Alfred Peirce, Horse Thief, Captured in Raleigh.

Some time in 1888 the stable of Mr. . B. Forrest here was entered and valuable mare stolen therefrom. A day or so after, the stolen horse was brought to Andrews' blacksmith shop by a Mr. Carter, of Garner, to be shod. He said that he had traded a negro a mule for the horse. So Mr. Forrest got back his mare and Mr. Carter was out a mule.

Years after this Mr. Carter was in Raleigh and saw on the street his mule and the negro to whom he had traded it. He informed the police and two of them went off up Hillsboro street. They saw the negro, but he likewise saw them and took to his heels. And though the "coppers" thundered close in his rear, his nimble feet carried him away to safety. The mule, of course, was captured and carried back to its original owner.

Last week Alfred Peirce came from his hole. It had been twelve years since he had done the theft; Mr. Forrest had his horse; Mr Carter had his

mule; what was to present him from fasting town delights?

So Alfred came to town, but there were those here who knew him even after twelve years. So today he is in

England's Proposition in Regard to Turkey.

AN ALLIANCE POSSIBLE.

the Ram Katahdin Rejected-She Failed to Come up to Contract Requirements

the Press-Visitor.

WARHINGTON, D. C. Nov. 4. The distinguished war prophets who have been on the rampage in New England, Washington, and other parts of the country, should bag their heads and lock their jaws for a while. Instead of the red-handed ultimatum, demanding that we should either abaudon the Monroe doctrine or fight, which these self-made prophets have declared was in the course of preparation by England, the English Ambassador has, through Secretary Olney, approached President Cleveland with an olive branch in the shape of a proposition that the United States should form and alliance with England for the protection of English and American citizens and interests in Turkey. True, this proposition has nothing directly to do with the maintenance of the Monroe doctrine in Ven-suela, which has inspired all the war prophecies, but even a school boy can see that England would not be asking an alliance with a country that she expected soon to be at war with. Whether President Cleveland sees fit to accept this ailiance or not the fact that it has been asked for should be sufficient to cause Senator Chandler and Hon. Don. M. Dickinson to stop sitting up o' nights to prevent Canada eneaking New Hampshire and Michigan away from us. Notwithstanding President Cleveland's known aversion to "entangling foreign alliances," the impression among those who ought to know is that he will accept this invitation to act jointly with England in protecting Buglish and American citizens in Turkey, owing to the threatening aspect of affairs in that country.

The Bath Iron Works, of Bath, Maine, the builders of the Ammen ram Katabdin, are in a hole, so to speak. The naval trial board has reported to Secretary Herbert that the tract the vessel now stands rejected. The ground is taken by some naval officials that unless Congress comes to their release the Bath Iron Works wherever they can. But the matter is complicated by the fact that about \$700,000 worth of armor belonging to the United States is on the ressel. No official action has yet heen taken by Secretory Herbert. It is the belief that he will gladly accept the ressel if any legal way of doing so can be found.

HE TAKES IT COOLLY. Mr. Nichols Talks About the Failur

A reporter in making his rounds this morning dropped into the office of the Secretary of the Agricultural Society and found that official busily figuring to see how he was going to

pay three thousand dollars worth of premiums out of two thousand dol-lars in each. "How about this failure of some of the citizens of Raleigh in paying their

subscriptions?" "Nothing, except that about onethird of the amount has not been paid,

that is all there is about it." "Why haven't they paid?" we

"I don't know. I am not the keeper of other men's consciences, nor of their bank accounts. All that I know is, that they have not paid, and some of them actually deny subscribing, while their names, in their own handwriting, are on the books now in this office."

What are you going to do about

it?" we asked. "Do as the lamented Judge Davis said to old Jack Sharp on a certain occasion, 'What can I do?' On the faith of these pledges we published to the world that the premiums would be promptly paid. I am going to pay just as far as the money goes; and, as Judge Cloud would say, 'Am going to stop right thar,' and am then (the committee agreeing) going to publish the list of names of those who have subscribed and the amount that each has paid."

"Will you allow me to see the list?" the reporter asked.

"No; I am going to wait until the Executive Committee meets and submit the matter to them. If they say publish, then published it will be, and if citizens see their names on the wrong side of the ledger they will have no one to blame but themselves. These citizens have no right to embarrass the Executive Committee in this way.'

"Do you mean that you propose to publish a list of those who have not paid as well as those who have paid? Would not that be offensive?

I mean to say this: If the Executive Committee authorize it, I shall publish the list just as it is, the names of subscribers and the amount each one has paid. That is exactly what I mean. In this connection I desire to say in justice to those concerned, that many of our leading citizens have responded promptly and liberally to all calls made on them, and I vessel fell below the speed required in thank them for this support, but her trial trip. "You seem to take it very coolly," we remarked.

