SUED FOR THE FORFEIT

Rogers Charged With Issuing Illegal License

TO 16-YEAR-OLD PERRY.

Suit Brought by Amis and Devereux Attorneys for the Father—An Interesting Story.

Suit has been entered by T. P. Devereux and N. M. Amis, attorneys for S. B. Perry, against Register of Deeds Rogers for the recovery of the statutory penalty of \$300 for the unlawful issuance of a marriage license to a party under marriageable age.

This suit is the outcome of the facts contained in a brief item some days ago, which told of the father's search for the magistrate who married his sixteen-year-old son, Frank Perry, to Fannie Jones.

The law, as set forth, in Sections 1814-16 of the Code is in substance as follows: It is provided that, where a register of deeds issues a license for the marriage of any two persons, where either of said persons is under eighteen years of age and residing with his or her father, he shall forfeit a penalty of \$300, to the father; provided that he (the father) did not give his written consent, which must be delivered to the said register.

On September 30th a man named Davis applied at the office of Register of Deeds Rogers for a marriage license for Frank Perry and Fannie Jones.

Now it is told a reporter that this statement did not justify the issuance of the license, but it is not wholly on this ground that the suit is brought.

It is learned that there will be a direct conflict of testimony on the trial, between Rogers and Perry. The latter, however, stands ready to prove the above facts.

It has also leaked out that there will be other little side-shows of testimony turned on that will make the case one full of interest.

MANY ATTRACTIONS.

The State Fair of 1895 is less than a week off, and by that time it will be in the height of success.

There seems to be no end to the number of exhibits. Every mail brings a new list.

Secretary Nichols left this morning for Burlington to attend the fair there.

Work at the fair grounds goes on merrily, and Monday night will find everything in position ready for the big crowds during the week.

All the buildings, including the old exposition building will be "shook a block."

The swine breeding interest in the state as in the country at large, though not considered the leading live stock interest, may well be considered at near the head in net profits on capital invested when well managed and freed from epidemics.

To this end, as well as to strengthen and foster this source of profitable investment in our midst, it has been suggested to call a meeting of the swine breeders of this state, to meet during the State Fair and organize a general association within which all can set for the general good without regard to the kind of swine in which any individual may be interested.

The meeting is called for Thursday, October 24th, at 12 o'clock, at the secretary's office of the fair grounds.

The Dairymen's Association will in Common's Hall Wednesday, October 23rd.

"A STAB AT THE ALLIANCE"

The Caucasian Goes for the Purchaser of the Cary Building.

The Caucasian says editorially this week that Mr. Duke's purchase of the property contemplated by the Alliance was a stab at the Alliance.

The Alliance will be nothing daunted. It is able and determined to establish its manufacturing enterprises.

There is other property in Cary and there are other towns than Cary.

Dairymen and Swine Breeders' Association.

Mr. F. E. Emery, of the Agricultural Department, has addressed a call to the swine breeders of the state to hold a meeting during the State Fair and organize an association.

The swine breeding interest in the state as in the country at large, though not considered the leading live stock interest, may well be considered at near the head in net profits on capital invested when well managed and freed from epidemics.

WAKE'S TAX REPORT IN

This and Last Year's Abstract Compared.

VALUATION DECREASED.

There is Improvement, Though, in School and Special Improvement Taxes.

Wake county's tax abstracts were sent in to the Auditor's office this morning. A reporter has prepared a comparative summary, showing the decrease from and increase over the tax report of 1894.

Total tax valuation, 1894, \$10,130,432; 1895, 9,928,386.

Tax on Real Estate, 1894, \$29,868 57; 1895, 22,038 28.

Thus it will be seen that the last year's tax valuation as compared with that of this year was \$902,046 larger.

There is a slight increase in income valuations over last year. The figures:

Incomes, 1894, \$114,305; taxes, \$571.52; 1895, 116,356; " 581 78.

The increase will be seen to amount to \$2,051, which brings in only \$10 30 larger tax.

On polls there is an increase of 214. In 1894 there were 6,009; 1895, 6,223.

The most gratifying increase in the comparative showing of this year's and last year's tax lists is the increase of the amount devoted to school purposes and the increased amount of general county and special taxes, for the improvement of roads, etc.

The school tax for 1894, \$26,422 82; 1895, 28,628 05.

This increase of \$2,205.23 for school purposes is well in keeping with advanced ideas of progress.
