The Sultan's Policy of Playing Nations Don't Work.

ARMENIANS IN REVOLT.

Turkish Commander Resigns-Ministry is Distracted and Nations Push Their Demands, By Cable to the Press-Visitor.

CONSTANTINOPLE, Nov. 8 .- The news is that the new ministry is distracted. Their task is not encouraging. The Armenians are new somewhat in the wrong. They have become tired of submitting to outrages and latterly have been taking the offensive side, encouraged by England's generosity, instead of being grateful for Turkish concessions; Revolutionary Armenians are in open revolt throughout Asia.

It is stated also that the change in ministry was made to appease Mohammedan disaffection, not demonstration, against England. The Government deprecates any aid to Armenians, calculated to make them more active.

LONDON, Nov. 8 .- The Times Constantinople correspondent says that the entire body of foreign diplomats soceded that in the Turkish Capital in things is unbearable. The sole policy of the Sultan in playing the different powers against each other has hitherto been successful, but now serves only to intensify the representatives of powers in pressing their demands. They don't think there will be a fanatical outbreak against Christians.

Mr. Page's Daughter Critically Ill With Fever.

HAS NOT BEEN NOTIFIED

By Normal School Authorities-The Neglect of Dr. McIver Severely

Yesterday's PRESS-VISITOR noted briefy the return from Greensboro of Mr. Robert Page, a son of Sheriff Page, who brought from the Normal school his sister, who is seriously sick with typhoid fever. Today we had an interview with Deputy Charles Walters.

"Sheriff Page," says Mr. Walters, 'is very indignant about the way he has been treated by Dr. McIver. When his daughter was brought home she had been ill of typhoid fever for thirteen days and her condition is serious Yet he has never heard a word from the Normal school authorities concerning his daughter's condition. The fact that she was so seriously

ill was a great shock to him." Sheriff Page has another daughter, Miss Pauline, at the school; and it was from her alone that he learned anything of Miss Daisy Page's illness. Her letters were of a character to cause anxiety, but, not having heard anything from the school authorities, the sheriff thought that she must be unduly alarmed concerning her sister. It is certainly to be hoped that Dr. Mc-Iver can explain away the apparent heartlessness in the neglect to inform a fond father of his daughter's serious

BUCK KITCHEN'S BADDAY

"Penitentiary" Case Goes Against the Fusionists.

APPEAL WILL BE TAKEN

Said That Judge Coble Would Have Liked to See the Standford-Elling-

ton Decision. In Superior Court today Col. "Rain-In-The Face" Buck Kitchen received a severe set back, in the decusion rendered by Judge Coble against the alleged fusion directors off the penitentiary, who sued the Governor's appointees for that position. The case was concluded, as far as the hearing went, some days ago; the decision was expected sooner than it came. There are some who intimate that Judge Coble held back as long as possible in order that he might learn the decision of the Standford Ellington library suit, which is pending in Supreme Court and which in many respects is similar to the case just decided.

Judge Coble's decision this morning was given orally; he simply answering the first issue, which was: "was the plaintiff lagally elected?"

The judgment has not yet been drawn. It is a mere matter of form-In substance it will be that Henry C. Dockery, J. T. B. Hoover, Meyer Hahn, T.E. McKaskey, J. E. Bryan, J. A. Cheek, H. B. Parker and E. T. Wakefield are not entitled to the office of the directors of the State penitentiary, but that the Governors appointees, B. W. Ballard, W. H. Smith, S. C. Rankin, W. J. White, R. H. Hicks, T. L. Dale and R. E. Radburn, are entitled to said office.

The plaintiffs in the case will, as soon as the judgment is rendered, take an appeal to the Supreme Court-The public can get a very fair idea of what the decision in the case will be by watching the decision of the Supreme Court in the Standford Ellington case.

A New Discovery by Dr. Blacknall-

Dr. Blacknall is a public benefactor. This is known by everybody in these parts old enough to talk.

The Doctor has, through Mr. C. S. Powell, made a discovery, which from the Doctor's own statement, will place the country in a new era of prosperity. The Doctor's latest discovery is the

hog apple. In giving a description of this new vegetation the doctor said it was imported from Liberia or Siberia, he did not know which. The trees, according to the Doctor's statement, grow from fifteen to eighteen feet in three years, and when they have day over the Seaboard Air Line. seached that age they yield fruit very profusely. He says "the apple resembles a Siberian crab and it is the only double-hulled apple I ever saw. As a hog fattener, the apple beats beans and peas and peanuts and artichokes and chufas and corn and cabbage and tomatoes and anything I know of. The apples ripen in the fall and fall from the trees in the spring in great quantities. The hog comes along and gets himself in condition for killing. Hogs can be fattened on onefifth the present cost. If the apples come up to my expectations, as Mr. Powell and myself both think, then politics will be a thing of the past and

we won't have any politicians." Just why the doctor made the last statement at this time is not known.

STRAIGHT TOBACCO TIPS.

Large Receipts Lately, Market Open-

The tobacco market has opened up again and the warehouses here are doing a rushing business. Sales were practically at a standstill and the business was paralyzed temporarily during the drought for the fact that it was impossible to move the bright weed without breaking it up. Since the recent rain the market has been quite active

Messrs. Williamson and Lee have had large breaks for the past two days at their warehouse on Bast Davie street. The floor was covered with tobacco yesterday. Farmers are satisfied, for they have received good prices. For the past three days breaks have been active. Over 100,000 pounds have been handled this week. The tobacco today came principally from Wake county. Chatham was also well represented. Mr. Council of this county, sold one barn which averaged \$32 50, W. C. Johnson averaged \$35

county farmers. The tobacco industry is a good one. It has already received a strong foot hold in Wake county. Raleigh is making an effort to become a leading tobacco market and with proper encouragement from the business men it can be done.
