TWENTY POINTS UP.

Another Day of Phenomenal Advance in Cotton.

New York, October 15.—Liverpool opened 3-64 higher and firm, eased 1-8-64 off, but became steadier again and advanced 3 points, closing finally at an advance of 5 to 5-64.

New York started with an advance of 5 points. Heavy buying orders being on the market futures climbed up steadily, closing 20 points above last night.

The undertone is firm: at certain times the market was excited to expect. A large clique is buying heavily expecting that Neill will issue a very bullish circular.

The large sales in Liverpool show that European spinners are in the market again. Still higher prices are expected.

Estimated receipts today are 55,000 bales, against 64,000 last year. Tomorrow we shall have to compare with 58,000 bales, on Thursday with 47,000, and on Friday with 77,000 last year.

Options closed as follows: October, 9 30 to 9 21; November, 9 21 to 9 22; December, 9 29 to 9 30; January, 9 27 to 9 28; February, 9 43 to 9 43; March, 9 47 to 9 48; April, 9 53 to 9 54; May, 9 58 to 9 60; June, 9 68 to 9 65.

The sales reached the gigantic figure of 451,000 bales.

Official Averages. How National Players Batted and Stole Bases.

President Young has completed the batting averages of players of the National League who participated in 15 or more games of the baseball season, which closed September 30th, 1895.

Some interesting facts and figures are developed as the result of President Young's compilation, the principal feature being the high batting average attained by 70 players, the lowest of whom attained .301.

So far as base hits were concerned, Burkett, of Cleveland, leads the League with a percentage of .423, his nearest competitor being Delahanty, of Philadelphia, with .399.

Keeler, of Baltimore, and Sam Thompson, of Philadelphia, are tied for third honors at .394.

Philadelphia stands higher in the batting averages than any other club in the League. Hamilton, of that club, is number four, with .393; Clements is fifth place, with .389, while Turner is six with Lange, of Chicago, for sixth place, at .388.

Lucky number seven falls to Jennings, of Baltimore, with .386. Stenzel, of Pittsburg, is number eight, at .384, and Holmes, of Louisville, dropped into ninth place, with .382.

A trio of Baltimoreans are pretty close together, McGraw being tenth in batting, with .374; Kelley, eleventh, with .370; and Brodie, twelfth, with .365.

In stolen bases Hamilton, of Philadelphia, is first, with 96; Lange, of Chicago, is second, with 70.

PURNELL WITHOUT PAY

Judge Coble Renders a Decision Against Him.

APPEALS ARE TAKEN.

Decides in Favor of the Warrant Given the Commercial Bank by Old Hoola.

A decision was rendered by Judge Coble late yesterday afternoon in the case agreed, which came before him at chambers in this city on September 26th.

The proceedings were brought by the Commercial and Farmers Bank and Mr. Thos. R. Purnell to force Treasurer Worth to honor warrants issued by Auditor Furman. The amount of the warrant held by the Commercial and Farmers Bank was \$99 40.

The bank cashed the warrant for Hoola Boom Campbell when he was almost straddled in this city.

Mr. Purnell's warrant calls for \$40. It was part payment for his services as "steerer" and attorney to the Arrington Tribunal.

Judge Coble decided that the Commercial and Farmers Bank is entitled to the writ of mandamus to enforce the judgment by the defendant as Treasurer of the State of the amount of the said warrant mentioned in the case agreed, to wit: \$99 40.

The costs were put on the defendant. The Judge went against attorney Purnell. His decision was that the plaintiff, Thos. R. Purnell, is not entitled to the writ of mandamus to enforce the payment by the defendant as public Treasurer of the amount of the warrant, being \$40.

The costs were given to Mr. Purnell to pay. Both Mr. Purnell and Treasurer Worth have appealed from the decision of Judge Coble.

It is asserted that it is a doubtful question as to whether the great Tribunal was entitled to the services of an attorney. This is why Mr. Purnell finds an adverse decision on his hands.

The Coming of Prof. Ford. Prof. Ford, who is said to be the equal of Pills Miller as an entertainer, is booked for Metropolitan Hall on next Friday night, the 18th inst.

Of his appearance in Baltimore, the "Baltimore Methodist" says: "The recital given at the Y. M. C. A. Hall last Friday evening by Prof. S. T. Ford, of New York, under the auspices of the Young Woman's Missionary Circle of Guilford Avenue Church, was a decided success, and all who failed to hear this inimitable impersonator missed a rare treat.

The professor, by his easy and graceful manner, added to a perfect control of his cultivated voice, captivated his audience at the very beginning, and every selection elicited rounds of applause. It was all sorts of a good entertainment—gay, grave, pathetic, dialect and strong dramatic power, and one great charm of the evening was that the pleasing variety of the programme was equalled by its refinement and perfect good taste.