"Oh, yes; why sorry, it is purely a matter of business. If citizens who make money by the Fair want to destroy it, let them do so. It is their concern, but it is a little strange, isn't it, that some of those who make most by it are the most backward in paying. Bye-bye; simply say in your paper that we are going to pay as far as the money goes, and then publish the list and quit; that is all there is about it."

"When do you propose to publish this list?"

"Not until the Executive Commit tee meets; early next week I hope Understand me: it is purely business; nothing more.

PRACTICALLY A COMPROMISE.

The Case of C. M. Hawkins, Caveator, will be Settled Out of Court. The case of Colin M. Hawking caves tor, and the executors, propounders of the Hawkins will, should have ever, was postponed until this afternoon, it being understood that a set tlement might be brought about. At the afternoon session the witness in the case were discharged 'till tomorrow morning. I have it, however, on excellent authority that the case has been practically settled, baving been compromised with the exception of the

arrangement of several minor points. The case was the one concerning the one-witness codicil to Dr. Hawkins' will, which bequeathed \$10,000 to Colin Hawkins.

The counsel was brilliant. For the propounders were Shepherd and Bus ee, Ernest Haywood, Spier Whitaker and Jonn W. Graham; for the caveator. R. O. Burton, F. H. Busbee, Battle and Mordecai. Armistead Jomes and Isaac T. Dortch, of Goldsboro.

The Schaklefoot Charles' Yarn.

The report gained currency Saturday night that Charles Walton, better known as Schaklefoot Charles, the escaped murderer, was in hiding in the city. Organized parties were also reported to be in pursuit of Charles. The rumor created a deal of excitement and set all Wilmington street to talking.

It developed that George Smith, who has been in the workhouse more or less since he became of age, fooled a barkeeper with a note purporting to bear Walton's signature. The saloonkeeper went to Charles' supposed place of hiding, but Charles was nowhere to be found.

Miss Gib-denied positively that she had ever made such a remark about Mrs. MR. TUTTLE'S CIRCUS TICKETS.

Over a Year Ago he Sold a Couple "But The Cat Came Back."

It was just about a year ago that Walter L. Main's "biggest circus on earth" pitched its mammoth tents in Raleigh and its animals roared and acrobate tumbled and the whole paraphanalia of a circus lent themselves to the commendable task of opening the mouths and eyes of the thousands that crowded in past the ticket seller.

But with the coming of the circus came a country marriage and a transaction involving the small sum of fifty cents that makes a curious story. The couple that married probably lived happily ever after, but Rev. Mr. Tutt'e, the officiating minister, has undoubtedly had many anxious moments since.

At the coming of the show Rev. D. H. Tuttle was running a religious paper, the Rose of Sharon. And the advance agent in kindness of heart offered him two tickets. Mr. Tuttle remarked that he did not go to circuses; that he didn't believe in them; that he didn't want the tickets. "Well," said the showman,

"I'll leave them anyhow." So when Mr. John Smith and Miss Mary Ann Jones came in from the country in the course of an hour to be married, there lay on Mr. Tuttle's table two tickets to the "greatest"

The couple was nicely married and then it developed that their wedding trip would be to the circus.

"Would anything I could say keep you from going," asked the preacher. John Smith, newly married, got nervous. But he looked at his wife; in her eye was a steadfast purpose: 'Weuns are goin' to the show," he remarked.

"Then, "said Mr Tuttle, "I have two tickets here which you can have for 50 cents."

So the trade was made and Mr. and Mrs. John Jones drank red lemonade.

For a year the story was untold When the last circus came, it was sprung again. Last Sunday night a week ago Mr. Tuttle told the tale from his pulpit as is told above, says the Methodist divine who told it to

THE PENSION SWINDLERS,

One fulored Woman Sentenced—The Other Cases Set for April. The United States Court which was in session last week, came to a close taken quite ill, returned Saturday Court opens in Wilmington this week with quite a heavy docket. The ses-

sion will likely be a two weeks one. The cases around which interest centered at the Newbern term of court, were the pension fraud cases. The principal case was that against Jane Hill, colored, charged with defrauding the government by obtaining fraudulent pensions Jane succeeding in beating the government out of \$2,400 before she was discovered in her fraudulent scheme Jane obtained pension by posing as the husband of Ed. Hill, whom she swore served in the late war. Developments located Ed. in Lenoir county. He was one of the witnesses against Jane, and until recently was unaware that such a celebrity as Jane was living. Jane was found guilty of the charge and is now undergoing a twelve month's sen-

tence in the Newbern iail. There seems to have been a con spiracy in and around Newbern to defraud the government. Government detectives have been working the cases for several years. Numerous other cases similar to that of the Hill woman will be tried at the April term.

R. W. Carpenter, a wealthy white itizen, and Fred Douglass, colored. have been instrumental in securing these fraudulent pensions. The cases preferred against them will come up n April also.
