They doubted the legality of the touchdown made. The two elevens returned to their respective colleges, but the controvers was continued by mail and the result

was that the Georgians proffered a challenge, which the North Carolintans accepted.

THE "MAJOR'S" TITLE.

Mr. Guthrie Talks-No Convert Wanted After May 1st

Maj. Guthrie, talking with a recorter, said that he carned all his nors after the war was over. 'The title of 'Major' was given me by the Democrata some years ago," remarked the gentleman It is a peculiar fact that a nick name, when once given a man, almost always sticks to him. Republicans and Populists only know their prospective Governor as "Major Guthrie," though the rank was given

Mr. Guthrie was asked whethe Judge Schenck had gone over with the Populiste, be having been seen in questionable company. The Major replied that he did not know, but he said that the gates would stand wide open for all penitents until May 1st and then they would be closed. "They marked the gentleman with a gubernatorial emile.

"Speaking of silver-everybody does it"-he said, "the white metal had a staunch advocate in Judge Schenek. He said he could not state where the Judge was politically, but he has made the statement that he would never support a gold bug."

Speaking of the late silver convention, Major Guthrie said that at the meeting of the committees in the Mayor's office the night before the convention, ex-Senator Jarvis made all those who spoke. "I remarked to will try to prove that Peitzel sui-Senator Butler that I expected to see him leading the forces in the convention. But to my surprise he flashed on the day of the battle. There was penalty attached to the absence of Those Demograts from the convention."

A VICTORY FOR HOLMES

Evidence of Pletzel Children Rules Out-Surprise was Created when the Prosecution Rested Case.

Telegraph to the Press-Visitor. PHILADELPHIA, Nov. 1.—The refusal of the judge to admit evidence concerning the death of Pietzel children, was the greatest victory that Holmes has scored during the trial. The prisoner looked better this morning at the opening of court. Lawyer Rotan announced that the defence was going to show through cross examintion of Mrs. Peizel that Holmes was her victim and that she led him about the country. This caused a passage of arms with the district attorney. Witnesses were introduced to identify the manuscript book entitled "Holmes' Own Story." At 12:20 the district attorney an-

nounced that the prosecution in the Holmes case had closed The announcement caused a great surprise. There was no new evidence today. The general belief is that if Holmes goes on the stand he will do more to hang himself than all the evidence of the most pronounced silver speech of the commonwealth. The defense

Words to Little Hugh. It will be remembered from an ac count in the Press-Visitor several days ago, that Prof. D'Ana, of Lexington, Ky., Mr. C. P. Thompson and husband of Washington, D. The little fellow looked like he was lost. The mother went to him, kissed him and clasped him in her arms with a mothers love. A bright smile beamed on the boys face. He was with his mother. While he loves his father. Hugh's love for his mother is greater. That is what he said when questioned in Louisburg.

Mrs. Thompson gave her child a fare well embrace and her last words to him were, "Be a good boy and love your paps." Mrs Thompson kindly asked her diverged husband for the custody of the child, but he declined. He is attached to him, so it is said.

Mrs. Thompson will appeal from Judge Timberlake's decision The case will be carried to the Supreme Court.

A RARE COMPLIMENT.

Mrs. R. R. Cotten Delivered an Ad dress Before Woman's Congress. At the meeting of the Woman's Congress committee in Atlanta, Mrs. R. R. Cotten, mother of Mrs. Julian B. Timberlake, of this city, made an address which is spoken of in the balanced in a few days so as he could highest terms by the Atlanta Consti-

tution. The Constitution says: "Mrs. R. R. Cotten, of North Carolina, a beautiful and clever woman, whose interest in public matters and the movements that tend to elevate women, has not deprived her of her love of domesticity, or her confidence introduced. Although an advanced woman and reading an address on the relation of home government, she is the ideal advanced thinker, the clever woman, who believes in the influence that women can have in affairs of state, and still wear all the 'ruffles' and

"Mrs. Cotten has a beautifully modulated voice and her gentle, per snasive utterances could win as many voters as she might ask in any assembly and save her the trouble of facing the clamoring multitude that suraround the modern ballot box, and arouse the political enthusiasm of the butcher, the baker and candlestick

"In her address Mrs. Cotten first emphasized the importance of woman's influence in every undertaking; secondly, her influence in the ideal home, and the influence of the home in the country's prosperity. She then referred at length to the reciprocal duty of the government toward women, and concluded with many practical suggestions, in which she earnestly and forcibly appealed for the establishment of a national school of industrial arts and sciences for women, where they can be systematically trained for the science of domesticity and peace, just as boys are trained for war at West Point and Annapolis.

"Mrs. Cotten used forcible arguments to show the necessity of such a school, and the demands of justice and the needs of the future were foreibly portrayed. The fact that American women have become necessary to the evolution of the immediate future renders their developments and elevation of importance to the government.

"At the conclusion of Mrs. Cotten" address a number of informal talks were made, among them a very interesting one by Belva Lockwood.