Arrangements are being made to secure Prof. Ford again in the future." Admission, 25 cents; reserved seats, 35 cents; children under 12 years, 15 cents; box sheet at Bobbitt's drug store. The Blind Orchestra will furnish music for the occasion.

BILLY VAN TONIGHT.

One of the Greatest Minstrel Attractions Now Before the Public.

Billy Van and his company of half a hundred minstrel bright lights arrived here today.

This being Mr. Van's first season with his own company he has spared no pains or expense, and has surrounded himself with the very best talent to be had, making this without doubt, the finest and most expensive minstrel organization in existence today.

Many new features are promised, two distinct first parts, the entire transformation requiring but six seconds, and altogether we anticipate the grandest minstrel performance ever given in our city.

With the show comes the celebrated Stewart Sisters who have been connected with some of the leading attractions in the country.

Billy Van has gathered an all-star aggregation of talents around him. The show is unsurpassed, not even by the great Al Fields. The minstrel has appeared in some of the leading cities of the South, and wherever it has appeared the press has lauded it very high.

The show comes as well recommended as any that ever came to Raleigh.

THE PROGRESS OF PHARMACY. Mr. Augustus Bradley Discusses the Subject in the American Druggist.

We have at hand a copy of the American Druggist and Pharmaceutical Record, in which we find an interesting article by Mr. Augustus Bradley, President of the North Carolina Pharmaceutical Association, written by him at the request of the editor of that publication.

Mr. Bradley is recognized as a high authority in his profession and takes a prominent stand in all matters of interest to the pharmacists. We quote the following extracts from Mr. Bradley's able article:

I fall to note that the profession of pharmacy of today has so changed that the present interest of pharmacists are more of a commercial than a scientific nature.

On the contrary, it strikes men that the desire for higher pharmaceutical education is increasing. This to me seems clearly demonstrated by the many new colleges of pharmacy springing up as they are all over the country, there being at the same time a steady increase of attendance at the old schools.

This desire for higher pharmaceutical education is further shown, it seems to me, by the swelling of the course and standard by the different boards of pharmacy. For example, the percentage of correct answers now required at their examinations is from ten to fifteen per cent greater than was the case five years ago.

I believe the pharmacists of this State (North Carolina) will bear me out when I say there is no willingness on our part to carry "scientific" ready made preparations of our own manufacture, if "preparations" must be the order of the day.

I come to an important matter now in this letter, and that is the rigid restriction of the practice of pharmacy to persons duly qualified, and such qualifications, should, in my opinion, in each case be tested by a thorough and exhaustive examination. This profession, like others, depends for its integrity upon nothing short of such methods.

The indignation of our pharmacists was aroused by the appointment of an unregistered physician to take charge of the pharmacy department at the North Carolina Insane Asylum. But for that matter, nearly all the present drug laws of North Carolina are more or less faulty.

At the next session of the legislature a complete revision to comply with the modern requirements of pharmacy, will be urged by those interested in safeguarding a profession virtually near to the great public.

CHINESE SUPPER NOW

Eighteen of Murderers Will Be Executed.

BULLER'S ULTIMATUM

Was the Cause of the Come-Down of Chinese Officials From a Very High Horse.

Information, received from Kuehing indicates that the dead lock between the Chinese authorities and the commission investigating the massacre of missionaries, has been ended.

The British consul interviewed the Viceroy of Fokien with the result that eighteen more convicted prisoners will be executed.

The remainder of the native offenders are in custody and will be tried by the present commission, which has the power to pass the death sentence. This satisfactory result was brought about by the ultimatum delivered to the Viceroy of Nankin by British Admiral Buller.

OSCAR WINTERS CRAZY. His Mind Gone as a Result of an Old Skull Fracture.

This morning Justice Roberts held an inquisition of lunacy over Oscar Winters, a well known colored pressman of this city.

Winters is violently insane and is restrained with ropes. He will be sent to Goldsboro hospital tomorrow.

The cause of this man's loss of reason makes a common but an interesting story. When the negro exodus came several years ago, Winters was one of those who left his home.

He had trouble and an accident, the latter cracking his skull. The operation of trepanning was performed and the man apparently got well.

Later he has exhibited signs of coming mania; now he is a violent lunatic.

Roger 'O'Kelley, who was carried to the hospital yesterday, after having been discharged as cured, came very near not being received, as the lunacy papers were not made out.

This morning though, Mr. Roberts held the inquisition and the papers were forwarded.

BURLINGTON FAIR FEATURES. Some of the Attractions Which will be Seen This Week.

Our Burlington correspondent today writes: Mr. Charley Ward will have on exhibition at the fair his celebrated Arabian stallion Zeto.

This wonderful horse has never before come before an American public, and Mr. Ward only gives this illustration of his intelligence and activity to keep up the reputation that Gentry has won for the good old North State.

Two ladders forty feet long and fastened together at the top, will be mounted by Zeto, who goes head foremost to the top, then head downward on the other to the ground.

