimmer of the electric lights the effect SWINDELL'Sis very pleasing to the eye hTe paper blends in perfect harmony with the furniture which is finished in Tomorrow cherry. There is only one saloon in New York fitted with this paper, but ere long it will be universally adopted. The saloon is indeed a gem. Mr. Smith is to be congratulated on his taste in fitting up his saloon. It will compare favorably with the best.

The work was done by Mr F. A Watson, who is an artist in such work, and a handsomer job was never put up in the state. Mr. Watson keeps up with the times and in this partieular he is in the lead. The work is that of an artist and will prove a splendid advertisement to Mr. Watson

Mr. Watson is a leader in the State in this class of work, and nobody knows how to produce more attractive and finished effects than he does. It reflects credit upon his skill and taste and his superior facilities.

Haw River is lower than it has eve on and there is danger of facto some people say lower than it

BUSINESS Suits

Are in order with the advent of au-tumn activity. No clothing suits busi-ness at all unless it fits neatly and per-fectly. No garment fits properly unless it's made to order. That's the first axiom of dress, and it doesn't need proving. It's as plain as the mul-tiplication table that our made-to-order suits are unequalled in town.
