ONLY one woman in ten in Massachusetts availed herself of the privilege of registering to vote this year—about 26,000 in all.

PADERWICKI, the noted pianist, received the largest sum paid to any single performer for a night's work in New York city. He received \$5,000 for a few hours' pleasant work recently.

Our contemporary, the News and Observer, showed in its columns of yesterday some of the first of the work of its Mergenthaler linotype machines. The introduction of these machines by the News and Observer is an evidence of progress, and we congratulate our contemporary upon its introduction of them.

The introduction of electricity in paper-making by the Cliff Mills of Niagara Falls may finally operate to induce the Paper Trust to throw away as antiquated a good part of the plants now valued so highly in estimates of capitalization. The motors of a hundred horse-power each which have been introduced will make anti-trust paper, and it is said that the cost will be less than \$10 a horse-power for a continuous twenty-four hours' service. The superintendent of a Niagara Falls mill is quoted as saying that paper can be made for from \$25 to \$30 a ton, or from one and a quarter to one and a half cents a pound, with a margin of profit.

In a conversation with one of the State's most eminent Statesmen and jurists, he expressed the belief that if the eyes of some of the people of North Carolina could be opened to the suicidal course they have pursued in repudiating the party which has given North Carolina a clean, prosperous government since the war, they would pause and think and take to heart the importance of good government at the hour which is paramount to the ignes fatui of which they are in pursuit. There are things domestic which are of infinitely more importance than some of the imaginary and impracticable blessings for which they are crying, and yet they are being blindly lost sight of.

A DISPATCH from Washington says: The elections of Tuesday last do not affect the present membership of the United States Senate. Mr. Brice of Ohio, Gibson of Missouri, Blackburn of Kentucky will remain in the Senate until March 4th, 1897, so that they will participate in the two full sessions of Congress which begins on the first Monday of next December.

The indirect effect of the elections, it is expected, will be to deprive the movement for an immediate reorganization of the Senate of much of its force. The Republicans could only secure control of that body by making concessions to the free silver advocates. Stewart and Jones of Nevada and the Populist, Peffer, of Kansas. Their leading men have been averse to taking this step, and now that two Republican senators from Utah are assured soon after January next when the legislature meets there is a growing disposition to wait until the Senate can be organized by the Republicans themselves without entangling alliances.

There are other sources of supply to be drawn upon. According to Republican calculation New York will send a Republican to succeed Hill March 4th, 1897 and it is regarded as within the bounds of strong probability that at the same time Senators Palmer of Illinois, Vest of Missouri and Vilas of Wisconsin may each be given a Republican successor so there is no need to hurry Senate re-organization.

READY FOR THE FALL CAMPAIGN
With everything decreed by the world's dictators of Fashion for the coming season, and governed by the moderate price system which has built up our vast constituency, and keeps increasing it in gratifying volume season after season.
YOUR MONEY'S FULL VALUE
Is considered fair and upright dealing everywhere but we are never satisfied unless we can get this accepted mercantile truism one better; to out-do the best values of our competitors and to improve upon our own. Your inspection of prices will, we think make evident the success with which we have applied the above principle or rather our improvement upon it.

CLOTHING
As stylish, handsome and new as it is possible to make them at prices lower than most houses ask for last season's carried-over stock.
GENTS' FURNISHINGS AND SHOES.
No pains have been spared to make each department in its line complete all the fashionable centres having been carefully examined with the result that we can show you up-to-date stuff as worn by the fashionable people of today. We invite your criticism.
