An Episcopal Convention at Min-
neapolis the other day sent brotherly
greetings to a Methodist Confer-
ence in session a few blocks away.

Some weeks ago the Birmingham
Age Herald changed management
and has since been conducted as a
strong gold bug paper. Now it is
announced that Colonel Frieman H.
Aldrich, owner of the Birmingham
Age-Herald, Democratic and sound
money has sold the property to the
owners of the Daily State, Democra-
tic and free silver, for \$26,000, and
commencing today Birmingham will
have but one morning paper. The
publication of the State will be dis-
continued.

The new Constitution of Utah
makes no restriction upon the sur-
franchise either for men or women other
than the usual requirements as to
age and residence, except in a single
instance. Cities, towns and villages
cannot borrow money in excess of
the taxes laid to repay in the current
year except by the authority of a
majority of citizens who have paid a
property tax. Only taxpayers who
bear the burdens of government are
allowed to vote on a proposition to
increase taxation by borrowing.

The North Carolina Car Co. has
built for the Seaboard Air Line a
very handsome office, to be placed
in the Atlanta Exposition forestry
building in the center of the Seaboard
Air Line's exhibit. It is as unique in
design as it is beautiful in finish. It
is 18x14 feet, with a passage running
through it, and contains four com-
partments, two small end two large.
The wood of which it is constructed
is North Carolina pine, finished
smooth with white shellac and filled.
All four of the commercial pines of
the state are used in its construc-
tion. The office (of which John T.
Patrick will have charge) will be
used for the entertainment of friends
and for the distribution of literature
setting forth the advantages of
North Carolina and the South to
immigrants.

We note that some of our South-
ern exchanges are saying that for
some years to come the lovers of
Florida oranges will feast on them
only in imagination. Only in the
extreme southern part of the Florida
peninsula will there be any oranges
this year—probably one or two hun-
dred thousand boxes. A Florida
correspondent of the country Gentle-
man says that we "hoped for several
months after the freeze of last winter
that sprouts from the trunks of the
trees would make good new trees,
but the trunks gradually died, and
most of the sprouts withered, and
we know that only those sprouts
from beneath the surface or from the
collar of the tree can be depended
on to develop good new trees"

Sixty years ago nearly all the trees
in Florida were killed, and the old
sneakers say that many of them did
not sprout until the next year. It is
expected that the trees that are do-
ing best will begin to bear fruit in
three years, provided the winters
should be mild and growth uninter-
rupted. Under favorable conditions
they may be expected to yield paying
crops in five or six years.

No estimate can be made of the
loss to the State, but it will be large.
A considerable percentage of the

groves will be abandoned. Many of
the growers are bankrupt, for their
sole dependence was upon their
orange crops. Grove property has
greatly depreciated in value

ECONOMY

May be necessary in many ways
when dollars are scarce and wants
many, but it is not desirable to practice
it in the purchase of food, which is life.
Below a certain standard food imper-
fectly nourishes; up to that standard it
costs a reasonable price. We never
want more than a reasonable price for
our Groceries.

RAPID SALES

Give our customers the benefit of
close margins. We never keep any-
thing that is not the best of its kind,
and we only want a fair profit on what
we invest in it.

livered when ordered.