Zeto will perform other tricks equally wonderful, surpassing any trick horse in the world.

Prof. Jack Shelburn, the Wizard, will give on the grounds one of his incomprehensible exhibitions. Among other exploits, he calls from the crowd some well-known citizen, stands him out in public, surrounded by thousands, places over him a thin cotton sheet, then on his head a hat.

With some mysterious words the hat begins to tremble and set nearer and nearer to the ground until sheet and hat lie on the ground together.

Some one is asked to take it up, and when lifted so man is to be found, and no one can see or know where he went or how he disappeared.

Mr. Gardwell, a pupil of Prof. Shelburn, next takes a table on which is placed ten dozen eggs, all of which he keeps going in the air at the same time, never breaking an egg.

Dr. Blackhall is here receiving the visitors and making all feel at home. The fair will close on Friday. Then everything and everybody packs for the great State Fair at Raleigh.

A Personal Encounter on Fayetteville Street. Judge T. B. Womaack and a Dr. Moore of Monroe met in front of the Yarbrough House today about 2:30 o'clock and Dr. Moore, it seems, used some insulting language, whereupon Judge Womaack took a walking cane out of the hand of Dr. Moore and used it pretty freely, breaking the stick over him.

Judge Womaack's law partner had appeared in a case in Chatham Court against Dr. Moore, which was the origin of the trouble.

EDUCATIONAL CONGRESS.

Will Be Held in Atlanta on Oct. 28th and 29th—North Carolinians Going.

On Friday and Saturday, the 25th and 26th of September, an educational Congress will be held in Atlanta, under the auspices of the National Educational Association.

Some of the most prominent educators of the country will be present and deliver addresses. Among these will be U. S. Commissioner W. F. Hare, of Washington; President, W. R. Harper, Chicago University; Col. F. R. Parker, of the famous Crooke Normal College, of Chicago.

North Carolina's representative in this brilliant company will be Prof. E. A. Alderman, of the State University. He has already achieved a national reputation as a brilliant man in his profession and likewise as a most highly polished orator.

He may be depended upon to uphold the reputation of the Old North State. The prominent men named before him will indeed do well if the rising young Tar Heel does not carry off the laurels of the "Congress."

Superintendent Logan D. Howell, of Raleigh is manager of the National Association for North Carolina. He said this morning: "I desire North Carolina to be well represented by its teachers, and I want all schools in the State to suspend, and go to Atlanta, with their pupils if possible. The A. & M. College, you know, has already made this move and will give a week's holiday. You may say that the City schools will suspend, for several days, at least, and nearly all the teachers will attend."

Mr. A. J. Cooke With the Penn Mutual. Mr. A. J. Cooke, who was formerly the able representative of the Seaboard Air Line as Freight and Passenger Agent at Raleigh, has accepted the special agency of the Penn Mutual Life Insurance Company, through their General Agent, Mr. H. B. Roney, of this city.

Mr. Cooke is well and favorably known throughout North Carolina and the Penn Mutual is to be congratulated on securing so valuable a business man and one who is so well known to the public as to insure a large addition to the already extensive business of this most excellent and reliable company.

Mr. Cook, during his long connection with the Seaboard in this city, won many friends whose insurance business will be directed to the Penn Mutual Company through his influence. We bespeak for him a successful business.

Hold Your Cotton. The Progressive Farmer says this week editorially: We believe it is now safe to advise the farmers in the cotton belt to hold their cotton as long as possible.

If you must sell, then put it on the market slowly—a little at a time. Such advice has not always been safe, and we have hesitated, but think it is now settled that the crop will not be over 6,000,000 bales, probably less, and the demand will be for eight or nine million bales.

The most liberal government and export reports show that the condition is not above 65, and frosts and storms may soon bring it below that estimate.

Can't be Kept Chained. There is in jail at Fayetteville a prisoner who has a history. He has been by turns a professional gambler, a liquor spy in South Carolina and a cow-boy, and is now to go on trial for the capital crime of burglary.

His name is Carlton Watson. He tried to break jail and was chained to the floor. He had a complete system of calls, by which he communicated with other prisoners. His heavy chains were found filed apart. Still heavier ones were then riveted on him. Thursday these were found hanging on a hook, while Watson walked around in his cell.

Messrs. Thomas & Maxwell's business has increased to such proportions that they have found it necessary to increase their force and put on nine additional salesmen to-day. If the fall trade in every line picks up like this there will not be enough business men to do the business they will have.

Some people have actually asked the question why a new registration is required in order to vote upon the road question. Registration is required only in Raleigh township, the country people not having to register. Raleigh township was redistricted by the legislature and this fact necessitated a new registration.

Superintendent Allen and Mr. McMaekin were discussing the registration for the coming election yesterday. Both of them remarked that it was the lightest registration ever known for an election in the county. Mr. Allen says the country people are taking very little interest in the election.
