ALVIN JOSLIN TOMORROW.

Moreska and Her Company Appear Friday and Saturday.

Charles L. Davis will be at the Academy of Music Thursday, Oct. 10th in his time tried success, "Alvin Joslin." There is something about the quaint old comedy, with its constant changing of scene, its innumerable exciting incidents and its unique conception, that seems to maintain a hold on theatre goers. Whatever may be said or written of Charles L. Davis, it must be admitted that his conception of "Uncle Alvin" stands out prominently as an original bit of acting. The scenic effects are said to be particularly realistic and elaborate, showing Brooklyn Bridge by moonlight, the Five Points, the Bowery, and other

polis. The Signorina Moreska opera does not claim a more finished or artistic inter-

Her work in "Carmen," "Faust," "Lo hergrin," and the "Hugenots," has been a revelation to Southern audiences and a series of great triumphs for her. Bew and far between, indeed, are the opportunities to hear and see this great art so worthily illustrated outside the large cities, and it is safe to say this appearance will mark an spech in the history of one's music interests Society is manifesting great in the occasion, and Morecka is sure to be met by great and cultured audiences on Friday and Saturday

AN INHUMAN CRIME.

Outraged and Then Murdered Nine-Year-Old Girl-Tracked

by a Detective. News has been received at the Governor's office of the arrest at Winston of L. J. Poe, a fugitive from Virginia, on the charge of outraging and murdering an unknown sine-year-old girl. The crime was one full of horrible detail. The alleged murderer was committed by Justice J. C. Bissett, and the warrant was sworn out by a detective named Carter.

The story of the crime is as follows: Some six months ago Poe was tramping through Virginia; with him was a girl, possibly nine years old. Her name has never been found out. Poe claimed that she was a daughter. The couple staid for some time near a lit. tle place in Washington county. Finally the man left, but the girl did not go with him. Some days after her remains were found in a barn by residents of the county. The body had been horribly maltreated, and finger marks were on the throat. It was evident that she had been murdered, and that the murderer had first ontraged its victim. These are the facts, as I heard in rumors today. Full particulars are meagre.

It is strange that under the circumstances a detective should have been engaged, but such is the case. For months he has been on the trail of the murderer. As the message to the Governor shows, he nabbed him yesterday.

Governor Carr will notify the Governor of Virginia of Poe's arrest, and he will soon be sent there.
