Hubbard Bros. & Co.'s Cotton Letter.

Hubbard Bros. & Co.'s Cotton Letter. Special to the Press-Visitor. NEW YORK, Nov. 21.—The trade demand in Liverpool today was not as active as the trade expected, and the arrival market was disappointing to the trade. But it quickly improved when it was found that the movement instead of increasing, as had been universally expected, was lighter than last week. Selling by one of the largest spinners broke open the market at a decline, but this was quickly recovered on large purchases for Liverpool account, establishing an advance, although the temper of traders is against an advance. The larger interests have been free buyers of cotton on the depression because of what seems to be a marked falling off in the movement, which will maintain and increase the demand for cotton from European spinners who have not secured their supplies. The local trade is bearish on the grounds that the market cannot recover from the severe decline of the past six weeks, and on the Bombay movement, which is 45,000 bales against 6,000 bales last season.

This Last Appointment Promising to Renew the Massacre of Americans Who Have Surrendered. By Cable to the Press-Visitor.
