FRIDAY, NOVEMBER 1, 1905.

The registration in New York and Brooklyn is some 28,000 lighter this year than it was last, and it is said that Tammany feels blue over it.

The Chicago hotel keepers are trying to raise \$100,000 to bid for the Republican national convention. San Francisco says that it will give \$250,000.

BALTIMORE has registered 114,254 votes this fall, 13,000 more than last year. The heavy registration is said to be caused by the Baltimore Sun's fight on Senator Gorman.

A GIRL of Grand Rapids, Mich., has patented a new tire for bicycles. It is the pneumatic tire, with a groove around it, in which is a leather tire. It is said to be much more durable than the ordinary rubber tire.

Mr. J. W. RAMSEY, a prominent citizen and Democrat of Baltimore, who is here, says that the fight waxed very warm in the Monumental City and throughout Maryland as Tuesday's election approaches. The Herald is the only friend of the Democratic nominees, among the newspapers, the Sun, the News and of course the American all fighting the ticket. The color line is being drawn and the contest will be a determined one to the end. The Democrats are making a good old-fashioned fight. Mr. Ramsey is of the opinion that it will be close, but predicts that the Democrats will win.

The following statistics of education for several Southern States are given by the New Orleans Picayune: The average expenditure per pupil enrolled, as estimated by amounts paid for teachers' salaries is: For Alabama, \$1 81; Arkansas, \$2 02; Florida, \$4 65; Georgia, \$2 61; Louisiana, \$4 69; Mississippi, \$2 99; North Carolina, \$1 71; South Carolina, \$1 91; Tennessee, \$2 90; Texas, \$5 81; Virginia, 65 cents. Expenditure per child averaged by entire cost of system is thus estimated: Arkansas, \$2 65; Florida, \$5 70; Georgia, \$2 78; Louisiana, \$6 91; Mississippi, \$3 54; North Carolina, \$3 18; South Carolina, \$2 94; Tennessee, \$3 54; Texas, \$6, and Virginia, 76 cents. Average length of school sessions in months: Arkansas, 2 1/2; Florida, 3 1/4; Louisiana, white 5.69, colored 4.66; Mississippi, 3 1/3; North Carolina, 3 1/4; South Carolina, 4.3; Tennessee, 2.88; Texas, 5, and Virginia 6, Louisiana ranking second among the States affording data.

The Philadelphia Times comments that the New York campaign is one of peculiar interest. In addition to all the political names heretofore familiar to the public, they have the good goods, the bad bads along with three democratic tickets, the regular republican ticket, the prohibition, socialist, people's good government, independent citizens', organization and independent county organization ticket. Under the law of New York each particular ticket printed on that blanket ballot must have a design at its head, and the New York ballot will present a regular pictorial sheet. At the head of the republican ticket is an eagle; of the democratic ticket a star; of the States democratic ticket a rooster; of the reform democratic ticket

a ship in full sail; of the prohibition ticket a water fountain; of the socialist ticket a hammer and arm; of the people's ticket a clover leaf; of the good government ticket an anchor; of the independent organization the rising sun, and of the independent county organization a cannon. Who is likely to be elected in this general confusion of tickets in either city or State is admittedly a matter of doubt. It seems likely, however, that the republicans may carry the State, while the city contest is fairly in doubt, with chances apparently in favor of Tammany.

LOTS OF HEAT IN OUR COAL.

The same can't be said of all coal, which varies greatly in quality. What is offered the public ought to be clear from rubbish; we take care of this matter. It ought to be of quality which, while it burns well, makes a strong and lasting fire. You know there are sorts of coal which make a brilliant fire, but its brilliancy and comfort are too short lived, and cost too much in the way of renewal. Knowing the trade well we have bought for domestic consumption, we believe with good judgment, and we offer to share the advantage of the deal.

BUSINESS SUITS

Are in order with the advent of autumn activity. No clothing suits business as all unless it fits exactly and perfectly. No garment fits properly unless it's made to order. That's the first axiom of dress, and it doesn't need proving. It's as plain as the multiplication table that our made-to-order suits are unequalled in town.

YOU RECOGNIZE THAT
Every time you see one of our suits which are exactly what they should be in every particular. The logic of facts is unanswerable.
